Volume 10222

Proceedings of SPIE 0277-786-786X, V.10222

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

Computational Imaging II, edited by A. Mahalanobis, A. Ashok, L. Tian, J. C. Petrucci, K. S. Kubala,
Proc. of SPIE Vol. 10222, 1022201 · © 2017 SPIE · CCC code: 0277-786X/17/\$18 · doi: 10.1117/12.2280903

Proc. of SPIE Vol. 10222 1022201-1

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIEDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Paper Numbering: *Proceedings of SPIE* follow an e-First publication model. A unique citation identifier (CID) number is assigned to each article at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

v	<i>Authors</i>
vii	<i>Conference Committee</i>

SESSION 1

10222 02	Active illumination computational imaging for optical super resolution, 3D topography, and indirect imaging (Invited Paper) [10222-1]
10222 04	Feature-enhanced computational infrared imaging [10222-3]

SESSION 2

10222 08	Lensless computational imaging using 3D printed transparent elements [10222-7]
----------	---

SESSION 3

10222 0A	Using MODIS data and Saastamoinen model for atmospheric effect reduction in interferometry [10222-9]
10222 0B	An efficient algorithm for model based blind deconvolution [10222-10]
10222 0D	Atmospheric effects estimation on SAR images using a pure statistical method [10222-12]
10222 0E	Combination of correlated phase error correction and sparsity models for SAR [10222-13]

SESSION 4

10222 0G	High-speed holographic imaging using compressed sensing and phase retrieval [10222-15]
10222 0H	Controlled aberrations for snapshot compressive imaging [10222-16]
10222 0J	Unified optimization framework for L2, L1, and/or L0 constrained image reconstruction [10222-18]

SESSION 5

10222 0L	A stick-shaped multi-aperture camera for intra-oral diagnosis (Invited Paper) [10222-20]
10222 0M	Texture orientation-resolving imaging with structure illumination [10222-21]

10222 ON **Fluorescence lifetime estimation using a dynamic vision sensor** [10222-22]

SESSION 6

10222 OP **Matrix sparsification and non-negative factorization for task partitioning in computational sensing and imaging** [10222-5]

10222 OR **Source diversity for contrast transfer function imaging** [10222-26]

Authors

Numbers in the index correspond to the last two digits of the seven-digit citation identifier (CID) article numbering system used in Proceedings of SPIE. The first five digits reflect the volume number. Base 36 numbering is employed for the last two digits and indicates the order of articles within the volume. Numbers start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B...0Z, followed by 10-1Z, 20-2Z, etc.

Conference Committee

Symposium Chair

Majid Rabbani, Rochester Institute of Technology (United States)

Symposium Co-Chair

Robert Fiete, Harris Corporation (United States)

Conference Chairs

Abhijit Mahalanobis, Lockheed Martin Missiles and Fire Control
(United States)

Amit Ashok, College of Optical Sciences, The University of Arizona
(United States)

Lei Tian, Boston University (United States)

Jonathan C. Petrucci, University at Albany (United States)

Kenneth S. Kubala, FiveFocal LLC (United States)

Conference Program Committee

Thomas G. Bifano, Boston University (United States)

Oliver Cossairt, Northwestern University (United States)

Joseph E. Ford, University of California, San Diego (United States)

Michael E. Gehm, Duke University (United States)

Adrian Stern, Ben-Gurion University of the Negev (Israel)

Andreas Velten, University of Wisconsin-Madison (United States)

Laura Waller, University of California, Berkeley (United States)

Ge Wang, Rensselaer Polytechnic Institute (United States)

Zeev Zalevsky, Bar-Ilan University (Israel)

Yunhui Zhu, Virginia Polytechnic Institute and State University
(United States)

Session Chairs

1 Session 1

Amit Ashok, College of Optical Sciences, The University of Arizona
(United States)

2 Session 2

Timothy L. Overman, Lockheed Martin Space Systems Company
(United States)

- 3 Session 3
Yunhui Zhu, Virginia Polytechnic Institute and State University
(United States)
- 4 Session 4
Hsiou-Yuan Liu, University of California, Berkeley (United States)
- 5 Session 5
Jonathan C. Petruccelli, University at Albany (United States)
- 6 Session 6
Lei Tian, Boston University (United States)
