Proc. of SPIE Vol. 10548 1054801-1

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIEDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Paper Numbering: *Proceedings of SPIE* follow an e-First publication model. A unique citation identifier (CID) number is assigned to each article at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

NONLINEAR EFFECTS FOR STEEP DISPERSION

- 10548 0U **Dispersion engineering with stimulated Brillouin scattering and applications (Invited Paper)**
[10548-30]
- 10548 0X **Effect of particular nonlinear dispersion in photorefractive four-wave mixing on slow and fast light (Invited Paper)** [10548-33]

FAST LIGHT, NON-RECIPROCITY, PT SYMMETRY, AND RELATED TOPICS

- 10548 12 **Time cloak based on slow/fast light effects in fiber Mach-Zehnder interferometers (Invited Paper)** [10548-37]

INTEGRATED AND NANOTECHNOLOGY FOR PRECISION METROLOGY AND DISPERSION ENGINEERING

- 10548 1G **Fully integrated standalone zero field optically pumped magnetometer for biomagnetism (Invited Paper)** [10548-51]

QUANTUM TECHNOLOGIES FOR PRECISION METROLOGY AND SENSING

- 10548 1K **Quantum astronomy: scientific background, technologies, achieved results, and future developments (Invited Paper)** [10548-55]

ATOM INTERFEROMETRY

- 10548 1X **Simple, precise, and versatile atom interferometer for field applications (Invited Paper)**
[10548-68]
- 10548 1Y **Raman spectroscopy using a continuous beam from a 2D MOT (Invited Paper)** [10548-69]

POSTER SESSION

- 10548 20 **Atomic clock stability under dynamic excitation of coherent population trapping resonance in cells without buffer gas** [10548-71]

Numbers in the index correspond to the last two digits of the seven-digit citation identifier (CID) article numbering system used in Proceedings of SPIE. The first five digits reflect the volume number. Base 36 numbering is employed for the last two digits and indicates the order of articles within the volume. Numbers start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B...0Z, followed by 10-1Z, 20-2Z, etc.
