Event: SPIE Asia-Pacific Remote Sensing, 2018, Honolulu, Hawaii, United States

PROCEEDINGS OF SPIE

Remote Sensing and Modeling of the Atmosphere, Oceans, and Interactions VII

**Guosheng Liu
Ziad S. Haddad**
Editors

**25–26 September 2018
Honolulu, Hawaii, United States**

Sponsored by
SPIE

Cosponsored by
NASA—National Aeronautics and Space Administration (United States)
RADI—Institute of Remote Sensing and Digital Earth, Chinese Academy of Sciences (China)
State Key Laboratory of Remote Sensing Science, Chinese Academy of Sciences (China)
Ministry of Earth Sciences (India)

Cooperating Organizations
University of Hawai'i at Mānoa (United States) • JAXA—Japan Aerospace Exploration Agency (Japan)
NICT—National Institute of Information and Communications Technology (Japan) • ISRO—Indian Space
Research Organization (India) • ESSO—Earth System Science Organization (India)

SPIE

Volume 10782

Proceedings of SPIE 0277-786X, V. 10782

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

Remote Sensing and Modeling of the Atmosphere, Oceans, and Interactions VII, edited by Guosheng Liu
Ziad S. Haddad, Proc. of SPIE Vol. 10782, 1078201 · © 2018 SPIE
CCC code: 0277-786X/18/\$18 · doi: 10.1117/12.2520659

Proc. of SPIE Vol. 10782 1078201-1

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIEDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Paper Numbering: *Proceedings of SPIE* follow an e-First publication model. A unique citation identifier (CID) number is assigned to each article at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

v	<i>Authors</i>
vii	<i>Symposium Committees</i>
xi	<i>Conference Committee</i>

SESSION 1 UNDERSTANDING ATMOSPHERIC PROCESSES

10782 02	Temporal and spatial evaluation of long-term satellite-based precipitation products across the complex topographical and climatic gradients of Chile [10782-27]
10782 03	Interpreting millimeter-wave radiances over convective clouds [10782-3]
10782 04	The challenges of representing vertical motion in numerical models [10782-4]

SESSION 2 STUDIES ON MONSOON AND HURRICANES

10782 06	Association between upper level diffluence in the Tropical Easterly Jet and the formation of the strongest Atlantic hurricanes in recent years [10782-6]
10782 08	A low-wavenumber analysis of the relative roles of the environmental and vortex-scale variables responsible for rapid intensity changes in landfalling tropical cyclones [10782-8]
10782 0A	Constraining the models' response of tropical clouds to SST forcings using CALIPSO observations [10782-10]

SESSION 4 UNDERSTANDING ATMOSPHERIC RADIATIVE PROPERTIES

10782 0G	Comparison and research of group refractivity models and atmospheric delay to lidar [10782-17]
10782 0H	Drop size distribution observed by dual-frequency precipitation radar onboard global precipitation measurement core satellite [10782-23]

- 10782 OJ **Effects of turbulence on the transmission of partially coherent vortex beams in the ocean environment** [10782-19]
- 10782 OK **Deriving the slant visibility using the Klett method and the visualization of the slant visibility at the airport** [10782-20]

POSTER SESSION

- 10782 OM **Aerosol impacts on the atmospheric circulation field over Asia** [10782-22]
- 10782 ON **Comparisons of radiative transfer models for GMI assimilation in WRF** [10782-24]

Authors

Numbers in the index correspond to the last two digits of the seven-digit citation identifier (CID) article numbering system used in Proceedings of SPIE. The first five digits reflect the volume number. Base 36 numbering is employed for the last two digits and indicates the order of articles within the volume. Numbers start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B...0Z, followed by 10-1Z, 20-2Z, etc.

Symposium Committees

Symposium Chair

Upendra Singh, NASA Langley Research Center (United States)

Symposium Co-chairs

Toshiyoshi Kimura, Japan Aerospace Exploration Agency
(Japan)

K. J. Ramesh, Ministry of Earth Sciences (India)

Jiancheng Shi, Institute of Remote Sensing and Digital Earth
(China)

Honorary Symposium Chairs

Huadong Guo, Institute of Remote Sensing and Digital Earth
(China)

Stephen Jurczyk, National Aeronautics and Space Administration
(United States)

A. S. Kiran Kumar, Indian Space Research Organisation (India)

Jean-Yves Le Gall, Centre National d'Études Spatiales (France)

Robert M. Lightfoot, Jr., National Aeronautics and Space
Administration (United States)

Madhavan N. Rajeevan, Ministry of Earth Sciences (India)

Alain Ratier, EUMETSAT (Germany)

Hiroshi Yamakawa, Japan Aerospace Exploration Agency
(Japan)

Symposium International Organizing Committee

Michael H. Freilich, *Chair*, National Aeronautics and Space
Administration (United States)

Jack A. Kaye, National Aeronautics and Space Administration
(United States)

Barry L. Lefer, National Aeronautics and Space Administration
(United States)

Clayton P. Turner, NASA Langley Research Center (United States)

Pamela Millar, NASA Goddard Space Flight Center
(United States)

David F. Young, NASA Langley Research Center (United States)

Tapsan Misra, Indian Space Research Organisation
(India)

Kazuo Tachi, Japan Aerospace Exploration Agency (Japan)

Katsuhiro Nakagawa, National Institute of Information and
Communications Technology (Japan)
Haruhisa Shimoda, Tokai University (Japan)
Kohei Mizutani, National Institute of Information and
Communications Technology (Japan)
Wonkook Kim, Korea Institute of Ocean Science and Technology
(Republic of Korea)
YoungJe Park, Korea Institute of Ocean Science and Technology
(Republic of Korea)
Jhoon Kim, Yonsei University (Republic of Korea)
Xianqiang He, Second Institute of Oceanography, State Oceanic
Administration (China)
Shunling Liang, Beijing Normal University (China)

Conference Committee

Conference Chairs

Guosheng Liu, Florida State University (United States)
Ziad S. Haddad, Jet Propulsion Laboratory (United States)

Conference Program Committee

Yihui Ding, China Meteorological Administration (China)
Tiruvalam N. Krishnamurti, Florida State University (United States)
Michiko Masutani, Joint Center for Satellite Data Assimilation
(United States) and Earth System Science Interdisciplinary Center
(ESSIC), University of Maryland (United States)
Ravi S. Nanjundiah, Indian Institute of Science (India)
Riko Oki, Japan Aerospace Exploration Agency (Japan)
Madhavan Nair Rajeevan, Indian Institute of Tropical Meteorology
(India)

Session Chairs

- 1 Understanding Atmospheric Processes
Guosheng Liu, Florida State University (United States)
- 2 Studies on Monsoon and Hurricanes
Ziad S. Haddad, Jet Propulsion Laboratory (United States)
- 3 Observations of Cloud and Precipitation
Gregory J. Tripoli, University of Wisconsin-Madison (United States)
- 4 Understanding Atmospheric Radiative Properties
Yun-Fei Fu, University of Science and Technology of China (China)
