Erratum Published: 14 June 2019

A revised version of this manuscript was published on 14 June 2019. Details of the revision are provided below. The original paper has been updated.

- 1, in Eq.2, a transpose symbol is added to the second term of the equation. Before $2\sum_{i=1}^{Np} S \cdot R\tilde{p}_i^k \tilde{m}_i^k$, after $2\sum_{i=1}^{Np} S \cdot (R\tilde{p}_i)^{(T)} \tilde{m}_i^k$.
- 2, in Eq.3, a minus symbol is added to the matrix. Before $\begin{pmatrix} 1 & 0 & 0 \\ 0 & 1 & 0 \\ 0 & 0 & 1 \end{pmatrix}$, after $\begin{pmatrix} 1 & 0 & 0 \\ 0 & 1 & 0 \\ 0 & 0 & -1 \end{pmatrix}$.
- 3, in Eq.4, a transpose symbol is added to the numerator. Before $\sum_{i=1}^{Np} R^{k+1} \tilde{p}_i^k \tilde{m}_i^k$, after $\sum_{i=1}^{Np} (R^{k+1} \tilde{p}_i)^{(T)} \tilde{m}_i^k$.
