Event: SPIE Defense + Commercial Sensing, 2020, Online Only

PROCEEDINGS OF SPIE

Dimensional Optical Metrology and Inspection for Practical Applications IX

**Kevin G. Harding
Song Zhang**
Editors

**27 April – 8 May 2020
Online Only, United States**

Sponsored and Published by
SPIE

Volume 11397

Proceedings of SPIE 0277-786X, V. 11397

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

Dimensional Optical Metrology and Inspection for Practical Applications IX, edited by Kevin G. Harding,
Song Zhang, Proc. of SPIE Vol. 11397, 1139701 · © 2020 SPIE
CCC code: 0277-786X/20/\$21 · doi: 10.1117/12.2572605

Proc. of SPIE Vol. 11397 1139701-1

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIEDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Dimensional Optical Metrology and Inspection for Practical Applications IX*, edited by Kevin G. Harding, Song Zhang, Proceedings of SPIE Vol. 11397 (SPIE, Bellingham, WA, 2020) Seven-digit Article CID Number.

Paper Numbering: *Proceedings of SPIE* follow an e-First publication model. A unique citation identifier (CID) number is assigned to each article at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

OPTICAL METROLOGY METHODS I

- 11397 02 **Improving the measurement robustness of active stereo 3D sensors by optimization of shifted aperiodic fringe patterns (Invited Paper)** [11397-1]
- 11397 03 **Extension of the registration possibilities and determination of the positioning precision of a multi-scale fringe projection system** [11397-2]
- 11397 04 **3D high-resolution multimodal imaging system for real-time applications** [11397-3]
- 11397 05 **Continuous low-latency 3D measurements using efficient freeform GOBO pattern projection and close-to-sensor image rectification** [11397-4]

OPTICAL METROLOGY METHODS II

- 11397 07 **High resolution flatness measurements on diffuse and scattering surfaces** [11397-6]
- 11397 08 **Uniaxial fringe projection profilometry using projection defocus** [11397-7]

OPTICAL METROLOGY ANALYSIS I

- 11397 0A **Similarity evaluation of 3D topological measurement results using statistical methods (Rising Researcher Paper)** [11397-9]
- 11397 0D **What is the best triangulation approach for a structured light system?** [11397-12]
- 11397 0E **Distortion-free camera calibration** [11397-13]

OPTICAL METROLOGY APPLICATIONS

- 11397 0I **Large part metrology challenges and lessons learned** [11397-18]

POSTER SESSION

- 11397 0K **Research of percolation at objects for waste disposal according to space image data** [11397-20]
