, "Front Matter: Volume 11476," Proc. SPIE 11476, Organic and Hybrid Field-Effect Transistors XIX, 1147601 (17 September 2020); doi: 10.1117/12.2581646

Event: SPIE Organic Photonics + Electronics, 2020, Online Only

PROCEEDINGS OF SPIE

Organic and Hybrid Field-Effect Transistors XIX

Iain McCulloch
Oana D. Jurchescu
Editors

24 August – 4 September 2020
Online Only, United States

Sponsored and Published by
SPIE

Volume 11476

Proceedings of SPIE 0277-786X, V. 11476

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

Organic and Hybrid Field-Effect Transistors XIX, edited by Iain McCulloch,
Oana D. Jurchescu, Proc. of SPIE Vol. 11476, 1147601 · © 2020 SPIE
CCC code: 0277-786X/20/\$21 · doi: 10.1117/12.2581646

Proc. of SPIE Vol. 11476 1147601-1

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIEDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Organic and Hybrid Field-Effect Transistors XIX*, edited by Iain McCulloch, Oana D. Jurchescu, Proceedings of SPIE Vol. 11476 (SPIE, Bellingham, WA, 2020) Seven-digit Article CID Number.

Paper Numbering: *Proceedings of SPIE* follow an e-First publication model. A unique citation identifier (CID) number is assigned to each article at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

MATERIALS II

- 11476 0A Formation of highly crystalline organic semiconductor thin films by inkjet printed thickness gradients [11476-7]

PHYSICS I

- 11476 0T Contact engineering in vertical hybrid field effect transistor [11476-26]
