PROCEEDINGS OF SPIE

International Workshop on Automation, Control, and Communication Engineering (IWACCE 2021)

Qi Huang
Editor

7–9 August 2021
Virtual Event

Organized and Sponsored by
Association for Science and Engineering

Published by
SPIE

Volume 11929

Proceedings of SPIE 0277-786X, V. 11929

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

International Workshop on Automation, Control, and Communication Engineering (IWACCE 2021),
edited by Qi Huang, Proc. of SPIE Vol. 11929, 1192901 · © 2021 SPIE
CCC code: 0277-786X/21/\$21 · doi: 10.1117/12.2616339

Proc. of SPIE Vol. 11929 1192901-1

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at [SPIDigitalLibrary.org](https://spiedigitallibrary.org).

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *International Workshop on Automation, Control, and Communication Engineering (IWACCE 2021)*, edited by Qi Huang, Proc. of SPIE 11929, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

INTERNATIONAL WORKSHOP ON AUTOMATION, CONTROL, AND COMMUNICATION ENGINEERING (IWACCE 2021)

11929 02	Fault diagnosis method of centrifugal pump based on PARAFAC-SVM [11929-3]
11929 03	Leader-follower irrigation system management with Shapley value [11929-4]
11929 04	A task offloading approach based on opportunistic prediction in mobile ad-hoc network [11929-5]
11929 05	Software reliability and security test model of intelligent electric meters [11929-6]
11929 06	Hyperspectral moving target detection algorithm based on multi-scale fusion [11929-8]
11929 07	SA-LIFT: a similar area learning invariant feature transform network framework [11929-9]
11929 08	Fault detection of microwave source in high-power microwave heating system based on wavelet analysis [11929-13]
11929 09	Design of a smart hotel RCU system with re-configurable control logic [11929-14]
11929 0A	A monitoring signal denoising algorithm of eddy current for outer casing pipe of double-layer pipe [11929-15]
11929 0B	A method for on-line monitoring and fault positioning of abnormality in multi-epitope voltage-withstand test device [11929-16]
