SPIE

Volume 12127

Proceedings of SPIE 0277-786X, V. 12127

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

International Conference on Intelligent Equipment and Special Robots (ICIESR 2021), edited by Qiang Zhang,
Zhong You, Proc. of SPIE Vol. 12127, 1212701 · © 2021 SPIE · 0277-786X · doi: 10.1117/12.2626014

Proc. of SPIE Vol. 12127 1212701-1

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at [SPIDigitalLibrary.org](https://spiedigitallibrary.org).

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *International Conference on Intelligent Equipment and Special Robots (ICIESR 2021)*, edited by Qiang Zhang, Zhong You, Proc. of SPIE 12127, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

INTELLIGENT DEVICE DESIGN AND INTELLIGENT DETECTION TECHNOLOGY

12127 02	A non-contact picking device based on the coupling action of ultrasonic levitation and vacuum adsorption [12127-61]
12127 03	Atomization analysis of coal caving dust reduction device in working face [12127-52]
12127 04	Optimization design of air filter and integrated device for roots blower [12127-111]
12127 05	Design of coding device based on color characteristics and K-means separable [12127-47]
12127 06	Analysis of the influence of accumulator on the stability of liquid supply of emulsion pump station [12127-25]
12127 07	Design and simulation analysis of terminal execution device of soft worm-like [12127-42]
12127 08	Effect of operating parameters on flow field and classification performance of double vortex finder hydrocyclones [12127-38]
12127 09	Fluid pipe network intelligent detection and warning [12127-53]
12127 0A	Fault diagnosis of rolling bearing based on a mine fan bearing [12127-45]
12127 0B	Method of detecting wear of rigid tank way of vertical shaft based on machine vision [12127-50]
12127 0C	Research on on-line high-precision detection technology of outer diameter for piston pins [12127-118]
12127 0D	Dynamic characteristics analysis of triangular damping groove in port plate of double compound axial piston pump [12127-54]
12127 0E	The mixing oil loss analysis of planetary gear train based on MPS method [12127-51]
12127 0F	The chatter characteristics and suppression strategy of drilling hard and brittle materials based on axial-torsional coupling [12127-43]
12127 0G	Structure optimization design of traction fertilizer spreader [12127-64]
12127 0H	Fault diagnosis of rolling bearing based on CS-fuzzy neural network and wavelet packet transform [12127-137]
12127 0I	Design of fuzzy adaptive synovial control system for lower limb exoskeleton [12127-76]

12127 OJ	Tear detection of conveyor belt based on machine vision [12127-32]
12127 OK	A bearing fault diagnosis method based on improved convolution neural network and transfer learning [12127-127]
12127 OL	Study of air atomization gun operating parameters on flow field characteristics [12127-115]
12127 OM	Analysis and design of a water-cooling structure for 18650 cylindrical battery [12127-123]
12127 ON	Simulation and experimental study on buffer characteristics of a new mandrel type hydraulic buffer [12127-79]
12127 OO	Application of surface fitting to the problem of upward sliding of equipment on a coal workface [12127-55]
12127 OP	Stability of process parameters based on nonlinear forces in cylindrical micro-grinding [12127-65]
12127 OQ	Application of intelligent monitoring and management technology for non-suspend air construction in airport engineering [12127-10]
12127 OR	Test method for bridge wire temperature during ignition of electric explosive device [12127-130]
12127 OS	Detection and analysis of gas pollutants in vehicle based on PID electronic nose [12127-4]
12127 OT	Analysis of operation conditions of manned submersible in the North Indian Ocean [12127-2]
12127 OU	Analysis of sea conditions for manned submersible operation in Northeast Pacific [12127-8]
12127 OV	Optimization study on installation angle optimization of vacuum tube collector in high altitude towns in Western Sichuan [12127-11]
12127 OW	Structural analysis and optimization of hydraulic lifting device for ground emergency rescue drilling rig [12127-6]
12127 OX	Design and laboratory test of small diameter submersible pump [12127-9]
12127 OY	Research on bomb simulation model [12127-5]

SPECIAL ROBOTS AND ELECTROMECHANICAL CONTROL TECHNOLOGY

12127 OZ	Research on trajectory optimization of six-degree-of-freedom industrial robot [12127-27]
12127 IO	The underwater rolling capability of 3-RPS rolling robot [12127-91]

- 12127 1I **Fuzzy sliding mode control of permanent magnet synchronous motor based on an improved index reaching law** [12127-44]
- 12127 1J **Characteristic analysis of shearer drum cutting gangue coal and rock with different angles** [12127-41]
- 12127 1K **Brief introduction of total-environment full-scale accelerated pavement loading facility** [12127-33]
- 12127 1L **Research on adaptive trajectory following of lower limb rehabilitation exoskeleton based on sliding mode control** [12127-84]
- 12127 1M **Modular design of small underwater robot control system** [12127-85]
- 12127 1N **A bone recognition method of vertebral plate grinding of spine surgery robot** [12127-78]
- 12127 1O **Research on adaptive cutting optimization of shearer in coal seam with gangue** [12127-63]
- 12127 1P **Optimal design and resistance analysis of underwater biological monitoring robot** [12127-97]
- 12127 1Q **Structure optimization and gait analysis of parallel quadruped robot** [12127-40]
- 12127 1A **Slip recognition and fuzzy control of belt conveyor inspection robot** [12127-105]
- 12127 1B **Learning to walk with biped robot based on an improved proximal policy optimization algorithm** [12127-96]
- 12127 1C **Research progress and theoretical analysis of robot formation control** [12127-126]
- 12127 1D **Research on the docking and positioning technology based on multi-sensor fusion for submarine cable inspection robot** [12127-120]
- 12127 1E **A trajectory planning method of vertebral plate grinding of spine surgery robot** [12127-81]
- 12127 1F **Forward kinematics of parallel robot based on neural network Newton-Raphson iterative algorithm** [12127-36]
- 12127 1G **Stabilization control of under-actuated mechanical system based on improved NPSO-PID controller** [12127-68]
- 12127 1H **Research on autonomous exploration motion planning method of mobile robots for unstructured scenarios** [12127-30]
- 12127 1I **Dynamic characteristics and reduction mechanism considering frictional self-excited chatter in micro-cutting** [12127-60]
- 12127 1J **Research on 4WS-DS control strategy of electric wheel vehicle** [12127-124]

12127 1K	Compensation control and simulation of a tendon-sheath transmission system applied to lower limb exoskeleton robots [12127-119]
12127 1L	Kinematic dexterity performance analysis of a parallel robot manipulator [12127-59]
12127 1M	Finite element analysis of rock breaking experimental bench of high pressure water fracturing assisted pick [12127-74]
12127 1N	A novel bionic jellyfish robot for seabed rock drilling and sampling exploration [12127-136]
12127 1O	Shape optimization of underwater robots based on resistance reduction [12127-77]
12127 1P	Kinematics analysis and simulation of a cooperative manipulator [12127-114]
12127 1Q	Structural design and motion analysis of adaptive pipeline robot [12127-131]
12127 1R	Simplified analysis of dynamic machine foundation-subgrade dynamic interaction [12127-18]
12127 1S	Optimization design study of monolayer steel frame structures in power substation [12127-14]
12127 1T	Resistivity response characteristics of X5 collapse column in Shiquan coal mine [12127-129]
12127 1U	Study on the technology of microwave in-drum drying [12127-17]
12127 1V	Research on key technology of large diameter pressure relief drilling [12127-20]
12127 1W	Fixed point acoustic monitoring of marine organisms in open water intake channel of nuclear power plant [12127-16]
12127 1X	Fault analysis and treatment of stator cooling water pump in a power plant [12127-15]
12127 1Y	Design of dynamic monitoring system of hoisting derrick based on wireless communication [12127-56]

INTELLIGENT ALGORITHM ANALYSIS AND IMAGE TARGET DETECTION

12127 1Z	Performance analysis of Dyna-Q algorithm in unstable environment [12127-24]
12127 20	Dynamic parameter identification method derived from dynamic forgetting factor recursive least square method [12127-93]
12127 21	An improved RRT dual tree path planning algorithm [12127-49]
12127 22	An improved adaptive genetic algorithm for job shop scheduling problem [12127-92]

12127 23	Improved RRT path planning algorithm based on growth evaluation [12127-122]
12127 24	Fast detection algorithm for surface defects of metal parts based on YOLOv4-mobilenet network [12127-116]
12127 25	Research on coal gangue detection algorithm based on YOLOv4 [12127-90]
12127 26	Research on the application of low-light enhancement methods in radiographic inspection pretreatment [12127-82]
12127 27	Research on process route method based on directed graph topological sorting [12127-26]
12127 28	Natural light reconstruction of three-dimensional image based on two-step volume holography [12127-29]
12127 29	Analysis of pressure resistance performance of mine borehole pressure pillows based on finite element method [12127-133]
12127 2A	Numerical simulation of LIU-InSAFT imaging detection [12127-72]
12127 2B	Analysis on influencing factors of on-line high-precision outer diameter measurement for piston pins [12127-112]
12127 2C	Accuracy analysis of three degrees of parallel mechanism based on Monte Carlo Simulation [12127-62]
12127 2D	Multi-pedestrian tracking based on hierarchical Siamese Neural Network [12127-117]
12127 2E	Coal rock interface recognition method based on forward detection of ground penetrating radar [12127-134]
12127 2F	Numerical analysis of heat transfer enhancement of helical tube with twisted tapes under one-side heating [12127-104]
12127 2G	Research on surface defect detection method of steel parts based on barkhausen effect [12127-66]
12127 2H	Research on dimension reduction method of target object classification based on visual touch fusion [12127-87]
12127 2I	Research on the influence of contraction curve on the flow field performance of Laval nozzle [12127-37]
12127 2J	On-line measuring system of moving up-down-shift in fully mechanized mining face based on lidar [12127-75]
12127 2K	Nonstationary signal de-noising method of slow-speed large-size slewing bearing using robust local mean decomposition [12127-31]
12127 2L	Research on weld defect detection based on eddy current thermal imaging [12127-67]

12127 2M	3D point cloud relocation in the mine scene [12127-110]
12127 2N	Modeling and simulation analysis of a certain planetary gear [12127-89]
12127 2O	Comparison of consensus in different multi-agent networks with diverse time-delays [12127-128]
12127 2P	Prediction of pick wear degradation based on Wiener process [12127-35]
12127 2Q	Seismic vulnerability analysis of aqueduct [12127-13]
12127 2R	A multi-path optimal communication (MPOC) technology of coal mine safety monitoring system [12127-3]
12127 2S	Study on prediction of spontaneous combustion fire in goaf of coal mine [12127-21]
12127 2T	Study on infrared detection of coal seam spontaneous combustion high temperature anomaly area [12127-23]
12127 2U	Statistical analysis of elevator failures and safety [12127-1]
12127 2V	Study on characteristics of shearer cutting coal with faults based on discrete element method [12127-135]
