, "Front Matter: Volume 6551," Proc. SPIE 6551, Atmospheric Propagation IV, 655101 (17 May 2007); doi: 10.1117/12.747142

Event: Defense and Security Symposium, 2007, Orlando, Florida, United States

PROCEEDINGS OF SPIE

Atmospheric Propagation IV

Cynthia Y. Young
G. Charmaine Gilbreath
Editors

11–12 April 2007
Orlando, Florida, USA

Sponsored and Published by
SPIE—The International Society for Optical Engineering

Proceedings of SPIE—The International Society for Optical Engineering, 9780819466730, v. 6551

SPIE is an international technical society dedicated to advancing engineering and scientific applications of optical, photonic, imaging, electronic, and optoelectronic technologies.

The papers included in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. The papers published in these proceedings reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from this book:

Contents

vii *Conference Committee*

SESSION 2 TURBULENCE AND THREAT IMPACT

- 655102 **Dust in the wind: challenges for urban aerodynamics (Invited Paper)** [6551-01]
J. P. Boris, Naval Research Lab. (USA)
- 655104 **Worldwide estimates and uncertainty assessments of laser propagation for diverse geometries for paths in the altitude regime of 3 km and below at wavelengths 0.355 μm to 10.6 μm** [6551-03]
S. T. Fiorino, R. J. Bartell, G. P. Perram, M. J. Krizo, D. J. Fedyk, B. W. Wisdom, S. J. Cusumano, Air Force Institute of Technology (USA)
- 655105 **High-speed communications enabling real-time video for battlefield commanders using tracked FSO** [6551-04]
M. K. Al-Akkoumi, R. C. Huck, J. J. Sluss, Jr., The Univ. of Oklahoma (USA)

SESSION 3 PROPAGATION IN EXTENDED WAVELENGTH REGIMES

- 655106 **Corrections to published information about atmospheric attenuation between 10 GHz and 1 THz (Invited Paper)** [6551-05]
J. C. Wiltse, Georgia Institute of Technology (USA)
- 655107 **Investigation of near and mid infrared (1.34, 1.55 and 8.1 μm) laser propagation through the New York City metro area** [6551-06]
P. Corrigan, R. Martini, E. Whittaker, Stevens Institute of Technology (USA); C. Gmachl, Princeton Univ. (USA)
- 655108 **Minimization of acquisition time in a wavelength diversified FSO link between mobile platforms** [6551-07]
A. Harris, T. A. Giurma, Univ. of North Florida (USA)

Pagination: Proceedings of SPIE follow an e-First publication model, with papers published first online and then in print and on CD-ROM. Papers are published as they are submitted and meet publication criteria. A unique, consistent, permanent citation identifier (CID) number is assigned to each article at the time of the first publication. Utilization of CIDs allows articles to be fully citable as soon they are published online, and connects the same identifier to all online, print, and electronic versions of the publication. SPIE uses a six-digit CID article numbering system in which:

- The first four digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc.

The CID number appears on each page of the manuscript. The complete citation is used on the first page, and an abbreviated version on subsequent pages.

SESSION 4 GROUND-TO-SPACE LINKS

- 655109 **PDF models for uplink to space in the presence of beam wander (Invited Paper)** [6551-08]
L. C. Andrews, Univ. of Central Florida (USA); R. L. Phillips, Univ. of Central Florida (USA);
R. J. Sasiela, R. Parenti, Massachusetts Institute of Technology (USA)
- 65510A **Laser beam propagation in ground-to-OICETS laser communication experiments** [6551-09]
M. Toyoshima, T. Takahashi, K. Suzuki, S. Kimura, K. Takizawa, T. Kuri, W. Klaus, M. Toyoda,
H. Kunimori, National Institute of Information and Communications Technology (Japan);
T. Jono, Y. Takayama, K. Arai, Japan Aerospace Exploration Agency (Japan)
- 65510B **Development of laser beam transmission strategies for future ground-to-space optical communications** [6551-11]
K. E. Wilson, J. Kovalik, A. Biswas, W. Roberts, Jet Propulsion Lab. (USA)

SESSION 5 THEORETICAL STUDIES

- 65510C **Demonstration of non-log normal irradiance behavior in weakly scintillated beams via simulation data** [6551-12]
G. J. Baker, K. R. Bock, Lockheed Martin Advanced Technology Ctr. (USA)
- 65510D **A new marine atmospheric spectrum for laser propagation** [6551-14]
F. Strömqvist Vetelino, K. J. Grayshan, C. Y. Young, Univ. of Central Florida (USA); K. J. Grant,
Defence Science and Technology Organisation (Australia); L. Wasiczko, Naval Research
Lab. (USA); H. R. Burris, Research Support Instruments, Inc (USA); C. Moore, Naval Research
Lab. (USA); R. Mahon, The Titan Corp. (USA); M. Suite, C. Gilbreath, Naval Research Lab.
(USA)
- 65510E **Angle of arrival fluctuations for free space laser beam propagation through non Kolmogorov turbulence** [6551-15]
I. Toselli, Politecnico di Torino (Italy); L. C. Andrews, R. L. Phillips, Univ. of Central Florida
(USA); V. Ferrero, Politecnico di Torino (Italy)

SESSION 6 EXPERIMENTAL STUDIES

- 65510F **Studies of atmospheric propagation in the maritime environment at NRL** [6551-16]
L. M. Wasiczko, C. I. Moore, H. R. Burris, M. Suite, Naval Research Lab. (USA); M. Stell,
Research Support Instruments (USA); W. Rabinovich, Naval Research Lab. (USA)
- 65510G **Comparison study of packet error rates and bit error rates at the U.S. Naval Research Laboratory free-space lasercom test facility** [6551-17]
M. R. Suite, Naval Research Lab. (USA); H. R. Burris, Research Support Instruments, Inc. (USA);
C. I. Moore, L. M. Wasiczko, Naval Research Lab. (USA); M. F. Stell, Research Support
Instruments, Inc. (USA); R. Mahon, L3 Communications Titan Group (USA); W. S. Rabinovich,
W. J. Scharpf, Naval Research Lab. (USA)
- 65510H **Lidar system for monitoring turbulence profiles** [6551-18]
G. G. Gimmetstad, D. A. Roberts, J. M. Stewart, J. W. Wood, Georgia Tech Research Institute
(USA)

- 65510I **Comparing horizontal path C_n^2 measurements over 0.6 km in the tropical littoral environment and in the desert** [6551-19]
M. P. J. L. Chang, Univ. of Puerto Rico (Puerto Rico); C. O. Font, G. C. Gilbreath, E. Oh, E. Distefano, S. Restaino, C. Wilcox, Naval Research Lab. (USA); F. Santiago, Consultant (Puerto Rico)
- 65510J **Characterization of atmospheric turbulence during the NATO RTG-40 land field trials** [6551-20]
D. Tofsted, S. O'Brien, J. Yarbrough, D. Quintis, M. Bustillos, Army Research Lab. (USA)

SESSION 7 MITIGATION STRATEGIES I

- 65510K **Mitigating angular misalignment from atmospheric effects in FSO links** [6551-22]
P. G. LoPresti, The Univ. of Tulsa (USA); H. Refai, J. J. Sluss, Jr., The Univ. of Oklahoma (USA)
- 65510L **Patching C_n^2 time series data holes using principal component analysis** [6551-23]
M. P. J. L. Chang, Univ. of Puerto Rico (Puerto Rico); H. Nazari, Consultant (Puerto Rico); C. O. Font, G. C. Gilbreath, E. Oh, Naval Research Lab. (USA)
- 65510M **Binary wavefront control in the focal plane for improved fiber coupling in air-to-air laser communication** [6551-24]
P. Crabtree, C. Woods, J. Khoury, M. Goda, Air Force Research Lab. (USA); M. Temple, Air Force Institute of Technology (USA); E. Watson, Air Force Research Lab. (USA)

SESSION 8 MITIGATION STRATEGIES II: TECHNOLOGY

- 65510N **Fiber bundles in transceivers to mitigate scintillation effects on free-space optical networks** [6551-25]
P. G. LoPresti, N. Brooks, W. Sumpter, The Univ. of Tulsa (USA); H. Refai, The Univ. of Oklahoma (USA)
- 65510O **Omnidirectional free-space optical (FSO) receivers** [6551-26]
G. A. Cap, H. H. Refai, J. J. Sluss, Jr., Univ. of Oklahoma (USA)
- 65510P **Large diameter high-speed InGaAs receivers for free-space lasercom** [6551-27]
H. R. Burris, Jr., Naval Research Lab. (USA); M. S. Ferraro, Sachs Freeman Associates, Inc. (USA); C. I. Moore, P. G. Goetz, Naval Research Lab. (USA); W. D. Waters, W. R. Clark, Optogration, Inc. (USA); W. S. Rabinovich, L. M. Wasiczko, M. R. Suite, Naval Research Lab. (USA); R. Mahon, The Titan Corp. (USA); J. L. Murphy, Naval Research Lab. (USA); M. F. Stell, Research Support Instruments, Inc. (USA); W. S. Scharpf, G. C. Gilbreath, Naval Research Lab. (USA)
- 65510Q **Closed-loop field conjugation using decentralized multi-conjugate adaptive optics** [6551-28]
L. H. Lee, Lockheed Martin Advanced Technology Ctr. (USA)

Author Index

Conference Committee

Symposium Chair

John C. Carrano, Luminex Corp. (USA)

Symposium Cochair

Larry B. Stotts, Defense Advanced Research Projects Agency (USA)

Program Track Chair

Gary W. Kamerman, FastMatrix, Inc. (USA)

Conference Chairs

Cynthia Y. Young, University of Central Florida (USA)

G. Charmaine Gilbreath, Naval Research Laboratory (USA)

Program Committee

Larry C. Andrews, University of Central Florida (USA)

Gary J. Baker, Lockheed Martin Advanced Technology Center (USA)

Harris R. Burris, Research Support Instruments, Inc. (USA) and Naval Research Laboratory (USA)

Lewis F. DeSandre, Consultant (USA)

Frank D. Eaton, Air Force Research Laboratory (USA)

Kenneth J. Grant, Defence Science and Technology Organisation (Australia)

Norman S. Kopeika, Ben-Gurion University of the Negev (Israel)

Aaron J. Masino, Science Applications International Corporation (USA)

Christopher I. Moore, Naval Research Laboratory (USA)

Hakki H. Refai, University of Oklahoma (USA)

Sergio R. Restaino, Naval Research Laboratory (USA)

Jennifer C. Ricklin, Defense Advanced Research Projects Agency (USA)

Jonathan M. Saint Clair, The Boeing Co. (USA)

Ove K. Steinvall, Swedish Defence Research Agency (Sweden)

Linda M. Wasiczko, Naval Research Laboratory (USA)

Session Chairs

- 1 Turbulence and Threat Impact
G. Charmaine Gilbreath, Naval Research Laboratory (USA)
- 2 Propagation in Extended Wavelength Regimes
Gary G. Gimmestad, Georgia Tech Research Institute (USA)

- 3 Ground-to-Space Links
Gary J. Baker, Lockheed Martin Advanced Technology Center (USA)
- 4 Theoretical Studies
Linda M. Wasiczko, Naval Research Laboratory (USA)
- 5 Experimental Studies
Harris R. Burris, Research Support Instruments, Inc. (USA) and Naval Research Laboratory (USA)
- 6 Mitigation Strategies I
Hakki H. Refai, University of Oklahoma (USA)
- 7 Mitigation Strategies II: Technology
Aaron J. Masino, Science Applications International Corp. (USA)
