PROCEEDINGS OF SPIE

New Developments in Optomechanics

Alson E. Hatheway
Editor

28–30 August 2007
San Diego, California, USA

Sponsored and Published by
SPIE

Volume 6665

Proceedings of SPIE, 0277-786X, v. 6665

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers included in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. The papers published in these proceedings reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from this book:

Author(s), "Title of Paper," in *New Developments in Optomechanics*, edited by Alson E. Hatheway, Proceedings of SPIE Vol. 6665 (SPIE, Bellingham, WA, 2007) Article CID Number.

Copying of material in this book for internal or personal use, or for the internal or personal use of specific clients, beyond the fair use provisions granted by the U.S. Copyright Law is authorized by SPIE subject to payment of copying fees. The Transactional Reporting Service base fee for this volume is \$18.00 per article (or portion thereof), which should be paid directly to the Copyright Clearance Center (CCC), 222 Rosewood Drive, Danvers, MA 01923. Payment may also be made electronically through CCC Online at copyright.com. Other copying for republication, resale, advertising or promotion, or any form of systematic or multiple reproduction of any material in this book is prohibited except with permission in writing from the publisher. The CCC fee code is 0277-786X/07/\$18.00.

Printed in the United States of America.

Publication of record for individual papers is online in the SPIE Digital Library.

SPIDigitalLibrary.org

Paper Numbering: Proceedings of SPIE follow an e-First publication model, with papers published first online and then in print and on CD-ROM. Papers are published as they are submitted and meet publication criteria. A unique, consistent, permanent citation identifier (CID) number is assigned to each article at the time of the first publication. Utilization of CIDs allows articles to be fully citable as soon they are published online, and connects the same identifier to all online, print, and electronic versions of the publication. SPIE uses a six-digit CID article numbering system in which:

- The first four digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc.

The CID number appears on each page of the manuscript. The complete citation is used on the first page, and an abbreviated version on subsequent pages. Numbers in the index correspond to the last two digits of the six-digit CID number.

Contents

vii Conference Committee

SESSION 1 DESIGN I

- 6665 02 **Design and test of an airborne IR countermeasures hyper-hemispherical silicon dome** [6665-01]
M. J. Bender, R. C. Guyer, BAE Systems (USA); T. E. Fenton, Exotic Electro-Optics (USA)
- 6665 03 **Athermal bonded mounts: incorporating aspect ratio into a closed-form solution** [6665-02]
C. L. Monti, Raytheon Missile Systems (USA)
- 6665 04 **Designing elastomeric mirror mountings** [6665-03]
A. E. Hatheway, Alson E. Hatheway, Inc. (USA)
- 6665 05 **Design and analysis of the composite spider structure within the Kepler Schmidt Telescope** [6665-04]
M. J. Hegge, R. G. Wendland, C. D. Miller, Ball Aerospace & Technologies Corp. (USA)
- 6665 06 **An integrated LED luminance-uniform device for light guide plate applications** [6665-05]
C.-H. Chien, Z.-P. Chen, Tatung Univ. (Taiwan)

SESSION 2 ADHESIVES AND COMPOSITES

- 6665 07 **A survey of technical literature on adhesive applications for optics** [6665-06]
K. S. Prabhu, T. L. Schmitz, P. G. Ifju, Univ. of Florida (USA); J. G. Daly, Vector Engineering Inc. (USA)
- 6665 08 **Index matching silicone for optoelectronic applications** [6665-07]
B. Riegler, R. Thomaier, NuSil Technology LLC (USA)
- 6665 0A **Lightweight optical telescope structures fabricated from CFRP composites** [6665-09]
R. N. Martin, R. C. Romeo, Composite Mirror Applications, Inc. (USA)
- 6665 0B **Calculation of the elastic properties of a triangular cell core for lightweight composite mirrors** [6665-10]
F. E. Penado, Northern Arizona Univ. (USA); J. H. Clark III, Naval Research Lab. (USA); J. P. Walton, Interferometrics Inc. (USA); R. C. Romeo, R. N. Martin, Composite Mirror Applications, Inc. (USA)
- 6665 0C **Final assembly of the ULTRA 1-m carbon fiber optical telescope** [6665-11]
R. C. Romeo, R. N. Martin, Composite Mirror Applications, Inc. (USA); B. Twarog, Univ. of Kansas (USA); P. Etzel, San Diego State Univ. (USA)

SESSION 3 DESIGN II

- 6665 0D **Fine steering mirror for the James Webb Space Telescope** [6665-12]
M. Ostaszewski, W. Vermeer, Ball Aerospace & Technologies Corp. (USA)
- 6665 0F **Active tangent link system for transverse support of large thin meniscus mirrors** [6665-14]
D. R. Neill, V. Krabbendam, J. Andrew, NOAO/LSST (USA); M. Warner, S. Heathcote, G. Schumacher, B. Gregory, E. Serrano, NOAO/CTIO (Chile)
- 6665 0G **Design optimization of a dual mode multi-axis passive isolation configuration for MLCD** [6665-15]
K. B. Doyle, MIT Lincoln Lab. (USA)
- 6665 0H **A study on the optomechanical tolerance model for lens assembly** [6665-16]
C.-C. Cheng, Industrial Technology Research Institute (Taiwan); T.-Y. Lin, National Defense Univ. (Taiwan); R.-H. Chen, National Chaio Tung Univ. (Taiwan)

SESSION 4 SYSTEM ANALYSIS

- 6665 0I **Structural line-of-sight jitter analysis for MLCD** [6665-17]
K. B. Doyle, MIT Lincoln Lab. (USA)
- 6665 0J **Design and analysis of a rotationally resistant floor for a telescope enclosure** [6665-18]
P. G. Wood, F. E. Penado, Northern Arizona Univ. (USA); J. H. Clark III, Naval Research Lab. (USA); J. P. Walton, Interferometrics Inc. (USA)
- 6665 0K **Analysis of thermal stress and deformation in elastically bonded optics** [6665-19]
V. M. Ryaboy, Newport Corp. (USA)
- 6665 0L **Pier vibration isolation for lightweight interferometry telescopes** [6665-20]
P. G. Wood, F. E. Penado, Northern Arizona Univ. (USA); J. H. Clark III, Naval Research Lab. (USA); J. P. Walton, Interferometrics Inc. (USA)
- 6665 0M **Ivory optomechanical tools for controlling random vibration effects** [6665-21]
A. E. Hatheway, Alson E. Hatheway, Inc. (USA)

SESSION 5 DESIGN III

- 6665 0N **Mechanical design of a high-resolution x-ray powder diffractometer at the Advanced Photon Source** [6665-22]
D. Shu, P. L. Lee, C. Preissner, M. Ramanathan, M. Beno, R. B. Von Dreele, J. Wang, R. Ranay, L. Ribaud, C. Kurtz, X. Jiao, D. Kline, P. Jemian, B. H. Toby, Argonne National Lab. (USA)
- 6665 0O **Precision mechanical design of an UHV-compatible artificial channel-cut x-ray monochromator** [6665-23]
D. Shu, S. Narayanan, A. Sandy, M. Sprung, C. Preissner, J. Sullivan, Argonne National Lab. (USA)

6665 OP **Experimental investigation and model development for a harmonic drive transmission** [6665-24]
C. Preissner, D. Shu, Argonne National Lab. (USA); T. J. Royston, Univ. of Illinois at Chicago (USA)

6665 OQ **Performance evaluations of the ATST secondary mirror** [6665-25]
M. K. Cho, J. DeVries, National Optical Astronomy Observatory (USA); E. Hansen, National Solar Observatory (USA)

SESSION 6 DESIGN OF SYSTEMS

6665 OR **Shroud debris modeling techniques for IR sensors in space** [6665-27]
A. VanderWyst, D. G. Jenkins, A. Ahmad, Raytheon Missile Systems (USA)

6665 OS **Actuators with 10 mm stroke and less than 300 nm of runout** [6665-28]
A. E. Hatheway, Alson E. Hatheway, Inc. (USA)

6665 OT **Optomechanical design for the SCUBA-2 polarimeter** [6665-29]
S. Bernier, Institut National d'Optique (Canada); P. Bastien, Univ. de Montréal (Canada); M. Leclerc, Institut National d'Optique (Canada); É. Bissonnette, Univ. de Montréal (Canada)

6665 OU **New design of the laser megajoule final optics assembly** [6665-30]
A. Hugget, E. Journot, R. Ferbos, F. Macias, P. Fayollas, CEA CESTA (France)

6665 OV **Optomechanical design of a field-deployable thermal weapon sight** [6665-31]
M.-A. Boucher, N. Desnoyers, S. Bernier, A. Bergeron, M. Doucet, F. Lagacé, Institut National d'Optique (Canada); P. Laou, Defence Research and Development Canada Valcartier (Canada)

POSTER SESSION

6665 OX **Design and performance of a compact collimator on GM/CA-CAT at the Advanced Photon Source** [6665-33]
S. Xu, R. F. Fischetti, Argonne National Lab. (USA)

6665 OY **MIRI telescope simulator (MTS) current status** [6665-35]
F. J. Herrada, V. Eiriz, M. A. Alcacera, A. Aricha, A. Balado, J. Barandiarán, T. Berenguer, E. Diaz, I. Figueroa, L. M. González, R. López, M. Menéndez, A. M. Bernardo, M. Reina, A. Sanchez, G. García, A. Jiménez, M. Colombo, M. R. Canchal, J. A. Rodriguez, Instituto Nacional de Técnica Aeroespacial (Spain)

6665 OZ **Mechanical support system of laser megajoule large-dimension optical components** [6665-36]
S. Noailles, T. Bart, P. Schmitz, A. Hugget, R. Ferbos, S. Bouillet, C. Leymarie, S. Martin, CEA CESTA (France)

- 6665 10 **Analysis and design of an optical spherometer with an adaptive lens** [6665-38]
A. Santiago-Alvarado, Univ. Tecnológica de la Mixteca (Mexico); S. Vázquez-Montiel,
J. Muñoz-Lopez, Instituto Nacional de Astrofísica, Óptica y Electrónica (Mexico);
J. González-García, G. Castro-González, Univ. Tecnológica de la Mixteca (Mexico)
- 6665 11 **Current alignment techniques and tools for building, aligning, and reconfiguring an optical array at the Navy Prototype Optical Interferometer** [6665-39]
J. H. Clark III, Naval Research Lab. (USA); J. P. Walton, Interferometrics Inc. (USA)
- 6665 12 **Optical mount modifications for increased articulation at the Navy Prototype Optical Interferometer** [6665-40]
J. H. Clark III, Naval Research Lab. (USA); J. P. Walton, Interferometrics Inc. (USA);
F. E. Penado, D. Smith, Northern Arizona Univ. (USA)
- 6665 13 **Design of asymmetrically loaded end-plates with vacuum seal surfaces for the Navy Prototype Optical Interferometer** [6665-41]
J. P. Walton, Interferometrics Inc. (USA); J. H. Clark III, Naval Research Lab. (USA);
F. E. Penado, Northern Arizona Univ. (USA)

Author Index

Conference Committee

Conference Chair

Alson E. Hatheway, Alson E. Hatheway, Inc. (USA)

Program Committee

Anees Ahmad, Raytheon Company (USA)
Joseph Antebi, Simpson Gumpertz & Heger Inc. (USA)
Patrick A. Bournes, MicroMeasure, Inc. (USA)
John M. Casstevens, Dallas Optical Systems, Inc. (USA)
Robert G. Chave, RCAP Inc. (USA)
Patrick A. Coronato, Raytheon Company (USA)
John G. Daly, Vector Engineering (USA)
Keith B. Doyle, Sigmadyne, Inc. (USA)
Robert C. Guyer, BAE Systems (USA)
Mark J. Hegge, Ball Aerospace & Technologies Corporation (USA)
Tony B. Hull, L3 Communications Tinsley (USA)
William J. Lees, Johns Hopkins University (USA)
Ann F. Shipley, University of Colorado, Boulder (USA)
Deming Shu, Argonne National Laboratory (USA)
David M. Stubbs, Lockheed Martin Advanced Technology Center (USA)
Daniel Vukobratovich, Raytheon Company (USA)
Paul R. Yoder, Jr., Optical Engineering Consultant (USA)
Carl H. Zweben, Composites Consultant (USA)

Session Chairs

- 1 Design I
Alson E. Hatheway, Alson E. Hatheway, Inc. (USA)
- 2 Adhesives and Composites
John G. Daly, Vector Engineering (USA)
- 3 Design II
Alson E. Hatheway, Alson E. Hatheway, Inc. (USA)
- 4 System Analysis
Deming Shu, Argonne National Laboratory (USA)

- 5 Design III
Daniel Vukobratovich, Raytheon Company (USA)
- 6 Design of Systems
Alson E. Hatheway, Alson E. Hatheway, Inc. (USA)
