Volume 6907

Proceedings of SPIE, 0277-786X, v. 6907

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers included in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. The papers published in these proceedings reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from this book:

Author(s), "Title of Paper," in *Laser Refrigeration of Solids*, edited by Richard I. Epstein, Mansoor Sheik-Bahae, Proceedings of SPIE Vol. 6907 (SPIE, Bellingham, WA, 2008) Article CID Number.

Copying of material in this book for internal or personal use, or for the internal or personal use of specific clients, beyond the fair use provisions granted by the U.S. Copyright Law is authorized by SPIE subject to payment of copying fees. The Transactional Reporting Service base fee for this volume is \$18.00 per article (or portion thereof), which should be paid directly to the Copyright Clearance Center (CCC), 222 Rosewood Drive, Danvers, MA 01923. Payment may also be made electronically through CCC Online at copyright.com. Other copying for republication, resale, advertising or promotion, or any form of systematic or multiple reproduction of any material in this book is prohibited except with permission in writing from the publisher. The CCC fee code is 0277-786X/08/\$18.00.

Printed in the United States of America.

Publication of record for individual papers is online in the SPIE Digital Library.

SPIDigitalLibrary.org

Paper Numbering: Proceedings of SPIE follow an e-First publication model, with papers published first online and then in print and on CD-ROM. Papers are published as they are submitted and meet publication criteria. A unique, consistent, permanent citation identifier (CID) number is assigned to each article at the time of the first publication. Utilization of CIDs allows articles to be fully citable as soon they are published online, and connects the same identifier to all online, print, and electronic versions of the publication. SPIE uses a six-digit CID article numbering system in which:

- The first four digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc.

The CID number appears on each page of the manuscript. The complete citation is used on the first page, and an abbreviated version on subsequent pages. Numbers in the index correspond to the last two digits of the six-digit CID number.

Contents

v Conference Committee

SESSION 1 SEMICONDUCTOR COOLING I

- 6907 04 **Near-field fluorescence lifetime imaging of semiconductor interfaces used in laser cooling** [6907-03]
D. A. Bender, M. Sheik-Bahae, The Univ. of New Mexico (USA)
- 6907 05 **Theory of luminescence and optical refrigeration in p-doped semiconductors (Invited Paper)** [6907-04]
G. Rupper, N. H. Kwong, B. Gu, R. Binder, College of Optical Sciences, Univ. of Arizona (USA) and Univ. of Arizona (USA)

SESSION 2 SEMICONDUCTOR COOLING II

- 6907 09 **Nanogap experiments for laser cooling (Invited Paper)** [6907-08]
A. Stintz, Ctr. for High Technology Materials, Univ. of New Mexico (USA); R. I. Epstein, Los Alamos National Lab. (USA); M. Sheik-Bahae, Univ. of New Mexico (USA); K. J. Malloy, Ctr. for High Technology Materials, Univ. of New Mexico (USA); M. P. Hasselbeck, S. T. P. Boyd, Univ. of New Mexico (USA)

SESSION 3 RARE-EARTH COOLING

- 6907 0A **Synthesis of ultrapure ZBLAN glass for laser refrigeration (Invited Paper)** [6907-09]
M. P. Hehlen, R. I. Epstein, Los Alamos National Lab. (USA); W. M. Patterson, Univ. of New Mexico (USA)
- 6907 0B **Cooling of Yb:YLF using cavity enhanced resonant absorption (Invited Paper)** [6907-10]
D. Seletskiy, M. P. Hasselbeck, M. Sheik-Bahae, Univ. of New Mexico (USA); R. I. Epstein, Univ. of New Mexico (USA) and Los Alamos National Lab. (USA); S. Bigotta, M. Tonelli, Univ. di Pisa (Italy)
- 6907 0C **Computer modeling and analysis of thermal link performance for an optical refrigerator** [6907-11]
K. Byram, D. Mar, J. Parker, S. Von der Porten, J. Hankinson, C. Lee, K. Mayeda, R. C. Haskell, Q. Yang, Harvey Mudd College (USA); S. R. Greenfield, R. I. Epstein, Los Alamos National Lab. (USA)
- 6907 0D **Designs and optical tests of thermal links for an optical refrigerator** [6907-12]
J. Parker, D. Mar, S. Von der Porten, J. Hankinson, K. Byram, C. Lee, K. Mayeda, R. Haskell, Q. Yang, Harvey Mudd College (USA); S. Greenfield, R. Epstein, Los Alamos National Lab. (USA)

SESSION 4 NOVEL CONCEPTS IN COOLING

- 6907 OE **Linear optical properties of a high-finesse cavity dispersively coupled to a micromechanical membrane (Invited Paper)** [6907-13]
J. G. E. Harris, A. M. Jayich, B. M. Zwickl, C. Yang, J. C. Sankey, Yale Univ. (USA)
- 6907 OF **Quantum refrigerator in the quest for the absolute zero temperature (Invited Paper)**
[6907-14]
Y. Rezek, R. Kosloff, The Hebrew Univ. (Israel)
- 6907 OI **Power generation by thermally assisted electroluminescence: like optical cooling, but different** [6907-17]
B. D. Buckner, B. Heeg, MetroLaser, Inc. (USA)

Author Index

Conference Committee

Symposium Chair

Ali Adibi, Georgia Institute of Technology (USA)

Symposium Cochair

James G. Grote, Air Force Research Laboratory (USA)

Program Track Chair

Zameer U. Hasan, Temple University (USA)

Conference Chairs

Richard I. Epstein, Los Alamos National Laboratory (USA)

Mansoor Sheik-Bahae, The University of New Mexico (USA)

Program Committee

Rolf H. Binder, College of Optical Sciences, The University of Arizona (USA)

Zameer U. Hasan, Temple University (USA)

Jacob B. Khurgin, Johns Hopkins University (USA)

Yong-Hang Zhang, Arizona State University (USA)

Session Chairs

- 1 Semiconductor Cooling I
Kent L. Miller, Air Force Office of Scientific Research (USA)
- 2 Semiconductor Cooling II
Richard I. Epstein, Los Alamos National Laboratory (USA)
- 3 Rare-Earth Cooling
Mansoor Sheik-Bahae, The University of New Mexico (USA)
- 4 Novel Concepts in Cooling
Jacob B. Khurgin, Johns Hopkins University (USA)
