Proceedings of SPIE, 0277-786X, v. 7235

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers included in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. The papers published in these proceedings reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from this book:

Printed in the United States of America.

Publication of record for individual papers is online in the SPIE Digital Library.

SPIDigitalLibrary.org

Paper Numbering: Proceedings of SPIE follow an e-First publication model, with papers published first online and then in print and on CD-ROM. Papers are published as they are submitted and meet publication criteria. A unique, consistent, permanent citation identifier (CID) number is assigned to each article at the time of the first publication. Utilization of CIDs allows articles to be fully citable as soon they are published online, and connects the same identifier to all online, print, and electronic versions of the publication. SPIE uses a six-digit CID article numbering system in which:

- The first four digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc.

The CID number appears on each page of the manuscript. The complete citation is used on the first page, and an abbreviated version on subsequent pages. Numbers in the index correspond to the last two digits of the six-digit CID number.

Contents

v	Conference Committee
vii	Introduction

SESSION 1 OPTICAL NETWORKS FOR ACCESS AND METRO DOMAINS

- 7235 03 **A system's view of metro and regional optical networks (Invited Paper)** [7235-02]
C. F. Lam, W. I. Way, OpVista, Inc. (United States)
- 7235 04 **Impact of PON deployment on metro networks (Invited Paper)** [7235-03]
J. Poirier, F. Herviou, H. Barboule, M. Moignard, Orange Labs. (France)
- 7235 05 **Optical LAN technologies for the ultra-high definition video era (Invited Paper)** [7235-04]
S. Namiki, National Institute of Advanced Industrial Science and Technology (Japan);
H. Onaka, T. Ikeuchi, OITDA (Japan) and Fujitsu, Ltd. (Japan); K. Oyamada, Japan
Broadcasting Corp. (Japan); K. Morito, OITDA (Japan) and Fujitsu, Ltd. (Japan); A. Sugitatsu,
OITDA (Japan) and Mitsubishi Electric Corp. (Japan); H. Ishikawa, National Institute of
Advanced Industrial Science and Technology (Japan); T. Asami, Univ. of Tokyo (Japan)
- 7235 06 **Optical code division multiplexing for confidentiality at the photonic layer in metro networks and beyond (Invited Paper)** [7235-05]
P. Toliver, A. Agarwal, R. Menendez, J. Jackel, S. Etemad, Telcordia (United States)

SESSION 2 OPTICAL SWITCHES AND MULTIPLEXERS

- 7235 08 **ROADMs for reconfigurable metro networks (Invited Paper)** [7235-07]
J. Homa, K. Bala, Xtellus, Inc. (United States)
- 7235 09 **Performance analysis for all optical switch based on MZI switching element with SOA's** [7235-09]
G. Singh, R. P. Yadav, V. Janyani, R. Sharma, Malaviya National Institute of Technology (India)

SESSION 3 OPTICAL METRO TRANSPORT

- 7235 0A **Meeting explosive growth requirements in the metro optical network (Invited Paper)** [7235-10]
A. Gibbemeyer, Nokia Siemens Networks US LLC (United States); M. Finkenzeller, Nokia Siemens Networks GmbH (Germany)
- 7235 0B **100GEthernet for aggregation and transport networks (Invited Paper)** [7235-11]
S. Vorbeck, M. Schneiders, W. Weiershausen, Deutsche Telekom AG (Germany);
C. Gonschior, Univ. of Applied Sciences (Germany); F. Küppers, College of Optical Sciences, The Univ. of Arizona (United States)

- 7235 0C **All-band photonic transport system and its device technologies (Invited Paper)** [7235-12]
N. Yamamoto, National Institute of Information and Communications Technology (Japan);
H. Sotobayashi, Aoyama Gakuin Univ. (Japan)
- 7235 0D **Performance monitoring in high speed optical networks (Invited Paper)** [7235-13]
M. Haas, C. G. Schäffer, Dresden Univ. of Technology (Germany)
- 7235 0E **Electronic predistortion for compensation of polarization-mode dispersion (Invited Paper)**
[7235-15]
S. Hellerbrand, N. Hanik, Technische Univ. München (Germany); W. Weiershausen, Deutsche
Telekom AG (Germany)

Conference Committee

Symposium Chair

James G. Grote, Air Force Research Laboratory (United States)

Symposium Cochair

E. Fred Schubert, Rensselaer Polytechnic Institute (United States)

Program Track Chair

Benjamin B. Dingel, Nasfine Photonics, Inc. (United States)

Conference Chairs

Werner Weiershausen, Deutsche Telekom AG (Germany)

Benjamin B. Dingel, Nasfine Photonics, Inc. (United States)

Achyut Kumar Dutta, Banpil Photonics, Inc. (United States)

Atul K. Srivastava, OneTerabit (United States)

Program Committee

Ronald Freund, Fraunhofer-Institut für Nachrichtentechnik-Heinrich-Hertz (Germany)

Franko Kueppers, College of Optical Sciences, The University of Arizona (United States)

Ralph Leppa, Deutsche Telekom AG (Germany)

Ernst-Dieter Schmidt, Siemens AG (Germany)

Sascha Vorbeck, Deutsche Telekom AG (Germany)

Winston I. Way, OpVista, Inc. (United States)

Session Chairs

- 1 Optical Networks for Access and Metro Domains
 Werner Weiershausen, Deutsche Telekom AG (Germany)
 Achyut Kumar Dutta, Banpil Photonics, Inc. (United States)
- 2 Optical Switches and Multiplexers
 Atul K. Srivastava, OneTerabit (United States)
 Benjamin B. Dingel, Nasfine Photonics, Inc. (United States)

- 3 Optical Metro Transport
 Achyut Kumar Dutta, Banpil Photonics, Inc. (United States)
 Atul K. Srivastava, OneTerabit (United States)

Introduction

It is our distinct pleasure to welcome you to the first Optical Metro Networks and Short-Haul Systems Conference of the Photonics West OPTO 2009 Symposium. Photonics West addresses a highly versatile field of innovations in optics, now extending into optical fiber telecommunications with the merge of a number of ITCOM conferences originating from Optics East.

The Optical Metro Networks and Short-Haul Systems Conference, which was formerly part of ITCOM, covers various topics spanning from network architectures to optical transmission systems and subsystems. The focus is not on ULH transmission but on metro and short-haul networks, which are of increasing importance as their large-scale network element deployment offers a huge potential for future cost reduction in the domains of capital and operational expenditures and energy efficiency optimization. Although ULH is not the primary focus of this conference and proceedings, a number of important innovative technologies are discussed that many people know from optical long-haul fibre transmission. This is quite consequential as the domains and technologies of short-haul/metro and long haul are growing together more and more these days. Robust fiber transmission and wavelength division multiplexing approaches, new modulation formats and equalizer schemes, as well as other innovations known from the long-haul field will be urgently needed in future metro/short-haul network domains due to today's dramatic increase of bandwidth and bitrate speed demands.

We expect this new conference to continue as a lead venue in sharing new technical advances and bringing innovative integrated approaches that address key issues in WDM transmission systems and optical networks for short-haul and metro domains.

Finally, we express our strong appreciation to the authors of all the contributed and invited papers, the technical program committee members, the session supporting professionals, and the SPIE staff who made this conference possible and enriching. The success of this conference is strongly due to them.

Thank you for joining us at the Optical Metro Networks and Short-Haul Systems Conference of the Photonics West OPTO 2009 Symposium.
