SPIE

Volume 7317

Proceedings of SPIE, 0277-786X, v. 7317

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers included in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. The papers published in these proceedings reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from this book:

Author(s), "Title of Paper," in *Ocean Sensing and Monitoring*, edited by Weilin (Will) Hou, Proceedings of SPIE Vol. 7317 (SPIE, Bellingham, WA, 2009) Article CID Number.

Copying of material in this book for internal or personal use, or for the internal or personal use of specific clients, beyond the fair use provisions granted by the U.S. Copyright Law is authorized by SPIE subject to payment of copying fees. The Transactional Reporting Service base fee for this volume is \$18.00 per article (or portion thereof), which should be paid directly to the Copyright Clearance Center (CCC), 222 Rosewood Drive, Danvers, MA 01923. Payment may also be made electronically through CCC Online at copyright.com. Other copying for republication, resale, advertising or promotion, or any form of systematic or multiple reproduction of any material in this book is prohibited except with permission in writing from the publisher. The CCC fee code is 0277-786X/09/\$18.00.

Printed in the United States of America.

Publication of record for individual papers is online in the SPIE Digital Library.

SPIDigitalLibrary.org

Paper Numbering: Proceedings of SPIE follow an e-First publication model, with papers published first online and then in print and on CD-ROM. Papers are published as they are submitted and meet publication criteria. A unique, consistent, permanent citation identifier (CID) number is assigned to each article at the time of the first publication. Utilization of CIDs allows articles to be fully citable as soon they are published online, and connects the same identifier to all online, print, and electronic versions of the publication. SPIE uses a six-digit CID article numbering system in which:

- The first four digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc.

The CID number appears on each page of the manuscript. The complete citation is used on the first page, and an abbreviated version on subsequent pages. Numbers in the index correspond to the last two digits of the six-digit CID number.

Contents

vii *Conference Committee*

SESSION 1 OCEAN SENSING AND FORECASTING

- 7317 02 **Progress in multidisciplinary sensing of the 4-dimensional ocean (Invited Paper)** [7317-01]
T. Dickey, Univ. of California, Santa Barbara (United States)
- 7317 05 **Defining the uncertainty of electro-optical identification system performance estimates using a 3D optical environment derived from satellite** [7317-04]
S. D. Ladner, QinetiQ North America (United States); R. Arnone, Naval Research Lab. (United States); B. Casey, QinetiQ North America (United States); A. Weidemann, D. Gray, I. Shulman, Naval Research Lab. (United States); K. Mahoney, Naval Oceanographic Office (United States); T. Giddings, J. Shirron, Metron, Inc. (United States)

SESSION 2 SENSING PLATFORMS

- 7317 06 **RIMPAC 08: Naval Oceanographic Office glider operations** [7317-05]
K. L. Mahoney, K. Grembowicz, B. Bricker, S. Crossland, D. Bryant, M. Torres, Naval Oceanographic Office (United States); T. Giddings, Metron, Inc. (United States)
- 7317 07 **Using Webb gliders to maintain a sustained ocean presence (Invited Paper)** [7317-06]
O. Schofield, J. Kohut, S. Glenn, Rutgers Univ. (United States)
- 7317 0A **Autonomous buoy platform for low-cost visual maritime surveillance: design and initial deployment** [7317-08]
S. Fefilatyev, D. B. Goldgof, C. Lembke, Univ. of South Florida (United States)

SESSION 3 OCEAN SENSING I

- 7317 0B **Wave slope measurement using imaging polarimetry** [7317-19]
J. L. Pezzaniti, D. Chenault, M. Roche, J. Reinhardt, Polaris Sensor Technologies, Inc. (United States); H. Schultz, Univ. of Massachusetts, Amherst (United States)
- 7317 0C **Tracking of storm fronts in weather radar imagery** [7317-10]
D. Charalampidis, A. Paduru, Univ. of New Orleans (United States)

SESSION 4 UNDERWATER IMAGING

- 7317 0D **Time-dependent underwater optical propagation measurements using modulated light fields (Invited Paper)** [7317-11]
L. Mullen, A. Laux, B. Cochenour, Naval Air Warfare Ctr. (United States)

- 7317 OE **Improved LLS imaging performance in scattering-dominant waters** [7317-12]
F. R. Dalgleish, F. M. Caimi, W. B. Britton, C. F. Andren, Florida Atlantic Univ. (United States)
- 7317 OG **Underwater optical communications with a modulating retro-reflector** [7317-14]
B. Cochenour, L. Mullen, Naval Air Warfare Ctr. (United States); W. Rabinovich, R. Mahon, Naval Research Lab. (United States)

SESSION 5 VISIBILITY AND REMOTE SENSING

- 7317 OH **Polarization characteristics of coastal waters and their impact on in-water visibility** [7317-15]
J. Zhou, A. Tonizzo, A. Gilerson, City College, CUNY (United States); M. Twardowski, WET Labs, Inc. (United States); D. Gray, A. Weidemann, R. Arnone, Naval Research Lab. (United States); B. Gross, F. Moshary, S. Ahmed, City College, CUNY (United States)
- 7317 OI **Diver visibility: Why one cannot see as far?** [7317-16]
W. Hou, A. D. Weidemann, Naval Research Lab. (United States)
- 7317 OJ **Optical detection of marine mammals** [7317-17]
Y. Podobna, J. Schoonmaker, C. Boucher, D. Oakley, Advanced Coherent Technologies LLC (United States)

SESSION 6 OCEAN SENSING II

- 7317 OL **Multiscale modeling of sea clutter to facilitate detection of low observable targets within sea clutter** [7317-20]
J. Hu, Univ. of Florida (United States); W. Tung, Purdue Univ. (United States); J. Gao, Univ. of Florida (United States); E. Blasch, Air Force Research Lab. (United States); G. Chen, DCM Research Resources, LLC (United States)
- 7317 OM **C-band polarimetric combined radar-radiometer system and the results of measurement of waved water surface microwave reflective and emissive characteristics angular dependences** [7317-21]
A. K. Hambaryan, A. K. Arakelyan, A. A. Arakelyan, S. A. Darbinyan, M. L. Grigoryan, I. K. Hakobyan, V. V. Karyan, M. R. Manukyan, G. G. Muradyan, G. G. Hovhannisyan, ECOSERV Remote Observation Ctr. Co. Ltd. (Armenia)
- 7317 ON **Preliminary results of multifrequency (at C, Ku, and Ka-band of frequencies) polarimetric spatio-temporally collocated measurements of waved water surface microwave reflective and emissive characteristics angular dependences** [7317-22]
A. K. Arakelyan, A. K. Hambaryan, G. G. Muradyan, A. A. Arakelyan, S. A. Darbinyan, M. L. Grigoryan, I. K. Hakobyan, V. V. Karyan, M. R. Manukyan, G. G. Hovhannisyan, ECOSERV Remote Observation Ctr. Co. Ltd. (Armenia)

POSTER SESSION

- 7317 00 **Feasibility study for monitoring of off-shore pipelines using BOTDA system** [7317-23]
I.-B. Kwon, G. Jin, D.-C. Seo, C.-Y. Kim, N.-K. Lee, Korea Research Institute of Standards and Science (Korea, Republic of); C.-B. Yun, Korea Advanced Institute of Science and Technology (Korea, Republic of)

Author Index

Conference Committee

Symposium Chair

Ray O. Johnson, Lockheed Martin Corporation (United States)

Symposium Cochair

Michael T. Eismann, Air Force Research Laboratory (United States)

Conference Chair

Weilin (Will) Hou, Naval Research Laboratory (United States)

Conference Cochair

Robert A. Arnone, Naval Research Laboratory (United States)

Program Committee

Kendall L. Carder, SRI International (United States)

Georges R. Fournier, Defence R&D Canada, Valcartier (Canada)

Michael P. Strand, Naval Surface Warfare Center (United States)

Alan D. Weidemann, Naval Research Laboratory (United States)

Session Chairs

- 1 Ocean Sensing and Forecasting
Joan S. Cleveland, Office of Naval Research (United States)
Kendall L. Carder, SRI International (United States)
- 2 Sensing Platforms
Kendall L. Carder, SRI International (United States)
Joan S. Cleveland, Office of Naval Research (United States)
- 3 Ocean Sensing I
Weilin (Will) Hou, Naval Research Laboratory (United States)
Alan D. Weidemann, Naval Research Laboratory (United States)
- 4 Underwater Imaging
Alan D. Weidemann, Naval Research Laboratory (United States)
Weilin (Will) Hou, Naval Research Laboratory (United States)
- 5 Visibility and Remote Sensing

Robert A. Arnone, Naval Research Laboratory (United States)
Michael P. Strand, Naval Surface Warfare Center (United States)

- 6 Ocean Sensing II
Michael P. Strand, Naval Surface Warfare Center (United States)
Joan S. Cleveland, Office of Naval Research (United States)
