Event: SPIE Smart Structures and Materials + Nondestructive Evaluation and Health Monitoring, 2010, San Diego, California, United States

PROCEEDINGS OF SPIE

Industrial and Commercial Applications of Smart Structures Technologies 2010

**M. Brett McMickell
Kevin M. Farinholt**
Editors

**8–9 March 2010
San Diego, California, United States**

Sponsored by
SPIE

Cosponsored by
American Society of Mechanical Engineers (United States)

Cooperating Organizations
Intelligent Materials Forum (Japan)
Jet Propulsion Laboratory (United States)
National Science Foundation (United States)

Volume 7645

Proceedings of SPIE, 0277-786X, v. 7645

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers included in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. The papers published in these proceedings reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from this book:

Author(s), "Title of Paper," in *Industrial and Commercial Applications of Smart Structures Technologies 2010*, edited by M. Brett McMickell, Kevin M. Farinholt, Proceedings of SPIE Vol. 7645 (SPIE, Bellingham, WA, 2010) Article CID Number.

Copying of material in this book for internal or personal use, or for the internal or personal use of specific clients, beyond the fair use provisions granted by the U.S. Copyright Law is authorized by SPIE subject to payment of copying fees. The Transactional Reporting Service base fee for this volume is \$18.00 per article (or portion thereof), which should be paid directly to the Copyright Clearance Center (CCC), 222 Rosewood Drive, Danvers, MA 01923. Payment may also be made electronically through CCC Online at copyright.com. Other copying for republication, resale, advertising or promotion, or any form of systematic or multiple reproduction of any material in this book is prohibited except with permission in writing from the publisher. The CCC fee code is 0277-786X/10/\$18.00.

Printed in the United States of America.

Publication of record for individual papers is online in the SPIE Digital Library.

SPIDigitalLibrary.org

Paper Numbering: Proceedings of SPIE follow an e-First publication model, with papers published first online and then in print and on CD-ROM. Papers are published as they are submitted and meet publication criteria. A unique, consistent, permanent citation identifier (CID) number is assigned to each article at the time of the first publication. Utilization of CIDs allows articles to be fully citable as soon they are published online, and connects the same identifier to all online, print, and electronic versions of the publication. SPIE uses a six-digit CID article numbering system in which:

- The first four digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc.

The CID number appears on each page of the manuscript. The complete citation is used on the first page, and an abbreviated version on subsequent pages. Numbers in the index correspond to the last two digits of the six-digit CID number.

Contents

vii *Conference Committee*

SESSION 1 PRODUCT READY ENERGY HARVESTING SOLUTIONS

- 7645 02 **Development and commercialization strategy for piezoelectric energy-harvesting power sources for gun-fired munitions** [7645-01]
J. Rastegar, R. Murray, Omnitek Partners, LLC (United States)
- 7645 03 **Multi-source energy harvester to power sensing hardware on rotating structures** [7645-02]
A. Schlichting, Cornell Univ. (United States); S. Ouellette, Univ. of California, San Diego (United States); C. Carlson, Univ. of Michigan (United States); K. M. Farinholt, G. Park, C. R. Farrar, Los Alamos National Lab. (United States)
- 7645 04 **A mechanical battery for powering wireless sensor nodes in harsh environments** [7645-03]
P. Constantinou, C. J. Aird, P. H. Mellor, D. J. Smith, J. D. Booker, P. E. J. Flewitt, C. E. Truman, Univ. of Bristol (United Kingdom)
- 7645 05 **Wireless energy transmission to supplement energy harvesters in sensor network applications** [7645-04]
K. M. Farinholt, Los Alamos National Lab. (United States); S. G. Taylor, Los Alamos National Lab. (United States) and Univ. of California, San Diego (United States); G. Park, C. R. Farrar, Los Alamos National Lab. (United States)

SESSION 2 ENGINEERING WITH SHAPE MEMORY POLYMER FOR INDUSTRIAL APPLICATIONS (SMP) I

- 7645 06 **Next generation control system for reflexive aerostructures** [7645-05]
M. R. Maddux, E. P. Meents, T. J. Barnell, K. M. Cable, C. Hemmelgarn, T. W. Margraf, E. Havens, Cornerstone Research Group, Inc. (United States)
- 7645 07 **Modeling of a high-deformation shape memory polymer locking link** [7645-06]
W. W. Clark, J. C. Brigham, C. Mo, Univ. of Pittsburgh (United States); S. Joshi, NextGen Aeronautics (United States)
- 7645 08 **Active rigidity joint** [7645-07]
F. Geeng, J. Manzo, E. Garcia, Cornell Univ. (United States)

SESSION 3 ENGINEERING WITH SHAPE MEMORY POLYMER FOR INDUSTRIAL APPLICATIONS (SMP) II

- 7645 0C **Shape memory polymer sensors for tracking cumulative environmental exposure** [7645-13]
R. Snyder, M. Rauscher, B. Vining, E. Havens, T. Havens, Cornerstone Research Group (United States); J. McFerran, Naval Surface Warfare Ctr. (United States)

- 7645 0F **Shape recovery mechanics of fiber-reinforced shape-memory polymer composite**
[7645-16]
X. Lan, Y. Liu, J. Leng, Harbin Institute of Technology (China)

SESSION 4 SMART MATERIALS AND DEVICES FOR VEHICLE APPLICATIONS I

- 7645 0G **Design and modeling of a hydraulically amplified magnetostrictive actuator for automotive engine mounts** [7645-17]
S. Chakrabarti, M. J. Dapino, The Ohio State Univ. (United States)
- 7645 0H **Active material based active sealing technology: Part 1. Active seal requirements vs. active material actuator properties** [7645-20]
C. P. Henry, W. Carter, G. A. Herrera, G. P. McKnight, HRL Labs. LLC (United States);
A. L. Browne, N. L. Johnson, I. F. Bazzi, General Motors R&D Ctr. (United States)

SESSION 5 SMART MATERIALS AND DEVICES FOR VEHICLE APPLICATIONS II

- 7645 0I **Smart material database compilation and material selection tool development** [7645-21]
J.-K. Park, G. Washington, The Ohio State Univ. (United States)
- 7645 0J **Numerical simulation of the activation behavior of thermal shape memory alloys** [7645-22]
R. Neugebauer, A. Bucht, K. Pagel, J. Jung, Fraunhofer-Institute for Machine Tools and Forming Technology (Germany)

SESSION 6 SMART MATERIALS AND DEVICES FOR VEHICLE APPLICATIONS III

- 7645 0N **Bulk motion for ultrasonic-assisted microforming using Terfenol-D** [7645-25]
A. T. Witthauer, L. E. Faidley, G.-Y. Kim, Iowa State Univ. (United States)
- 7645 0O **Active metal-matrix composites with embedded smart materials by ultrasonic additive manufacturing** [7645-26]
R. Hahnlen, M. J. Dapino, The Ohio State Univ. (United States)
- 7645 0P **Friction control in automotive seat belt systems by piezoelectrically generated ultrasonic vibrations** [7645-27]
S. Bharadwaj, M. J. Dapino, The Ohio State Univ. (United States)
- 7645 0R **Design and analysis of supporting structure with smart struts for active vibration isolation**
[7645-29]
B. Kim, G. N. Washington, R. Singh, The Ohio State Univ. (United States)

SESSION 7 AEROSPACE APPLICATIONS OF SMART STRUCTURE TECHNOLOGIES

- 7645 0U **Characterization of varied geometry shape memory alloy beams** [7645-34]
L. M. Gravatt, J. H. Mabe, F. T. Calkins, The Boeing Co. (United States); D. J. Hartl, Texas A&M Univ. (United States)

- 7645 OW **Pneumatic artificial muscle and its application on driving variable trailing-edge camber wing** [7645-36]
W. Yin, L. Liu, Y. Chen, Y. Liu, J. Leng, Harbin Institute of Technology (China)

POSTER SESSION

- 7645 OZ **Glass transition behaviors of epoxy-based shape memory polymer containing linear monomer** [7645-39]
B. Zhou, Harbin Institute of Technology (China) and Harbin Engineering Univ. (China); X. Wu, Y. Liu, J. Leng, Harbin Institute of Technology (China)

Author Index

Conference Committee

Symposium Chairs

Donald J. Leo, Virginia Polytechnic Institute and State University (United States)

Kara J. Peters, North Carolina State University (United States)

Symposium Cochairs

Norbert G. Meyendorf, Fraunhofer-Institut für Zerstörungsfreie Prüfverfahren (Germany)

Norman M. Wereley, University of Maryland, College Park (United States)

Conference Chair

M. Brett McMickell, Honeywell, Inc. (United States)

Conference Cochair

Kevin M. Farinholt, Los Alamos National Laboratory (United States)

Program Committee

Eric Anderson, CSA Engineering, Inc. (United States)

Emil V. Ardelean, Schafer Corporation (United States)

Brandon J. Arritt, Air Force Research Laboratory (United States)

Christian Boller, Fraunhofer-Institut für Zerstörungsfreie Prüfverfahren (Germany)

Diann E. Brei, University of Michigan (United States)

Alan L. Browne, General Motors Corporation (United States)

Peter C. Chen, Composite Mirror Applications, Inc. (United States)

Marcelo J. Dapino, The Ohio State University (United States)

L. Porter Davis, Honeywell Defense and Space Electronic Systems (United States)

Kevin M. Farinholt, Los Alamos National Laboratory (United States)

Xiao-Yan Gong, Medical Implant Mechanics LLC (United States)

Steve Griffin, Boeing-SVS, Inc. (United States)

Holger Hanselka, Fraunhofer-Institut für Betriebsfestigkeit und Systemzuverlässigkeit (Germany)

Ernie Havens, Cornerstone Research Group, Inc. (United States)

Benjamin K. Henderson, Air Force Research Laboratory (United States)

Nancy L. Johnson, General Motors Corporation (United States)

Chad H. Joshi, Energen, Inc. (United States)
Jayanth N. Kudva, NextGen Aeronautics, Inc. (United States)
Amrita Kumar, Florida State University (United States)
Ou Ma, New Mexico State University (United States)
Geoffrey P. McKnight, HRL Laboratory, LLC (United States)
Gyuhae Park, Los Alamos National Laboratory (United States)
Marc E. Regelbrugge, Rhombus Consultants Group (United States)
W. Lance Richards, NASA Dryden Flight Research Center (United States)
Janet M. Sater, Institute for Defense Analyses (United States)
Henry A. Sodano, Arizona State University (United States)
Edward V. White, The Boeing Company (United States)

Session Chairs

- 1 Product Ready Energy Harvesting Solutions
Kevin M. Farinholt, Los Alamos National Laboratory (United States)
- 2 Engineering with Shape Memory Polymer for Industrial Applications (SMP) I
William W. Clark, University of Pittsburgh (United States)
- 3 Engineering with Shape Memory Polymer for Industrial Applications (SMP) II
Ernie Havens, Cornerstone Research Group, Inc. (United States)
Michael D. Rauscher, Cornerstone Research Group, Inc. (United States)
- 4 Smart Materials and Devices for Vehicle Applications I
Norman M. Wereley, University of Maryland, College Park (United States)
Alan L. Browne, General Motors Corporation (United States)
- 5 Smart Materials and Devices for Vehicle Applications II
Marcelo J. Dapino, The Ohio State University (United States)
Diann E. Brei, University of Michigan (United States)
- 6 Smart Materials and Devices for Vehicle Applications III
Jonathan E. Luntz, University of Michigan (United States)
Nancy L. Johnson, General Motors Corporation (United States)
- 7 Aerospace Applications of Smart Structure Technologies
M. Brett McMickell, Honeywell, Inc. (United States)
W. Lance Richards, NASA Dryden Flight Research Center (United States)
