, "Front Matter: Volume 7761," Proc. SPIE 7761, Carbon Nanotubes, Graphene, and Associated Devices III, 776101 (9 September 2010); doi: 10.1117/12.878481

SPIE.

Event: SPIE NanoScience + Engineering, 2010, San Diego, California, United States

PROCEEDINGS OF SPIE

Carbon Nanotubes, Graphene, and Associated Devices III

Didier Pribat
Young-Hee Lee
Manijeh Razeghi
Editors

1–2 and 4 August 2010
San Diego, California, United States

Sponsored and Published by
SPIE

Volume 7761

Proceedings of SPIE, 0277-786X, v. 7761

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers included in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. The papers published in these proceedings reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from this book:

Author(s), "Title of Paper," in *Carbon Nanotubes, Graphene, and Associated Devices III*, edited by Didier Pribat, Young-Hee Lee, Manijeh Razeghi, Proceedings of SPIE Vol. 7761 (SPIE, Bellingham, WA, 2010) Article CID Number.

ISSN 0277-786X

Copying of material in this book for internal or personal use, or for the internal or personal use of specific clients, beyond the fair use provisions granted by the U.S. Copyright Law is authorized by SPIE subject to payment of copying fees. The Transactional Reporting Service base fee for this volume is \$18.00 per article (or portion thereof), which should be paid directly to the Copyright Clearance Center (CCC), 222 Rosewood Drive, Danvers, MA 01923. Payment may also be made electronically through CCC Online at copyright.com. Other copying for republication, resale, advertising or promotion, or any form of systematic or multiple reproduction of any material in this book is prohibited except with permission in writing from the publisher. The CCC fee code is 0277-786X/10/\$18.00.

Printed in the United States of America.

Publication of record for individual papers is online in the SPIE Digital Library.

SPIDigitalLibrary.org

Paper Numbering: Proceedings of SPIE follow an e-First publication model, with papers published first online and then in print and on CD-ROM. Papers are published as they are submitted and meet publication criteria. A unique, consistent, permanent citation identifier (CID) number is assigned to each article at the time of the first publication. Utilization of CIDs allows articles to be fully citable as soon they are published online, and connects the same identifier to all online, print, and electronic versions of the publication. SPIE uses a six-digit CID article numbering system in which:

- The first four digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc.

The CID number appears on each page of the manuscript. The complete citation is used on the first page, and an abbreviated version on subsequent pages. Numbers in the index correspond to the last two digits of the six-digit CID number.

Contents

v *Conference Committee*

CNT GROWTH, IDENTIFICATION, SEPARATION, AND ORGANIZATION

- 7761 03 **Evaluation of semiconducting/metallic ratio of single wall carbon nanotubes by resonant Raman scattering (Invited Paper)** [7761-02]
K. I. Min, Gwangju Institute of Science and Technology (Korea, Republic of) and Nanobase (Korea, Republic of) and Chonbuk National Univ. (Korea, Republic of); K. K. Kim, Sungkyunkwan Univ. (Korea, Republic of); M.-K. Oh, Gwangju Institute of Science and Technology (Korea, Republic of); S. B. Choi, Ajou Univ. (Korea, Republic of); H. Rho, Chonbuk National Univ. (Korea, Republic of); H. J. Lee, Korea Basic Science Institute (Korea, Republic of); K. H. An, Jeonju Machinery Research Ctr. (Korea, Republic of); Y. C. Choi, Hanwha Nanotech (Korea, Republic of); J. H. Han, Korea Electronics Technology Institute (Korea, Republic of); K. H. Oh, Korean Agency for Technology and Standards (Korea, Republic of); Y. H. Lee, Sungkyunkwan Univ. (Korea, Republic of); M. S. Jeong, Gwangju Institute of Science and Technology (Korea, Republic of)
- 7761 04 **Nano structured carbon nitrides prepared by chemical vapour deposition (Invited Paper)** [7761-03]
R. Karuppannan, M. Prashantha, Indian Institute of Science (India)
- 7761 05 **Well organized Si nanowires arrays synthesis for electronic devices** [7761-04]
E. Lefevre, K. H. Kim, Z. B. He, J. L. Maurice, M. Chatelet, LPICM, CNRS, Ecole Polytechnique (France); D. Pribat, LPICM, CNRS, Ecole Polytechnique (France) and Sungkyunkwan Univ. (Korea, Republic of); B. S. Kim, Samsung Electronics (Korea, Republic of); C. S. Cojocaru, LPICM, CNRS, Ecole Polytechnique (France)
- 7761 08 **Atomic layer deposition for aligned growth of and conformal deposition onto double and triple walled carbon nanotubes (Invited Paper)** [7761-07]
A. Dameron, J. Bult, National Renewable Energy Lab. (United States); S. Pylypenko, National Renewable Energy Lab. (United States) and Colorado School of Mines (United States); C. Engrakul, National Renewable Energy Lab. (United States); C. Bochart, Colorado School of Mines (United States); L. Chen, Rensselaer Polytechnic Institute and the Rensselaer Nanotechnology Ctr. (United States); J. Leong, S. Frisco, L. Simpson, H. Dinh, B. Pivovar, National Renewable Energy Lab. (United States)
- 7761 09 **The organization of carbon nanotube and silicon nanowires using lateral-type porous anodic alumina** [7761-08]
K. H. Kim, E. Lefevre, A. Gohier, M. Chatelet, Lab. de Physique des Interfaces des Couches Minces, CNRS, Ecole Polytechnique (France); D. Pribat, Lab. de Physique des Interfaces des Couches Minces, CNRS, Ecole Polytechnique (France) and Sungkyunkwan Univ. (Korea, Republic of); B. S. Kim, Samsung Electronics (Korea, Republic of); C. S. Cojocaru, Lab. de Physique des Interfaces des Couches Minces, CNRS, Ecole Polytechnique (France)

CNT-BASED ELECTRONIC AND OPTOELECTRONIC DEVICES

- 7761 OC **3D modelling of carbon nanotubes and liquid crystal based nano-photonic device** [7761-11]
K. Won, R. Rajasekharan, H. Butt, Q. Dai, T. D. Wilkinson, Univ. of Cambridge (United Kingdom)
- 7761 OE **High-quality carbon nanotube films prepared by solvent-free gel coating and their application in dye-sensitized solar cells** [7761-13]
X. Mei, S. J. Cho, B. Fan, J. Ouyang, National Univ. of Singapore (Singapore)
- 7761 OF **Multiwalled carbon nanotubes for stray light suppression in space flight instruments** [7761-26]
J. G. Hagopian, S. A. Getty, M. Quijada, J. Tveekrem, R. Shiri, P. Roman, J. Butler, G. Georgiev, J. Livas, C. Hunt, A. Maldonado, NASA Goddard Space Flight Ctr. (United States); S. Talapatra, X. Zhang, Southern Illinois Univ. (United States); S. J. Papadakis, A. H. Monica, D. Deglau, The Johns Hopkins Univ. (United States)

GRAPHENE

- 7761 ON **Epitaxial graphene: dry transfer and materials characterization (Invited Paper)** [7761-20]
J. D. Caldwell, T. J. Anderson, K. D. Hobart, G. G. Jernigan, J. C. Culbertson, M. J. Tadjer, F. J. Kub, J. L. Tedesco, J. K. Hite, M. A. Mastro, R. L. Myers-Ward, C. R. Eddy, Jr., P. M. Campbell, D. K. Gaskill, U.S. Naval Research Lab. (United States)
- 7761 OP **Dual graphene films growth process based on plasma-assisted chemical vapor deposition** [7761-22]
C. S. Lee, L. Baraton, Z. He, J.-L. Maurice, M. Chaigneau, LPICM, CNRS, Ecole Polytechnique (France); D. Pribat, NanoMaDe, LPICM, CNRS, Ecole Polytechnique (France) and Sungkyunkwan Univ. (Korea, Republic of); C. S. Cojocaru, LPICM, CNRS, Ecole Polytechnique (France)

POSTER SESSION

- 7761 OR **Bending tests of carbon nanotube thin-film transistors on flexible substrate** [7761-25]
D. Pham, Univ. of Texas at Austin (United States); H. Subbaraman, Omega Optics, Inc. (United States); M. Y. Chen, Texas State Univ. (United States); X. Xu, R. T. Chen, Univ. of Texas at Austin (United States)
- 7761 OS **Simulation of carbon nanotube photovoltaic arrays** [7761-29]
H. Abdel Rahman, The British Univ. in Egypt (Egypt); K. Kirah, Univ. Française d'Égypte (Egypt); H. Ghali, The British Univ. in Egypt (Egypt); W. Anis, Ain Shams Univ. (Egypt)
- 7761 OT **Phonon frequency distribution function of aligned multiwalled carbon nanotubes** [7761-30]
P. Silotia, S. Dabas, A. Saxena, S. P. Tewari, Univ. of Delhi (India)
- 7761 OU **Analytical modeling of graphene nanoribbon Schottky diodes** [7761-31]
A. Kargar, D. Wang, Univ. of California, San Diego (United States)

Author Index

Conference Committee

Symposium Chairs

David L. Andrews, University of East Anglia Norwich (United Kingdom)
James G. Grote, Air Force Research Laboratory (United States)

Conference Chairs

Didier Pribat, Ecole Polytechnique (France)
Young-Hee Lee, Sungkyunkwan University (Korea, Republic of)
Manijeh Razeghi, Northwestern University (United States)

Program Committee

Manish Chhowalla, Rutgers, The State University of New Jersey (United States)
Kenji Hata, National Institute of Advanced Industrial Science and Technology (Japan)
Mark C. Hersam, Northwestern University (United States)
Ali Javey, University of California, Berkeley (United States)
Seung Hee Lee, Chonbuk National University (Korea, Republic of)
Pierre Legagneux, Thales Research & Technology (France)
Annick Loiseau, ONERA (France)
Ryan P. McClintock, Northwestern University (United States)
William I. Milne, University of Cambridge (United Kingdom)
Philip W. T. Pong, The University of Hong Kong (Hong Kong, China)
Donald J. Silversmith, Air Force Office of Scientific Research (United States)
Jin Zhang, Peking University (China)

Session Chairs

- 1 CNT Growth, Identification, Separation, and Organization
Seunghyun Baik, Sungkyunkwan University (Korea, Republic of)
Taishi Takenobu, Tohoku University (Japan)
- 2 CNT-Based Electronic and Optoelectronic Devices
Stephan Hofmann, University of Cambridge (United Kingdom)
- 3 Other CNT Applications
Didier Pribat, Ecole Polytechnique (France)
- 4 Graphene
Naotoshi Nakashima, Kyushu University (Japan)
