Volume 7992

Proceedings of SPIE, 0277-786X, v. 7992

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers included in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. The papers published in these proceedings reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

SPIDigitalLibrary.org

Paper Numbering: Proceedings of SPIE follow an e-First publication model, with papers published first online and then in print and on CD-ROM. Papers are published as they are submitted and meet publication criteria. A unique, consistent, permanent citation identifier (CID) number is assigned to each article at the time of the first publication. Utilization of CIDs allows articles to be fully citable as soon they are published online, and connects the same identifier to all online, print, and electronic versions of the publication. SPIE uses a six-digit CID article numbering system in which:

- The first four digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc.

The CID number appears on each page of the manuscript. The complete citation is used on the first page, and an abbreviated version on subsequent pages. Numbers in the index correspond to the last two digits of the six-digit CID number.

Contents

vii	Conference Committee
ix	Introduction

SESSION 1

7992 02	Dual port MZM based optical comb generator for all-optical microwave photonic devices [7992-01] D. L. Aybatov, O. G. Morozov, T. S. Sadeev, Kazan State Technical Univ. (Russian Federation)
7992 03	PMD compensation using Faraday rotation and LiNbO₃-based DGD emulator [7992-02] A. Z. Tlyavlin, M. R. Musakaev, Ufa State Aviation Technical Univ. (Russian Federation)
7992 04	Unconventional signal detection techniques with Gaussian probability mixtures adaptation in non-AWGN channels: full resolution receiver [7992-03] S. M. Chabdarov, A. F. Nadeev, D. E. Chickrin, R. R. Faizullin, Kazan State Technical Univ. (Russian Federation)
7992 05	New approach of fiber optic telecommunication lines upgrade by dense dispersion managed solitons (Invited Paper) [7992-04] V. A. Burdin, K. A. Volkov, Povolzhskiy State Univ. of Telecommunications and Informatics (Russian Federation)

SESSION 2

7992 06	Investigation of defects of refractive index profile of silica graded-index multimode fibers [7992-05] A. V. Bourdine, D. E. Praporshchikov, K. A. Yablochkin, Povolzhskiy State Univ. of Telecommunications and Informatics (Russian Federation)
7992 07	Mode excitation by laser source in multimode optical fiber under special single-mode optical fiber use [7992-06] V. A. Burdin, A. V. Bourdine, K. A. Yablochkin, Povolzhskiy State Univ. of Telecommunications and Informatics (Russian Federation)
7992 08	Design of multimode optical fibers with low differential mode delay [7992-07] A. V. Bourdine, Povolzhskiy State Univ. of Telecommunications and Informatics (Russian Federation)
7992 09	Optical switching element based on selective dielectric mirrors and fractal heterostructure [7992-08] V. Kh. Bagmanov, S. V. Kostrov, A. Kh. Sultanov, Ufa State Aviation Technical Univ. (Russian Federation)

- 7992 0A **Microstructured multimode optical fiber for differential mode delay compensation** [7992-09]
A. V. Bourdine, V. A. Burdin, Povolzhskiy State Univ. of Telecommunications and Informatics (Russian Federation); O. R. Delmukhametov, Ufa State Aviation Technical Univ. (Russian Federation)
- 7992 0B **Creation of the new optical switch model** [7992-10]
A. I. Salikhov, Ufa State Aviation Technical Univ. (Russian Federation); L. L. Doskolovich, Image Processing Systems Institute (Russian Federation)
- 7992 0C **All-optical microwave photonic filter based on two-frequency optical source** [7992-11]
O. G. Morozov, T. S. Sadeev, Kazan State Technical Univ. (Russian Federation)

SESSION 3

- 7992 0D **Optical refractometric FBG biosensors: problems of development and decision courses** [7992-12]
O. A. Stepustchenko, Ministry of Internal Affairs, Tatarstan Republic (Russian Federation); O. G. Morozov, Ministry of Internal Affairs, Tatarstan Republic (Russian Federation) and Kazan State Technical Univ. (Russian Federation); I. R. Sadykov, G. A. Morozov, P. E. Denisenko, Kazan State Technical Univ. (Russian Federation); A. N. Gorshunova, Povolzhskiy State Univ. of Telecommunications and Informatics (Russian Federation)
- 7992 0E **Structural minimization of fiber optic sensor nets for monitoring of dangerous materials storage** [7992-13]
O. G. Morozov, Kazan State Technical Univ. (Russian Federation); G. A. Morozov, Kazan State Technical Univ. (Russian Federation) and Povolzhskiy State Univ. of Telecommunications and Informatics (Russian Federation); V. V. Kourevin, Kazan State Technical Univ. (Russian Federation); V. G. Kouprianov, Ministry of Defence Dept. (Russian Federation); E. P. Denisenko, Kazan State Technical Univ. (Russian Federation); S. G. Alyushina, Povolzhskiy State Univ. of Telecommunications and Informatics (Russian Federation)

SESSION 4

- 7992 0F **Strategy choice for fiber optic transmission lines maintenance** [7992-14]
V. A. Andreev, A. A. Voronkov, Povolzhskiy State Univ. of Telecommunications and Informatics (Russian Federation); L. N. Shafigullin, JSC Tattelecom (Russian Federation)
- 7992 0G **Chromatic dispersion and PMD measurements of optical fiber** [7992-15]
S. B. Yanyshchev, I. H. Galeev, JSC Bashinformsvyaz (Russian Federation); I. L. Vinogradova, A. N. Garifinov, A. I. Salikhov, A. H. Sultanov, Ufa State Aviation Technical Univ. (Russian Federation)
- 7992 0H **Localization method of fiber optics defects on short length of optical cable** [7992-16]
E. V. Dmitriev, Povolzhskiy State Univ. of Telecommunications and Informatics (Russian Federation)
- 7992 0I **Results of field inspection of fiber optical communication line using polarization optical time domain reflectometer** [7992-17]
M. V. Dashkov, Povolzhskiy State Univ. of Telecommunications and Informatics (Russian Federation)

- 7992 OJ **Researches of incrementation of attenuation in optical fiber at deformation of optical cable loose tubes** [7992-18]
T. G. Nikulina, I. N. Alekhin, S. A. Gavryushin, Povolzhskiy State Univ. of Telecommunications and Informatics (Russian Federation)
- 7992 OK **Researches of optical cable stability in the microduct to effect of freezing water** [7992-19]
V. A. Burdin, T. G. Nikulina, I. N. Alekhin, S. A. Gavryushin, Povolzhskiy State Univ. of Telecommunications and Informatics (Russian Federation)

SESSION 5

- 7992 OL **Training course on optical telecommunication and multimedia technologies for specialists in endoscopic video surgery** [7992-20]
A. F. Agliullin, MedFarmServis (Russian Federation); V. F. Gusev, JSC ICL (Russian Federation); O. G. Morozov, R. R. Samigullin, A. Iv. Akul'shin, N. V. Bagapov, Kazan State Technical Univ. (Russian Federation)

Introduction

This volume contains a selection of papers presented at the tenth International Conference on Optical Technologies for Telecommunications. The conference was held 17–18 November 2010 at Ufa State Aviation Technical University, Ufa, Russia.

The conference covered a large range of problems in optical technologies in telecommunications. The papers accepted for publication in this volume were chosen from papers presented at the conference on the topics mentioned in the table of contents.

We have no doubt that the proceedings from this conference will be helpful for both scientists and specialists working in the fields of telecommunication technologies.
