Event: 10th International Conference on Quality Control by Artificial Vision, 2011, Saint-Etienne, France

PROCEEDINGS OF SPIE

Tenth International Conference on **Quality Control by Artificial Vision**

Jean-Charles Pinoli
Johan Debayle
Yann Gavet
Frédéric Gruy
Claude Lambert
Editors

28–30 June 2011
Saint-Etienne, France

Organized by
LPMG CNRS, Saint-Etienne (France)

Sponsored by
Ecole Nationale Supérieure des Mines de Saint-Etienne (France)
La Ville de Saint-Etienne (France)
La Métropole de Saint-Etienne (France)
Le Conseil Général de la Loire (France)

Cooperating Organization and Publisher
SPIE

Volume 8000

Proceedings of SPIE, 0277-786X, v. 8000

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers included in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. The papers published in these proceedings reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from this book:

Copying of material in this book for internal or personal use, or for the internal or personal use of specific clients, beyond the fair use provisions granted by the U.S. Copyright Law is authorized by SPIE subject to payment of copying fees. The Transactional Reporting Service base fee for this volume is \$18.00 per article (or portion thereof), which should be paid directly to the Copyright Clearance Center (CCC), 222 Rosewood Drive, Danvers, MA 01923. Payment may also be made electronically through CCC Online at copyright.com. Other copying for republication, resale, advertising or promotion, or any form of systematic or multiple reproduction of any material in this book is prohibited except with permission in writing from the publisher. The CCC fee code is 0277-786X/11/\$18.00.

Printed in the United States of America.

Publication of record for individual papers is online in the SPIE Digital Library.

SPIDigitalLibrary.org

Paper Numbering: Proceedings of SPIE follow an e-First publication model, with papers published first online and then in print and on CD-ROM. Papers are published as they are submitted and meet publication criteria. A unique, consistent, permanent citation identifier (CID) number is assigned to each article at the time of the first publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online, print, and electronic versions of the publication. SPIE uses a six-digit CID article numbering system in which:

- The first four digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc.

The CID number appears on each page of the manuscript. The complete citation is used on the first page, and an abbreviated version on subsequent pages. Numbers in the index correspond to the last two digits of the six-digit CID number.

Contents

vii	Conference Committee
ix	Introduction

STEREOVISION

8000 02	Illumination control in view of dynamic (re)planning of 3D reconstruction tasks [8000-05] A. Belhaoua, Lab. des Sciences de l'Image, de l'Informatique et de la Télédétection, CNRS, Univ. de Strasbourg (France); S. Kohler, Univ. de Haute Alsace (France); E. Hirsch, Lab. des Sciences de l'Image, de l'Informatique et de la Télédétection, CNRS, Univ. de Strasbourg (France)
8000 03	Using variable homography to measure emergent fibers on textile fabrics [8000-27] J. Xu, Univ. de Haute Alsace (France), LPMT, CNRS, Univ. Haute Alsace (France), and Niederrhein Univ. of Applied Sciences (Germany); C. Cudel, S. Kohler, Univ. de Haute Alsace (France); S. Fontaine, LPMT, CNRS, Univ. Haute Alsace (France); O. Haeberlé, Univ. de Haute Alsace (France); M.-L. Klotz, Rhine-Waal Univ. of Applied Sciences (Germany)
8000 04	Defect detection of electronic devices by single stereo vision [8000-33] A. Kusano, T. Watanabe, T. Funahashi, T. Fujiwara, H. Koshimizu, Chukyo Univ. (Japan)

SIZE/SHAPE MEASUREMENTS

8000 05	Recognizing overlapped particles during a crystallization process from in situ video images for measuring their size distributions [8000-08] O. Suleiman Ahmad, J. Debayle, N. Gherras, B. Presles, LPMG, CNRS, Ecole Nationale Supérieure des Mines de Saint-Etienne (France); G. Févotte, LPMG, CNRS, Ecole Nationale Supérieure des Mines de Saint-Etienne (France) and Univ. Lyon 1 (France); J.-C. Pinoli, LPMG, CNRS, Ecole Nationale Supérieure des Mines de Saint-Etienne (France)
8000 06	Extracting the ridge set as a graph for quantification of actin filament images obtained by confocal laser scanning microscopy [8000-40] H. Birkholz, Univ. of Rostock (Germany)
8000 07	Distance maps and inscribed convex sets for shape classification applied to road signs [8000-34] F. Robert-Inacio, IM2NP, CNRS, Univ. Paul Cézanne (France) and Institut Supérieur de l'Electronique et du Numérique (France)

INTERFEROMETRY

8000 08	Nano-level 3D shape measurement system using color analysis method of RGB interference fringes [8000-13] S. Hata, D. Kimura, M. Kaneda, Kagawa Univ. (Japan); S. Morimoto, REXXAM Co. (Japan); H. Kobayashi, Kagawa Prefecture Industrial Technology Ctr. (Japan)
---------	---

- 8000 09 **Multiwavelength single-shot interferometry without carrier fringe introduction** [8000-14]
K. Kitagawa, Toray Engineering Co., Ltd. (Japan)

ADVANCED TOOLS

- 8000 0A **Combining high productivity and high performance in image processing using Single Assignment C** [8000-31]
V. Wieser, B. Moser, Software Competence Ctr. Hagenberg (Austria); S.-B. Scholz, S. Herhut, J. Guo, Univ. of Hertfordshire (United Kingdom)

IMAGING SYSTEMS AND SENSORS

- 8000 0B **Creation of an artifact database and experimental measurement of their detectability thresholds in noises of different spectra, in the context of quality control of an x-ray imager** [8000-04]
J. M. Vignolle, L. Debize, I. Bensaid, R. Forich, C. Berthaud, C. Marmajou, B. Candiard, Trixell (France)
- 8000 0C **Evaluation of the reasons why freshly appearing citrus peel fluorescence during automatic inspection by fluorescent imaging technique** [8000-11]
Md. A. Momin, N. Kondo, Kyoto Univ. Graduate School of Agriculture (Japan); M. Kuramoto, Ehime Univ. (Japan); Y. Ogawa, K. Yamamoto, T. Shiigi, Kyoto Univ. Graduate School of Agriculture (Japan); K. Ninomiya, SI-Seiko Co. Ltd (Japan)
- 8000 0D **Secondary radiations in CBCT: a simulation study** [8000-15]
P. Wils, J. M. Létang, CREATIS, CNRS, Univ. Lyon 1 (France); J.-P. Bruandet, Digisens SA (France)
- 8000 0E **A proposal of virtual lens model by using multi-camera array** [8000-21]
K. Takahashi, K. Kato, K. Yamamoto, Gifu Univ. (Japan)

DATA FUSION

- 8000 0F **Automatic classification of 3D segmented CT data using data fusion and support vector machine** [8000-09]
A. Osman, Fraunhofer Institute for Integrated Circuits (Germany); V. Kaftandjian, National Institute of Applied Sciences (France); U. Hassler, Fraunhofer Institute for Integrated Circuits (Germany)
- 8000 0G **Fusion of geometric and thermographic data for the automatic inspection of forgings and castings** [8000-36]
B. Oswald-Tranta, P. O'Leary, Univ. of Leoben (Austria)

MOTION/REGISTRATION

- 8000 OH **Automatic quantitative evaluation of image registration techniques with the ϵ dissimilarity criterion in the case of retinal images** [8000-23]
Y. Gavet, M. Fernandes, J.-C. Pinoli, CIS-LPMG, CNRS, Ecole Nationale Supérieure des Mines de Saint-Etienne (France)
- 8000 OI **Mobile robot control using 3D hand pose estimation** [8000-28]
K. Hoshino, T. Kasahara, N. Igo, M. Tomida, T. Tanimoto, Univ. of Tsukuba (Japan); T. Mukai, G. Brossard, H. Kotani, Crescent, Inc. (Japan)
- 8000 OJ **Non-rigid registration for quality control of printed materials** [8000-29]
A. Badshah, P. O'Leary, M. Harker, Univ. of Leoben (Austria); C. Sallinger, IPAC Improve Process Analytics and Control GmbH (Austria)

TEXTURE AND SURFACE INSPECTION

- 8000 OK **A template matching approach based on the discrepancy norm for defect detection on regularly textured surfaces** [8000-06]
J.-L. Bouchof, Johannes Kepler Univ. Linz (Austria); G. Stübl, B. Moser, Software Competence Ctr. Hagenberg (Austria)
- 8000 OL **Unsupervised segmentation based on Von Mises circular distributions for orientation estimation in textured images** [8000-24]
J.-P. Da Costa, IMS Lab., CNRS, Univ. Bordeaux 1 (France); F. Galland, A. Roueff, Institut Fresnel, CNRS, Aix-Marseille Univ. (France); C. Germain, IMS Lab., CNRS, Univ. Bordeaux 1 (France)
- 8000 OM **Algorithms for microindentation measurement in automated Vickers hardness testing** [8000-25]
M. Gadermayr, A. Maier, A. Uhl, Univ. of Salzburg (Austria)
- 8000 ON **Measuring image sharpness for a computer vision-based Vickers hardness measurement system** [8000-26]
A. Maier, G. Niederbrucker, A. Uhl, Univ. of Salzburg (Austria)

POSTER SESSION

- 8000 OO **An algorithm for a progressive acquisition image sensor** [8000-30]
P.-E. Leni, Y. D. Fougere, F. Truchetet, Lab. LE2I, CNRS, Univ. de Bourgogne (France)
- 8000 OP **Shape matching by affine movement estimation for 3D reconstruction** [8000-35]
M. Saidani, F. Ghorbel, Manouba Univ. (Tunisia)

Françoise Bresson, ENSM Saint-Etienne (France)
Ségolène Courant, ENSM Saint-Etienne (France)
Stéphanie Javelle, ENSM Saint-Etienne (France)

Introduction

The research group on Image and Pattern Processing, Analysis and Modeling of the LPMG/CNRS-ENSMSE is proud to welcome the Tenth International Conference on Quality Control by Artificial Vision to Saint-Etienne. QCAV 2011 follows several worldwide editions – France in 1993, 1995, 1997, 2001, 2007, Japan in 1998 and 2005, Canada in 1999, the USA in 2003, and Austria in 2009.

Twenty-four papers have been selected by the international scientific committee (from which two are for the poster session) from Austria, France, Germany, Japan, Tunisia, and the United Kingdom. Moreover, three keynote speakers, renowned in the field of image processing and quality control, honoring us with their presence: Claude Lambert from the ENSM-SE and CHU-SE (France), Seiji Hata from the Kagawa University (Japan), and Fabrice Mériaudeau from the University of Burgundy (France).

It is our pleasure to say that a special section of the *Journal of Electronic Imaging* (copublished by SPIE and IS&T) will be dedicated to QCAV 2011 and will feature selections based on the best papers presented at the conference.

This year's conference is supported by SPIE as a cooperating organization. The organizing committee is very grateful to them for trusting us, and would also like to acknowledge our partners and sponsors for their precious help in organizing the conference:

- Ecole Nationale Supérieure des Mines de Saint-Etienne (France)
- Centre National de la Recherche Scientifique - CNRS (France)
- La Ville de Saint-Etienne (France)
- La Métropole de Saint-Etienne (France)
- Le Conseil Général de la Loire (France).

Jean-Charles Pinoli
