Fourth International Conference on Machine Vision (ICMV 2011)

Machine Vision, Image Processing, and Pattern Analysis

Zhu Zeng
Yuting Li
Editors

9–10 December 2011
Singapore

Organized by
Singapore Institute of Electronics

Sponsored by
International Association of Computer Science and Information Technology

Published by
SPIE

Volume 8349
# Contents

xiii Conference Committee  

xv Introduction  

## IMAGE PROCESSING

</table>
8349 0E  Infrared and visible image registration using feature and area for image fusion [8349-65]
X. Zhang, H. Qin, M. Wang, Leshan Normal Univ. (China); J. Yang, Leshan Public Security Bureau (China)

8349 0F  A POCS super-resolution image reconstruction based on the projection residue [8349-69]
Z. Luo, J. Wu, Nanchang Univ. (China)

8349 0G  Design and development of LED-based irregular leather area measuring machine [8349-74]
R. Adil, Karachi Institute of Economics and Technology (Pakistan); S. J. Khan, VectraCom (Pvt) Ltd. (Pakistan)

8349 0H  A marked bounding box method for image data reduction and reconstruction of sole patterns [8349-77]
X. Wang, J. Wu, Q. Zhao, Nanchang Univ. (China); J. Cheng, Y. Zhu, Jiangxi Provincial Public Security Bureau (China)

8349 0I  A novel multiple cues based image fusing algorithm for high dynamic range image generation [8349-81]
X. Wu, Shenzhen Institutes of Advanced Technology (China) and Harbin Institute of Technology (China); Z. Song, Shenzhen Institutes of Advanced Technology (China) and The Chinese Univ. of Hong Kong (Hong Kong, China); G. Yu, Harbin Institute of Technology (China); F. Zheng, Shenzhen Institutes of Advanced Technology (China) and The Chinese Univ. of Hong Kong (Hong Kong, China)

8349 0J  Image denoising via combining contourlet and stationary-wavelet transform [8349-82]
X. Song, D. Yamg, X. Qi, Xi'an Communication Institute (China)

8349 0K  Smooth connection method of segment test data in road surface profile measurement [8349-88]
H.-M. Duan, China Automotive Engineering Research Institute (China) and Tongji Univ. (China); Y. Ma, F. Shi, K.-B. Zhang, F. Xie, China Automotive Engineering Research Institute (China)

8349 0L  Fast line drawing algorithm by circular subtraction based on Bresenham [8349-101]
X. Li, X. Shao, Zhengzhou Institute of Aeronautical Industry Management (China)

8349 0M  Research of image retrieval system framework based on ontology and content [8349-106]
H. Liu, Zhejiang Gongshang Univ. (China)

8349 0N  The review of digital image border detection [8349-119]
W. Fang, Hubei Univ. of Education (China); W. Zhang, Fiberhome Telecommunication Technologies Co., Ltd. (China)

8349 0O  A fuzzy optimal threshold technique for medical images [8349-121]
B. Thirupathi Kannan, Anna Univ. (India); K. Krishnasamy, Sri S. Ramaswamy Naidu Memorial College (India); P. K. K. S., Infant Jesus College of Engineering and Technology (India)

8349 0P  Ghost removal for background subtraction using color similarity comparison [8349-131]
Z. Kadim, K. M. Liang, N. Samudin, K. M. Johari, H. W. Hon, MIMOS Berhad (Malaysia)

8349 13 Video auto stitching in multicamera surveillance system [8349-45]
B. He, G. Zhao, Q. Liu, Y. Li, Huazhong Normal Univ. (China)

8349 14 The analysis of network transmission method for welding robot information [8349-54]
W. Cheng, H. Zhang, D. Liu, H. Wang, Nanchang Univ. (China)

8349 15 Robust object tracking using camshift with multicue integration [8349-59]
Y. Zhong, S. Zhang, Jiangxi Univ. of Science and Technology (China)

8349 16 License plate location based on improved visual attention model [8349-60]
Z. Yao, W. Yi, Graduate Univ. of the Chinese Academy of Sciences (China)

8349 17 Face verification system based on texture feature with single sample per person [8349-63]
X. Wang, W. Yang, Q. Liao, Tsinghua Univ. (China)

8349 18 Design and implementation of signal processing scheme in CDMA wireless location systems [8349-66]
T. Yang, H. Fu, Henan Univ. of Technology (China)

8349 19 GDRMS: a system for automatic extraction of the disease-centre relation [8349-72]
R. Yang, Y. Zhang, L. Gong, Huaiyin Institute of Technology (China)

8349 1A Research on virtualization-based video-on-demand services architecture [8349-80]
C. Shu, X. Zhang, South China Univ. of Technology (China)

8349 1B An effective one-dimensional anisotropic fingerprint enhancement algorithm [8349-83]
Z. Ye, M. Xie, Univ. of Electronic Science and Technology of China (China)

8349 1C Gear visual inspection system and application in logarithmic spiral bevel gear [8349-89]
Q. Li, Inner Mongolia Univ. of Science and Technology (China); Y. Liu, Sichuan Agricultural Univ. (China); H. Yan, Inner Mongolia Univ. of Science and Technology (China)

8349 1D Fusion of inertial and vision data for accurate tracking [8349-90]
J. Chen, W. Liu, Y. Wang, J. Guo, Beijing Institute of Technology (China)

8349 1E Handwritten Uighur character segmentation and performance evaluation [8349-92]
J. Li, Z. Lu, Xidian Univ. (China); A. Yimiti, Xidian Univ. (China) and Xinjiang Normal Univ. (China); F. Tan, Xidian Univ. (China)

8349 1F Identity-based group key exchange protocols resistant to colluding attacks [8349-93]
Y. Jiang, Gujing Normal Univ. (China)

8349 1G UsiFe: a user space file system with support for intra-file encryption [8349-99]
R. Sharma, P. Kallurkar, S. Kumar, S. R. Sarangi, Indian Institute of Technology Delhi (India)

8349 1H Fault diagnosis based on signed directed graph and support vector machine [8349-100]
X. Han, Q. Lv, G. Xie, J. Zheng, Taiyuan Univ. of Technology (China)

8349 1I Extension of analog network coding in wireless information exchange [8349-108]
C. Chen, J. Huang, Huazhong Univ. of Science and Technology (China)
Research on fault-relating pattern of mechanical system based on cellular automata
Y. Gao, X. Zhao, Yangzhou Polytechnic College (China)

Engineering application based on fuzzy approach
M. Pislaru, S. Avasilcai, A. Trandabat, Gheorghe Asachi Technical Univ. of Iaşi (Romania)

Visualization of OWL DL using ORM
W. Pan, D. Liu, Harbin Engineering Univ. (China)

Using virtual machine monitors to overcome the challenges of monitoring and managing virtualized cloud infrastructures
M. A. Bamiah, S. N. Brohi, S. Chuprat, Univ. Teknologi Malaysia (Malaysia)

Fuzzy regularized linear discriminant analysis for face recognition
M. Aghaei Taghilidabad, N. Baseri Salehi, International Sharif Univ. of Technology (Iran, Islamic Republic of); S. Kasaee, Sharif Univ. of Technology (Iran, Islamic Republic of)

High precision and convenient extension simulation platform for satellite attitude and orbit system
H. Cui, C. Han, P. Chen, Q. Luo, Beihang Univ. (China)

Detection of navigation route in greenhouse environment with machine vision
H. Wang, C. Ji, Q. An, Q. Ding, Nanjing Agricultural Univ. (China)

Employing grayscale fonts with equivalent luminance of background colours to discourage grayscale photocopying
H.-C. Soong, Univ. Tunku Abdul Rahman (Malaysia)

Developing capacitive equipment on-line monitoring intelligence software
W. Zhang, L. Yang, Zhejiang Wanli Univ. (China)

A practical real-time detection visual system for driver’s eye closure state tracking
T. Zhan, Z. Li, J. Zhang, Guangdong Polytechnic Normal Univ. (China)

MIYAESI: leveraging Java sound programming interface for automatic music transcription
H. Abeykoon, T. Kaushalya, N. Akram, A. Dissanayaka, S. Weerawarana, C. De Silva, Univ. of Moratuwa (Sri Lanka)

Restoration of face images
A. Srinivasan, Sri Venkateswara College of Engineering (India)

The flexible grinding technology based on the electric current control
L. Peng, B. Yao, F. Li, X. Wang, Xiamen Univ. (China); B. Yao, Shaanxi Hanjiang Machine Tool Co. Ltd. (China)

The study of license plate location and character segmentation
Y. Lang, Y. Sun, Shenyang Aerospace Univ. (China)
Method of recognition and feature extraction about round and rectangular in mechanical process [8349-155]
D. Lu, C. Dai, Jiangsu Univ. of Science and Technology (China)

A framework of Chinese semantic text mining based on ontology learning [8349-162]
Y. Zhang, Wuhan Univ. (China); F. Hu, Wuhan Univ. (China) and Guangdong Univ. of Technology (China)

Application of a neural network predictive control based on GGAP-RBF for the supercritical main steam [8349-166]
Y.-J. Li, Kunming Univ. (China) and Wuhan Univ. (China); Y. Fang, Wuhan Univ. (China); Q. Li, Naval Univ. of Engineering (China)

Application of adaptive PID control based on RBF-NN for the supercritical main steam [8349-167]
Y.-J. Li, Kunming Univ. (China) and Wuhan Univ. (China); Y. Fang, Wuhan Univ. (China)

Hybrid fuzzy regression with trapezoidal fuzzy data [8349-168]
T. Razzaghnia, S. Danesh, A. Maleki, Islamic Azad Univ. (Iran, Islamic Republic of)

Detecting outliers in fuzzy regression analysis with asymmetric trapezoidal fuzzy data [8349-169]
A. Maleki, Islamic Azad Univ. (Iran, Islamic Republic of); E. Pasha, Teacher Training Univ. (Iran, Islamic Republic of); Gh. Yari, Iran Univ. of Science and Technology (Iran, Islamic Republic of); T. Razzaghnia, Islamic Azad Univ. (Iran, Islamic Republic of)

Review of intelligent video surveillance with single camera [8349-170]
Y. Liu, J. Fan, D. Wang, Xi’an Univ. of Post and Telecommunications (China)

Influence of marine engine simulator training to marine engineer's competence [8349-06]
P. Wang, X. Cheng, Q. Ma, X. Song, X. Liu, L. Wang, Shandong Jiaotong Univ. (China)

Research of RFID middleware model with CEP based on SOA [8349-07]
Z. Wang, Z. Ma, Hefei Univ. of Technology (China)

Design of single object model of software reuse framework [8349-08]
L. Yan, Jiangxi Blue Sky Univ. (China)

The expansion of the definition of granular sets [8349-10]
S. Guan, Nanchang Institute of Technology (China)

Improving the trust algorithm of information in semantic web [8349-17]
Z. Wan, J. Min, East China Jiao Tong Univ. (China)

Formal analysis of ORM using OWL DL [8349-20]
W. Pan, D. Liu, Harbin Engineering Univ. (China)

Introduction

Dear Distinguished Delegates and Guests,

The ICMV 2011 was organized by the Singapore Institute of Electronics (SIE) and cosponsored by the International Association of Computer Science and Information Technology (IACSt). The ICMV 2011 was organized to gather members of our international community scientists so that researchers from around the world can present their leading-edge work, expanding our community’s knowledge and insight into the significant challenges currently being addressed in that research. The conference program committee is itself quite diverse and truly international, with membership from the Americas, Europe, Asia, Africa and Oceania.

This proceedings volume records the fully refereed papers that were presented at the ICMV 2011. The main conference themes and tracks are machine vision. The main goal of these events is to provide international scientific forums for exchange of new ideas in a number of fields that interact in-depth through discussions with their peers from around the world. Both inward research; core areas of machine vision and outward research; multidisciplinary, interdisciplinary, and applications will be covered during these events.

The conference solicited and gathered technical research submissions related to all aspects of major conference themes and tracks. All of the submitted papers in these proceedings have been peer reviewed by the reviewers drawn from the scientific committee, external reviewers, and editorial board, depending on the subject matter of the paper. Reviewing and initial paper selection was undertaken electronically. After the rigorous peer-review process, the submitted papers were selected on the basis of originality, significance, and clarity for the purpose of the conference. The selected papers and additional late-breaking contributions presented as lectures made for an exciting technical program. The conference program was extremely rich, featuring high-impact presentations.

The high quality of the program – which was guaranteed by the presence of an unparalleled number of internationally recognized top experts – can be assessed when reading the contents of the program. The conference was therefore a unique event, where attendees appreciated the latest results in their field of expertise, and acquired additional knowledge in other fields. The program was structured to favor interactions among attendees coming from many diverse...
horizons, scientifically, geographically, from academia and from industry. Social events at prestigious sites favored interactions among the attendees.

We would like to thank the program chairs, organization staff, and the members of the program committees for their work.

We are grateful to all those who have contributed to the success of ICMV 2011. We hope that all participants and other interested readers benefit scientifically from these proceedings and also find it stimulating in the process. Finally, we would like to wish you success in your technical presentations and social networking.

We hope that you had a unique, rewarding, and enjoyable week at ICMV 2011 in Singapore.

With our warmest regards,

The Organizing Committees
9–10 December 2011
