Event: SPIE Solar Energy + Technology, 2012, San Diego, California, United States

PROCEEDINGS OF SPIE

Laser Material Processing for Solar Energy

Edward W. Reutzel
Editor

15–16 August 2012
San Diego, California, United States

Sponsored and Published by
SPIE

Volume 8473

Proceedings of SPIE 0277-786X, V.8473

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

Laser Material Processing for Solar Energy, edited by Edward W. Reutzel, Proc. of SPIE
Vol. 8473, 847301 · © 2012 SPIE · CCC code: 0277-786/12/\$18 · doi: 10.1117/12.2011789

Proc. of SPIE Vol. 8473 847301-1

The papers included in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. The papers published in these proceedings reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from this book:

Author(s), "Title of Paper," in *Laser Material Processing for Solar Energy*, edited by Edward W. Reutzel, Proceedings of SPIE Vol. 8473 (SPIE, Bellingham, WA, 2012) Article CID Number.

Copying of material in this book for internal or personal use, or for the internal or personal use of specific clients, beyond the fair use provisions granted by the U.S. Copyright Law is authorized by SPIE subject to payment of copying fees. The Transactional Reporting Service base fee for this volume is \$18.00 per article (or portion thereof), which should be paid directly to the Copyright Clearance Center (CCC), 222 Rosewood Drive, Danvers, MA 01923. Payment may also be made electronically through CCC Online at copyright.com. Other copying for republication, resale, advertising or promotion, or any form of systematic or multiple reproduction of any material in this book is prohibited except with permission in writing from the publisher. The CCC fee code is 0277-786X/12/\$18.00.

Printed in the United States of America.

Publication of record for individual papers is online in the SPIE Digital Library.

SPIDigitalLibrary.org

Paper Numbering: Proceedings of SPIE follow an e-First publication model, with papers published first online and then in print and on CD-ROM. Papers are published as they are submitted and meet publication criteria. A unique, consistent, permanent citation identifier (CID) number is assigned to each article at the time of the first publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online, print, and electronic versions of the publication. SPIE uses a six-digit CID article numbering system in which:

- The first four digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc.

The CID Number appears on each page of the manuscript. The complete citation is used on the first page, and an abbreviated version on subsequent pages. Numbers in the index correspond to the last two digits of the six-digit CID Number.

Contents

vii *Conference Committee*

SESSION 1	SPECIAL TOPICS I
8473 02	Laser processing of solar cells (Keynote Paper) [8473-1] D. E. Carlson, Carlson PV (United States)
8473 03	Understanding and enabling laser processing of solar materials through temporal pulse control (Invited Paper) [8473-2] M. Rekow, T. Panarello, ESI - PyroPhotonics Lasers Inc. (Canada); N. Falletto, M. Guevremont, EOLITE Systems (France)
8473 04	Modeling of contact geometry and dopant profile during laser-silicon interaction [8473-3] A. Raghavan, J. J. Blecher, T. A. Palmer, E. W. Reutzel, T. DebRoy, The Pennsylvania State Univ. (United States)
8473 06	Laser and thermal treatments for reclamation of silicon solar cells performance [8473-5] A. H. Al-Musawi, Univ. of Baghdad (Iraq)
SESSION 2	LASER DOPING AND CONTACTING I
8473 07	Laser-based foil rear side metallization for crystalline silicon solar cells (Keynote Paper) [8473-6] J. Nekarda, M. Graf, A. Rodofili, A. Wolf, R. Preu, Fraunhofer-Institut für Solare Energiesysteme (Germany)
8473 08	Influence of wavelength on laser doping and laser-fired contact processes for c-Si solar cells (Invited Paper) [8473-7] C. Molpeceres, M. I. Sánchez-Aniorte, M. Morales, D. Muñoz, Univ. Politécnica de Madrid (Spain); I. Martín, P. Ortega, M. Colina, C. Voz, R. Alcubilla, Univ. Politécnica de Catalunya (Spain)
8473 09	Laser doping for high-efficiency silicon solar cells [8473-8] U. Jäger, A. Wolf, B. Steinhauser, J. Benick, J. Nekarda, R. Preu, Fraunhofer-Institut für Solare Energiesysteme (Germany)
8473 0A	Laser doping from spin-on sources for selective emitter silicon solar cells [8473-9] A. Slaoui, P. Prathap, J. Bartringer, Institut d'Électronique du Solide et des Systèmes, CNRS (France)

SESSION 3 LASER ANNEALING AND CRYSTALLIZATION

- 8473 0C **Laser processing for thin film crystalline silicon solar cells** [8473-11]
A. Slaoui, A. Chowdhurya, P. Prathap, Z. Said-Bacar, Institut d'Électronique du Solide et des Systèmes, CNRS (France); A. Bahouka, F. Mermet, IREPA LASER (France)
- 8473 0D **Nanosecond laser annealing to decrease the damage of picosecond laser ablation of anti-reflection layers on textured silicon surfaces** [8473-12]
A. A. Brand, A. Knorz, R. Zeidler, J.-F. Nekarda, R. Preu, Fraunhofer-Institut für Solare Energiesysteme (Germany)
- 8473 0E **Laser nucleation and solid phase crystallization of a-Si:H** [8473-13]
M. S. Dabney, National Renewable Energy Lab. (United States) and Colorado School of Mines (United States); A. H. Mahan, M. F. A. M. van Hest, D. S. Ginley, National Renewable Energy Lab. (United States)
- 8473 0F **Pulsed and continuous wave solid phase laser annealing of electrodeposited CuInSe₂ thin films** [8473-14]
A. Bhatia, The Univ. of Utah (United States); H. Meadows, A. Crossay, P. J. Dale, Univ. du Luxembourg (Luxembourg); M. A. Scarpulla, The Univ. of Utah (United States)

SESSION 4 LASER SCRIBING AND STRUCTURING I

- 8473 0G **Review of laser material interaction to improve CIGSeS thin film solar cells (Invited Paper)** [8473-15]
N. G. Dhere, A. Kaul, J. Shimada, Univ. of Central Florida (United States); A. Kar, CREOL, The College of Optics and Photonics, Univ. of Central Florida (United States)
- 8473 0H **Laser-assisted micro/nanoscale material processing and in-situ diagnostics for solar applications (Invited Paper)** [8473-16]
D. J. Hwang, Stony Brook Univ., State Univ. of New York (United States); C. P. Grigoropoulos, Univ. of California, Berkeley (United States)

SESSION 5 SPECIAL TOPICS II

- 8473 0M **Laser parameters for silicon solar cell processing: a simulation of heat transfer and material modification** [8473-21]
T. Baier, G. Glaeser, H. Wanka, Manz AG (Germany)
- 8473 0N **Extending the limits of laser beam shaping for PV-cell manufacturing** [8473-22]
I. Steiner, T. Mitra, LIMO Lissotschenko Mikrooptik GmbH (Germany)
- 8473 0O **Applying field mapping refractive beam shapers in laser technologies for solar energy** [8473-23]
A. Laskin, V. Laskin, AdlOptica Optical Systems GmbH (Germany)

SESSION 6 LASER SCRIBING AND STRUCTURING II

- 8473 0Q **Novel approach to short-pulse and ultra-short pulse laser ablation of silicon nitride passivation layers** [8473-25]
M. Schulz-Ruhtenberg, D. Trusheim, M. Smeets, J. Holtkamp, A. Gillner, Fraunhofer-Institut für Lasertechnik (Germany)
- 8473 0R **Laser assisted patterning of hydrogenated amorphous silicon for interdigitated back contact silicon heterojunction solar cell** [8473-26]
S. De Vecchi, T. Desrues, F. Souche, D. Muñoz, Institut National de l'Energie Solaire (France); M. Lemiti, Institut National des Sciences Appliquées de Lyon, Univ. de Lyon (France)
- 8473 0S **Mechanisms of lifetime degradation in Si/ARC samples patterned by laser lift-off** [8473-27]
K. L. Saenger, IBM T.J. Watson Research Ctr. (United States)
- 8473 0T **Ytterbium-pulsed fiber laser percussion drilling silicon for emitter wrap through solar cells** [8473-28]
Y. Huang, X. Zhu, H. Zhu, Institute of Semiconductors (China)

SESSION 7 LASER DOPING AND CONTACTING II

- 8473 0W **Parameter optimization of laser-doped selective emitters for applications in silicon solar cells** [8473-31]
H. E. Heinrichs, E. W. Reutzel, S. Ashok, S. Mohny, The Pennsylvania State Univ. (United States)
- 8473 0X **Laser processes and system technology for the production of high-efficient crystalline solar cells** [8473-32]
R. Mayerhofer, R. Hendel, W. Zhu, S. Geiger, Rofin-Baasel Lasertechnik GmbH & Co. KG (Germany)

Author Index

Conference Committee

Symposium Chair

Martha Symko-Davies, National Renewable Energy Laboratory
(United States)

Conference Chair

Edward W. Reutzel, Applied Research Laboratory, The Pennsylvania
State University (United States)

Conference Program Committee

David E. Carlson, Carlson PV Consulting (United States)
Corey M. Dunskey, Veeco Instruments Inc. (United States)
Costas Grigoropoulos, University of California, Berkeley (United States)
Aravinda Kar, CREOL, The College of Optics and Photonics, University
of Central Florida (United States)
Jan Nekarda, Fraunhofer-Institut für Solare Energiesysteme (Germany)
Bhushan L. Sopori, National Renewable Energy Laboratory (United
States)

Session Chairs

- 1 Special Topics I
Edward W. Reutzel, Applied Research Laboratory, The Pennsylvania
State University (United States)
- 2 Laser Doping and Contacting I
Mool Gupta, University of Virginia (United States)
- 3 Laser Annealing and Crystallization
David J. Hwang, Stony Brook University (United States)
- 4 Laser Scribing and Structuring I
Corey M. Dunskey, Veeco Instruments Inc. (United States)
- 5 Special Topics II
Aravinda Kar, CREOL, The College of Optics and Photonics, University
of Central Florida (United States)
- 6 Laser Scribing and Structuring II
Edward W. Reutzel, Applied Research Laboratory, The Pennsylvania
State University (United States)

- 7 Laser Doping and Contacting II
Jan Nekarda, Fraunhofer-Institut für Solare Energiesysteme (Germany)
