SPIE

Volume 8508

Proceedings of SPIE 0277-786X, v. 8508

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

Medical Applications of Radiation Detectors II, edited by H. Bradford Barber, Hans Roehrig,
Proc. of SPIE Vol. 8508, 850801 · © 2012 SPIE · CCC code: 0277-786X/12/\$18 · doi: 10.1117/12.2008652

Proc. of SPIE Vol. 8508 850801-1

The papers included in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. The papers published in these proceedings reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from this book:

Author(s), "Title of Paper," in *Medical Applications of Radiation Detectors II*, edited by H. Bradford Barber, Hans Roehrig, Proceedings of SPIE Vol. 8508 (SPIE, Bellingham, WA, 2012) Article CID Number.

Copying of material in this book for internal or personal use, or for the internal or personal use of specific clients, beyond the fair use provisions granted by the U.S. Copyright Law is authorized by SPIE subject to payment of copying fees. The Transactional Reporting Service base fee for this volume is \$18.00 per article (or portion thereof), which should be paid directly to the Copyright Clearance Center (CCC), 222 Rosewood Drive, Danvers, MA 01923. Payment may also be made electronically through CCC Online at copyright.com. Other copying for republication, resale, advertising or promotion, or any form of systematic or multiple reproduction of any material in this book is prohibited except with permission in writing from the publisher. The CCC fee code is 0277-786X/12/\$18.00.

Printed in the United States of America.

Publication of record for individual papers is online in the SPIE Digital Library.

SPIDigitalLibrary.org

Paper Numbering: Proceedings of SPIE follow an e-First publication model, with papers published first online and then in print and on CD-ROM. Papers are published as they are submitted and meet publication criteria. A unique, consistent, permanent citation identifier (CID) number is assigned to each article at the time of the first publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online, print, and electronic versions of the publication. SPIE uses a six-digit CID article numbering system in which:

- The first four digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc.

The CID Number appears on each page of the manuscript. The complete citation is used on the first page, and an abbreviated version on subsequent pages. Numbers in the index correspond to the last two digits of the six-digit CID Number.

Contents

v	Conference Committee
vii	In Memoriam

SESSION 1 SEMICONDUCTOR DETECTORS AND SYSTEMS

- 8508 03 **Application of TlBr to nuclear medicine imaging (Invited Paper)** [8508-2]
L. Cirignano, H. Kim, A. Kargar, A. V. Churilov, G. Ciampi, W. Higgins, S. Kim, Radiation Monitoring Devices, Inc. (United States); B. Barber, K. Haston, The Univ. of Arizona (United States); K. Shah, Radiation Monitoring Devices, Inc. (United States)

SESSION 2 DIGITAL RADIOGRAPHY AND CT

- 8508 06 **Optimizing Si detectors and ASIC readouts for high resolution energy resolved x-ray imaging (Invited Paper)** [8508-5]
W. C. Barber, DxRay, Inc. (United States); E. Nygard, J. C. Wessel, N. Malakhov, Interon AS (Norway); N. E. Hartsough, T. Gandhi, DxRay, Inc. (United States); G. Wawrzyniak, Interon AS (Norway); J. S. Iwanczyk, DxRay, Inc. (United States)
- 8508 07 **Dark-count-less photon-counting x-ray computed tomography system using a YAP-MPPC detector (Invited Paper)** [8508-6]
E. Sato, Y. Sato, A. Abudurexiti, Iwate Medical Univ. (Japan); O. Hagiwara, H. Matsukiyo, A. Osawa, T. Enomoto, M. Watanabe, S. Kusachi, Toho Univ. School of Medicine (Japan); S. Sato, A. Ogawa, Iwate Medical Univ. (Japan); J. Onagawa, Tohoku Gakuin Univ. (Japan)
- 8508 08 **High-sensitive computed tomography system using a silicon-PIN x-ray diode** [8508-7]
E. Sato, Iwate Medical Univ. (Japan); Y. Sato, Iwate Medical Univ. Hospital (Japan); A. Abudurexiti, Iwate Medical Univ. (Japan); O. Hagiwara, H. Matsukiyo, A. Osawa, T. Enomoto, M. Watanabe, S. Kusachi, Toho Univ. School of Medicine (Japan); S. Sato, A. Ogawa, Iwate Medical Univ. (Japan); J. Onagawa, Tohoku Gakuin Univ. (Japan)

SESSION 3 SPECT AND OTHER APPLICATIONS

- 8508 0A **Crystalline microcolumnar CsI:Tl films for use in gamma-ray imaging with depth-of-interaction sensitivity (Invited Paper)** [8508-9]
H. Bhandari, Radiation Monitoring Devices, Inc. (United States); H. B. Barber, C. Dumas, The Univ. of Arizona (United States); H. Kudrolli, Radiation Monitoring Devices, Inc. (United States); B. W. Miller, G. T. L. Chac, L. Han, The Univ. of Arizona (United States); V. V. Nagarkar, Radiation Monitoring Devices, Inc. (United States)
- 8508 0B **Imaging from Compton cameras using detectors with no spatial resolution capability** [8508-10]
B. Smith, The Univ. of Texas at San Antonio (United States)

- 8508 0C **NPS assessment of color medical image displays using a monochromatic CCD camera** [8508-11]
H. Roehrig, The Univ. of Arizona (United States) and Image Quality LLC (United States);
X. Gu, Image Quality LLC (United States); J. Fan, GE Healthcare (United States) and The
Univ. of Arizona (United States)

SESSION 4 OTHER MEDICAL APPLICATIONS

- 8508 0D **Stitched large format CMOS image sensors for dental x-ray digital radiography (Invited Paper)** [8508-12]
X. Liu, B. Fowler, H. Do, BAE Systems Imaging Solutions (United States); M. Jaffe, R. Rassel,
B. Leidy, IBM Corp. (United States)
- 8508 0E **A non-invasive blood glucose meter design using multi-type sensors** [8508-13]
D. Nguyen, H. Nguyen, MIAO IC Design LLC (United States); J. Roveda, MIAO IC Design LLC
(United States) and The Univ. of Arizona (United States)
- 8508 0F **Progress in BazookaSPECT: high-resolution dynamic scintigraphy with large-area imagers** [8508-18]
B. W. Miller, Radiation Detection and Nuclear Sciences Group (United States); H. B. Barber,
The Univ. of Arizona (United States); H. H. Barrett, Z. Liu, The Univ. of Arizona (United States);
V. V. Nagarkar, Radiation Monitoring Devices, Inc. (United States); L. R. Furenlid, The Univ.
of Arizona (United States)
- 8508 0G **Image quality evaluation of medical color and monochrome displays using an imaging colorimeter** [8508-15]
H. Roehrig, The Univ. of Arizona (United States) and Image Quality LLC (United States);
X. Gu, Image Quality LLC (United States); J. Fan, GE Healthcare (United States)

POSTER SESSION

- 8508 0H **The uniformity and imaging properties of some new ceramic scintillators** [8508-16]
G. T. L. Chac, B. W. Miller, The Univ. of Arizona (United States); K. Shah, G. Baldoni,
Radiation Monitoring Devices, Inc. (United States); K. J. Domanik, V. Bora, The Univ. of
Arizona (United States); N. J. Cherepy, Z. Seeley, Lawrence Livermore National Lab. (United
States); H. Barber, The Univ. of Arizona (United States)
- 8508 0I **Diagnostics of gastric pathology by means of laser fluorescence** [8508-17]
T. G. Moysyuk, Bukovinian State Medical Univ. (Ukraine)

Author Index

Conference Committee

Program Track Chair

Carolyn A. MacDonald, University at Albany (United States)

Conference Chairs

H. Bradford Barber, Arizona Health Sciences Center, The University of Arizona (United States)

Hans Roehrig, Arizona Health Sciences Center, The University of Arizona (United States)

Conference Program Committee

Yonggang Cui, Brookhaven National Laboratory (United States)

F. Patrick Doty, Sandia National Laboratories (United States)

Geoffrey Harding, Morpho Detection (Germany)

Ralph B. James, Brookhaven National Laboratory (United States)

Denny L. Lee, Direct X Ray Digital Imaging Technology LLC (United States)

Rex A. Moats, Children's Hospital Los Angeles (United States) and The University of Southern California (United States)

Vivek V. Nagarkar, Radiation Monitoring Devices, Inc. (United States)

Eiichi Sato, Iwate Medical University (Japan)

Michael R. Squillante, Radiation Monitoring Devices, Inc. (United States)

Session Chairs

- 1 Semiconductor Detectors and Systems

H. Bradford Barber, Arizona Health Sciences Center, The University of Arizona (United States)

- 2 Digital Radiography and CT

Lars R. Furenlid, College of Optical Sciences, The University of Arizona (United States)

- 3 SPECT and Other Applications

Hans Roehrig, Arizona Health Sciences Center, The University of Arizona (United States)

- 4 Other Medical Applications

Yonggang Cui, Brookhaven National Laboratory (United States)

In Memoriam

Douglas Jay Wagenaar, who was previously a co-chairman of this conference, Medical Applications of Radiation Detectors, died suddenly on October 11, 2011. Doug earned his Ph.D. in Nuclear Physics at Duke University, did a postdoc in Imaging at UNC and was an assistant professor at both UNC and Harvard University. Later, he was a Senior Research Scientist at Siemens Medical Solutions and the Director of the Department of Research at Gamma Medica-Ideas, Inc. Over the years, Doug made many major contributions to medical imaging and biomedical research, including pioneering the use of CZT in clinical and preclinical imaging, developing a novel approach to small-animal SPECT/MRI and making advances in mammoscintigraphy. Doug believed that, while scientific research needed to be objective, that did not mean that scientists needed to be dispassionate. Doug was a passionate advocate of many things, including CZT in medical imaging and SPECT vs. PET. Occasionally in an oral presentation, Doug would go out of his way to say something controversial. It was a testimony to his good nature, that this was always taken by his colleagues for what was meant, an invitation to debate the important issues in our field. A presentation by Doug Wagenaar was never dull. Doug's contributions and his voice will be missed by all of us who knew him.
