Volume 8549

Proceedings of SPIE 0277-786X, V.8549

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

16th International Workshop on Physics of Semiconductor Devices, edited by Y. N. Mohapatra, B. Mazhari, M. Katiyar, Proc. of SPIE Vol. 8549, 854901 · © 2012 SPIE · CCC code: 0277-786/12/\$18 · doi: 10.1117/12.926917

Proc. of SPIE Vol. 8549 854901-1

The papers included in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. The papers published in these proceedings reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Other copying for republication, resale, advertising or promotion, or any form of systematic or multiple reproduction of any material in this book is prohibited except with permission in writing from the publisher. The CCC fee code is 0277-786X/12/\$18.00.

Printed in the United States of America.

Publication of record for individual papers is online in the SPIE Digital Library.

SPIDigitalLibrary.org

Paper Numbering: Proceedings of SPIE follow an e-First publication model, with papers published first online and then in print and on CD-ROM. Papers are published as they are submitted and meet publication criteria. A unique, consistent, permanent citation identifier (CID) number is assigned to each article at the time of the first publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online, print, and electronic versions of the publication. SPIE uses a six-digit CID article numbering system in which:

- The first four digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc.

The CID Number appears on each page of the manuscript. The complete citation is used on the first page, and an abbreviated version on subsequent pages. Numbers in the index correspond to the last two digits of the six-digit CID Number.

Contents

xv	Conference Committee
xvii	Introduction

SESSION 1 DEVICE MODELLING AND SIMULATION

8549 02	Modeling the gain and bandwidth of submicron active layer n⁺-i-p⁺ avalanche photodiode [8549-48] K. Majumder, N. R. Das, Univ. of Calcutta (India)
8549 03	A comprehensive charge control based analysis of the effect of donor-layer doping and donor-layer thickness on the P, R and C noise coefficients of a symmetric tied-gate InAlAs/InGaAs DG-HEMT [8549-64] M. Bhattacharya, J. Jogi, Univ. of Delhi (India); R. Gupta, Maharaja Agrasen Institute of Technology (India); M. Gupta, Univ. of Delhi (India)
8549 04	Semi-analytical estimation of intra-die variations of analog performances of nano-scale nMOS transistor [8549-69] S. Sengupta, S. Pandit, Univ. of Calcutta (India)
8549 05	Digital circuit analysis of insulated shallow extension silicon on void (ISESOV) FET for low voltage applications [8549-77] V. Kumari, M. Saxena, Univ. of Delhi (India); R. Gupta, Maharaja Agrasen Institute (India); M. Gupta, Univ. of Delhi (India)
8549 06	An analytical modeling approach for a gate all around (GAA) tunnel field effect transistor (TFET) [8549-78] R. Narang, M. Saxena, Univ. of Delhi (India); R. S. Gupta, Maharaja Agrasen Institute of Technology (India); M. Gupta, Univ. of Delhi (India)
8549 07	The impact of process-induced mechanical stress on multi-fingered device performance [8549-90] N. Alam, S. Dasgupta, B. Anand, Indian Institute of Technology Roorkee (India)
8549 08	Impact of Ge profile on the performance of PNP SiGe HBT on thin film SOI [8549-96] P. K. Misra, S. Qureshi, Indian Institute of Technology Kanpur (India)
8549 09	Device oriented statistical modeling method for process variability in 45nm analog CMOS technology [8549-107] Ajayan K. R., N. Bhat, Indian Institute of Science (India)
8549 0A	Controlling of short channel effects in pocket implanted Ge channel pMOSFETs with high-k gate stacks [8549-117] C. Mondal, A. Biswas, Univ. of Calcutta (India)

- 8549 OB **Influence of small variation in impact ionization rate data on simulation of 4H-SiC IMPATT** [8549-136]
S. R. Pattanaik, Apex Institute of Technology and Management (India); J. Pradhan, S. K. Swain, P. Panda, G. N. Dash, Sambalpur Univ. (India)
- 8549 OC **NEGF analysis of double gate SiGe and GaAs tunnel FETs** [8549-154]
R. Mishra, B. Ghosh, Indian Institute of Technology Kanpur (India)
- 8549 OD **Device improvement and circuit performance evaluation of complete SiGe double gate tunnel FETs** [8549-155]
B. Ghosh, R. Mishra, Indian Institute of Technology Kanpur (India)
- 8549 OE **Simulation studies on heterojunction and HIT solar cells** [8549-162]
K. Patel, O. S. Panwar, A. Bisht, Sreekumar C., S. Kumar, C. M. S. Rauthan, CSIR-National Physical Lab. (India)
- 8549 OF **A comparative study of dynamic characteristics of asymmetrical ATT diodes based on various semiconductor materials with increasing band-gap energy** [8549-180]
M. Mukherjee, M. Garai, D. Chakraborty, Univ. of Calcutta (India)
- 8549 OG **Heterojunction versus homojunction transit time devices at elevated junction temperature: performance comparison at MM wave window frequency** [8549-182]
M. Mukherjee, D. Chakraborty, A. Das, Univ. of Calcutta (India)

SESSION 2 HIGH FREQUENCY/POWER DEVICES

- 8549 OH **Optimized shielded-gate trench MOSFET technology for high-frequency, high-efficiency power supplies** [8549-10]
A. Challa, Fairchild Semiconductor (United States); T. Sarkar, Fairchild Semiconductor (India); S. Sapp, Fairchild Semiconductor (United States)
- 8549 OI **A comparative study of high frequency characteristics of SiC-based SDRs** [8549-45]
R. K. Parida, Siksha 'O' Anusandhan Univ. (India); A. K. Panda, National Institute of Science and Technology (India); G. N. Dash, Sambalpur Univ. (India)
- 8549 OJ **A comparison of 100 MeV oxygen ion and Co-60 gamma irradiation effect on 200 GHz SiGe HBTs (HF12)** [8549-52]
K. C. Praveen, N. Pushpa, The Univ. of Mysore (India); A. Tripathi, Inter Univ. Accelerator Ctr. (India); D. Revannasiddaiah, P. S. Naik, The Univ. of Mysore (India); J. D. Cressler, Georgia Institute of Technology (United States); A. P. Gnana Prakash, The Univ. of Mysore (India)
- 8549 OK **The influence of 175 MeV nickel ion irradiation on the electrical characteristics of power transistors (HF13)** [8549-53]
N. Pushpa, K. C. Praveen, A. P. Gnana Prakash, P. S. Naik, The Univ. of Mysore (India); S. K. Gupta, Bhabha Atomic Research Ctr. (India); D. Revannasiddaiah, The Univ. of Mysore (India)
- 8549 OL **Cl₂/Ar based inductively coupled plasma etching of GaN/AlGaIn structure** [8549-75]
D. S. Rawal, H. Arora, V. R. Agarwal, A. Kapoor, S. Vinayak, B. K. Sehgal, R. Muralidharan, Solid State Physics Lab. (India); D. Saha, Indian Institute of Technology Bombay (India); H. K. Malik, Indian Institute of Technology Delhi (India)

- 8549 OM **60 and 100 MeV oxygen ion irradiation effects on electrical characteristics of bipolar transistor** [8549-93]
K. Krishnakumar, Bangalore Univ. (India); C. M. Dinesh, Govt. First Grade College (India); Ramani, Bangalore Univ. (India); S. A. Khan, D. Kanjilal, Inter Univ. Accelerator Ctr. (India)
- 8549 ON **Analysis of Angelov model for 0.25 μ m pHEMTs** [8549-108]
D. Mongia, M. Mishra, A. Kumar, V. R. Balakrishnan, H. Sharma, B. K. Sehgal, Solid State Physics Lab. (India)
- 8549 OO **Design, fabrication and measurement of sub 1 dB noise figure LNA** [8549-112]
S. K. Tomar, M. Mishra, A. Kumar, H. Sharma, B. K. Sehgal, Solid State Physics Lab. (India)
- 8549 OP **Si, SiC homo junctions and n-SiC/p-Si hetero junction: MM-wave performance characteristics** [8549-126]
S. P. Pati, National Institute of Science and Technology (India); P. R. Tripathy, Purushottam Institute of Engineering and Technology (India); S. K. Choudhury, Sundargarh Engineering College (India); M. Mukharjee, Univ. of Calcutta (India); P. Purohit, ITM Univ. (India)
- 8549 OQ **Scattering analysis of 2DEG in AlGaIn/GaN heterostructure grown on Fe doped GaN template** [8549-132]
R. K. Bag, R. Tyagi, P. Mohan, K. Narang, S. Verma, R. Muralidharan, Solid State Physics Lab. (India)
- 8549 OR **0.4 μ m high voltage CMOS smart power technology: 120V LD NMOS for integrated system on chip applications** [8549-137]
N. Patel, Cypress Semiconductor Technology India Pvt Ltd. (India)
- 8549 OS **Theoretical study of drain current of AlInN/GaN HEMTs on SiC substrate** [8549-144]
M. Hossain, Univ. of Dhaka (Bangladesh); K. N. Islam, C. Q. Howlader, Khulna Univ. of Engineering and Technology (Bangladesh); Z. H. Mahmood, Univ. of Dhaka (Bangladesh)
- 8549 OT **New generation MOSFET design for battery powered portable applications** [8549-157]
S. Deb Roy, R. Sodhi, Fairchild Semiconductor (India); S. Sapp, Fairchild Semiconductor (United States)
- 8549 OU **An improved SOI MESFET with triple-recessed drift region for electrical performance improvement** [8549-166]
A. A. Orouji, M. Ghasemian, A. Aminbeidokhti, S. Rahmaninezhad, Semnan Univ. (Iran, Islamic Republic of)
- 8549 OV **Large-signal modeling of hexagonal (4H-) SiC based double drift transit time device as high-power MM-wave source at W-band window frequency** [8549-181]
M. Mukherjee, D. Chakraborty, Univ. of Calcutta (India)
- 8549 OW **RF power amplifier: pushing the boundaries of performance versus cost** [8549-203]
M. M. De Souza, N. Chevaux, M. Rasheduzzaman, The Univ. of Sheffield (United Kingdom)

SESSION 3 MEMS AND SENSORS

- 8549 0X **Electrical characterization of γ -Al₂O₃ thin film parallel plate capacitive sensor for trace moisture detection** [8549-101]
L. Kumar, S. Kumar, S. A. Khan, T. Islam, Jamia Millia Islamia (Central Univ.) (India)
- 8549 0Y **Structural and gas sensing properties of sprayed antimony doped tin oxide thin films** [8549-113]
P. S. Joshi, Walchand institute of Technology (India); D. S. Sutrave, S. M. Jogade, D.B.F. Dayanand College of Arts and Science (India); B. N. Jamadar, Willingdon College of Arts and Science (India)
- 8549 0Z **Metal organic chemical vapor deposition and investigation of structural, optical and gas sensing characteristics of ZnO thin film grown on quartz** [8549-141]
S. Pati, P. Banerji, S. B. Majumder, Indian Institute of Technology Kharagpur (India)
- 8549 10 **Stability study on ceramic mercuric iodide (red) x-ray sensor** [8549-15]
K. Singh, M. Saxena, Univ. of Delhi (India)
- 8549 11 **Design of vertical packaging technology for RF MEMS switch** [8549-16]
D. Bansal, A. Sharma, M. Kaur, K. J. Rangra, Central Electronics Engineering Research Institute (India)
- 8549 12 **Proton beam writing for minimum step lithography in multilayer patterning** [8549-168]
M. Sarkar, N. Shukla, N. Banerji, Y. N. Mohapatra, Indian Institute of Technology Kanpur (India)
- 8549 13 **Optical interrogation of a pressure sensor fabricated using MEMS technology** [8549-171]
B. Dhingra, K. Thyagarajan, S. Chandra, R. Tiwari, Indian Institute of Technology Delhi (India)
- 8549 14 **Modeling and simulation of capacitive sensor for E.Coli bacteria in water** [8549-195]
A. K. Dwivedi, R. B. Deshmukh, R. M. Patrikar, Visvesvaraya National Institute of Technology (India)
- 8549 15 **Low temperature tin oxide (SnO₂) nanowire gas sensor** [8549-26]
A. Johari, Ctr. for Applied Research in Electronics (India); M. C. Bhatnagar, Indian Institute of Technology Delhi (India); V. Rana, Ctr. for Applied Research in Electronics (India)
- 8549 16 **A resistive type humidity sensor based on ZnO-SnO₂ nanocomposite** [8549-29]
K. Tiwari, N. K. Pandey, Univ. of Lucknow (India); A. Kumar, Geological Survey of India (India)
- 8549 17 **Design aspects of electrostatically driven MEMS adaptive mirror** [8549-46]
S. Kumar, A. Gupta, Solid State Physics Lab. (India)
- 8549 18 **Tunable MEMS diffraction gratings** [8549-47]
V. Gowri Suresh, N. DasGupta, S. Bhattacharya, Indian Institute of Technology Madras (India)
- 8549 19 **Integration of MEMS with nanostructured metal-oxide materials for improved sensors for volatile organic compounds** [8549-50]
S. Chandra, H. Pandya, A. Vyas, Indian Institute of Technology Delhi (India)

- 8549 1A **Low cost, disposable colorimetric sensor for quantitative detection of ammonia gas** [8549-51]
R. Srivastava, A. Verma, V. K. Jain, Amity Univ. (India)
- 8549 1B **MEMS deformable mirrors: technology and applications** [8549-57]
A. Gupta, R. Singh, M. Chaudhary, S. Kumar, A. K. Meena, Solid State Physics Lab. (India)
- 8549 1C **Design and simulation of Pt-based microhotplate, and fabrication of suspended dielectric membrane by bulk micromachining** [8549-63]
M. Prasad, CSIR-Central Electronics Engineering Research Institute (India); R. P. Yadav, Rajasthan Technical Univ. (India); V. Sahula, Malaviya National Institute of Technology (India); V. K. Khanna, CSIR-Central Electronics Engineering Research Institute (India)
- 8549 1D **Design and mathematical model of a ZnO-based MEMS acoustic sensor** [8549-73]
M. Prasad, CSIR-Central Electronics Engineering Research Institute (India); R. P. Yadav, Rajasthan Technical Univ. (India); V. Sahula, Malaviya National Institute of Technology (India); V. K. Khanna, CSIR-Central Electronics Engineering Research Institute (India)
- 8549 1E **Optical and I-V studies on Au-ZnO-ITO based UV-sensing devices** [8549-74]
P. Reddy J, S. Kashyap, S. Mishra, A. K. Paul, P. Kapur, CSIR-Central Scientific Instruments Organization (India)
- 8549 1F **Design and simulation of RF MEMS SPST shunt and SPDT shunt-shunt switches for X-band and Ku-band applications** [8549-84]
M. K. Lenka, A. Sharma, J. Sharma, A. DasGupta, Indian Institute of Technology Madras (India)
- 8549 1G **Design of piezoresistive MEMS absolute pressure sensor** [8549-9]
S. S. Kumar, B. D. Pant, CSIR-Central Electronics Engineering Research Institute (India)
- 8549 1H **FEM simulation of CMUT cell for NDT application** [8549-92]
.. Aditi, R. Mukhiya, R. Gopal, V. K. Khanna, CSIR-Central Electronics Engineering Research Institute (India)

SESSION 4 NANOTECHNOLOGY AND EMERGING AREAS

- 8549 1I **Development and standardization of porous silicon for application as a working electrode in electrochemical immunosensor** [8549-7]
V. Kumari, Jamia Hamdard (India); P. Mishra, S. S. Islam, Jamia Millia Islamia (Central Univ.) (India)
- 8549 1J **On the calculation of energy eigenstates of electrons in a spherical quantum dot** [8549-12]
P. Purohit, D. K. Roy, ITM Univ. (India); S. P. Pati, Sambalpur Univ. (India)
- 8549 1K **Design and fabrication of carbon nano-structured flexible antenna** [8549-18]
V. K. Lamba, A. Kumar, M. Verma, S. Dhariwal, Haryana College of Technology & Management (India); K. Sharma, S. Anand, D. Engles, Guru Nanak Dev Univ. (India)
- 8549 1L **Characterization of traps in SiGe:C channel heterojunction PMOSFETs** [8549-23]
C. Mukherjee, C. K. Maiti, Indian Institute of Technology Kharagpur (India)

- 8549 1M **Hydrogenated amorphous carbon films having embedded nanoparticles deposited by cathodic jet carbon arc technique** [8549-25]
O. S. Panwar, CSIR-National Physical Lab. (India); Ishpal, Univ. of Delhi (India); R. K. Tripathi, A. K. Srivastava, S. Kumar, CSIR-National Physical Lab. (India)
- 8549 1N **An analytical potential model for threshold voltage of DGMOSFET with consideration of mobile charges** [8549-32]
K. Sivasankaran, K. Pilli, P. S. Mallick, VIT Univ. (India)
- 8549 1O **Fabrication of graphene based field effect transistor with copper electrodes** [8549-38]
P. K. Srivastava, S. Ghosh, Jawaharlal Nehru Univ. (India)
- 8549 1P **Ozone/UV-light oxidation of multiwall carbon nanotubes (MWCNTs)** [8549-40]
S. Hussain, S. S. Islam, Harsh, Jamia Millia Islamia (Central Univ.) (India)
- 8549 1Q **Study of energy eigenvalues and density of states of carriers in a triangular quantum wire** [8549-42]
A. Deyasi, RCC Institute of Information Technology (India); S. Bhattacharyya, Asansol Engineering College (India); N. R. Das, Univ. of Calcutta (India)
- 8549 1R **Positioning of CNTs over the gold substrate via self-assembled monolayer functionalization using dip-pen nanowriting** [8549-44]
P. B. Agarwal, CSIR-Central Electronics Engineering Research Institute (India); S. Sahu, P. Kapse, Univ. of Technological Departments, Rajiv Gandhi Proudhyogiki Vishwavidyalaya (India); S. K. Gupta, Central Electronics Engineering Research Institute (India)
- 8549 1S **AC conductivity and dielectric studies on nickel ferrite nano-particles synthesized by sol gel technique (NT28)** [8549-62]
S. Omprakash, Gulbarga Univ. (India); A. P. Gnana Prakash, The Univ. of Mysore (India); P. S. Naik, Gulbarga Univ. (India)
- 8549 1T **Diffusion thermopower in graphene nanoribbons: effect of subbands** [8549-66]
A. S. Nissimagoudar, N. S. Sankeshwar, Karnatak Univ. (India)
- 8549 1U **Diffusion thermopower in suspended graphene** [8549-71]
R. G. Vaidya, Karnatak Univ., Dharwad (India) and Tumkur Univ. (India); N. S. Sankeshwar, B. G. Mulimani, Karnatak Univ., Dharwad (India)
- 8549 1V **Effects of size nonuniformity on the optical transitions in a set of realistic $\text{In}_x\text{Ga}_{1-x}\text{N}/\text{GaN}$ quantum dots, having a Gaussian distribution** [8549-88]
S. Kabi, S. Panda, D. Biswas, Univ. of Calcutta (India)
- 8549 1W **Physical and optical properties of CuBO_2 nanopowders synthesized via sol-gel route** [8549-100]
S. Santra, N. S. Das, K. K. Chattopadhyay, Jadavpur Univ. (India)
- 8549 1X **Optimization of cross-sectional aspect ratio of ballistic Si nanobar MOSFETs for superior current-voltage characteristics** [8549-104]
B. Nag Chowdhury, P. Singh, S. Chattopadhyay, Univ. of Calcutta (India)

- 8549 1Y **Surface charging of silicon dioxide and aluminum dioxide structures** [8549-105]
A. Rath, Malaviya National Institute of Technology (India); B. Martin, Saarland Univ. (Germany)
- 8549 1Z **Room temperature ferromagnetism in Cu doped ZnO for spintronics** [8549-106]
Z. A. Khan, S. Ghosh, Jawaharlal Nehru Univ. (India)
- 8549 20 **Device characteristics and parameters of high performance long-channel Ge pMOSFETs with different channel-orientations** [8549-116]
S. Dutta Gupta, SERIS (Singapore), IMEC (Belgium), and KULeuven (Belgium); A. Biswas, Univ. of Calcutta (India) and IMEC (Belgium); J. Mitard, IMEC (Belgium) and KULeuven (Belgium); G. Eneman, IMEC (Belgium), KULeuven (Belgium), and FWO-Vlaanderen (Belgium); B. De Jaeger, M. Meuris, IMEC (Belgium); M. M. Heyns, IMEC (Belgium) and KULeuven (Belgium)
- 8549 21 **Visible blind photodetector based on room temperature grown ZNO nanospikes array** [8549-127]
S. Maiti, U. N. Maiti, K. K. Chattopadhyay, Jadavpur Univ. (India)
- 8549 22 **Electrical and reliability characteristics of oxide grown by high pressure oxidation of SiC in nitric acid vapor with different gas ambients** [8549-128]
K. Kalai Selvi, T. Sreenidhi, N. DasGupta, Indian Institute of Technology Madras (India)
- 8549 23 **Complex bandstructure of direct bandgap III-V semiconductors: application to tunneling** [8549-130]
A. Ajoy, Indian Institute of Technology Madras (India)
- 8549 24 **Noise characterization of ALD HfO₂ MOS capacitors with different metal (Au, Pd and Pt) gates** [8549-134]
S. Mallik, C. Mukherjee, C. Mahata, Indian Institute of Technology Kharagpur (India); G. K. Dalapati, D. Z. Chi, Institute of Materials Research and Engineering, A*STAR (Singapore); C. K. Maiti, Indian Institute of Technology Kharagpur (India)
- 8549 25 **Effects of constant voltage stressing on HfTaO_x/SiGe gate stack** [8549-138]
S. Mallik, C. Mahata, M. K. Hota, Indian Institute of Technology Kharagpur (India); C. K. Sarkar, Jadavpur Univ. (India); C. K. Maiti, Indian Institute of Technology Kharagpur (India)
- 8549 26 **Fabrication of two dimensional carbon nanostructures using hot wire chemical vapor deposition technique** [8549-145]
M. Singh, H. S. Jha, A. Yadav, Lalhratzuala, Indian Institute of Technology Guwahati (India); D. Deva, Indian Institute of Technology Kanpur (India); P. Agarwal, Indian Institute of Technology Guwahati (India)
- 8549 27 **Facile synthesis of large scale mesoporous TiO₂ microspheres by template-free hydrothermal process: their photocatalysis degradation** [8549-148]
D. Sarkar, K. K. Chattopadhyay, Jadavpur Univ. (India)
- 8549 28 **Enhanced optical absorption in silicon nanowire** [8549-151]
M. Hasan, Md. F. Huq, Z. H. Mahmood, S. Hussain, Univ. of Dhaka (Bangladesh)

- 8549 29 **Characterization of dislocation-based nanotransistors** [8549-167]
M. Reiche, Max Planck Institute of Microstructure Physics (Germany); M. Kittler, IHP microelectronics (Germany)
- 8549 2A **The role of separate confinement heterostructure layer in designing semiconductor nanostructured optoelectronic devices** [8549-169]
G. Sh. Shmavonyan, H. G. Asatryan, State Engineering Univ. of Armenia (Armenia)
- 8549 2B **The impact of a high- κ gate dielectric on a p-channel tunnel field-effect transistor** [8549-172]
A. Chattopadhyay, A. Mallik, Univ. of Calcutta (India)
- 8549 2C **An InGaSb TFET with high I_{ON}/I_{OFF} ratio and low circuit leakage power** [8549-175]
B. K. Mamilla, S. Nair, B. Ghosh, Indian Institute of Technology Kanpur (India)
- 8549 2D **Quantum confinement effect on photoluminescence of nanocrystalline ZnO thin films** [8549-176]
M. Arora, S. Singh, S. Singh, CSIR-National Physical Lab. (India)
- 8549 2E **Silicon nanowire arrays using g-line photolithography** [8549-183]
R. Prajesh, CSIR-Central Electronics Engineering Research Institute (India); H. Tholia, CSIR-Central Electronics Engineering Research Institute (India) and Univ. of Rajasthan (India); A. Agarwal, CSIR-Central Electronics Engineering Research Institute (India)
- 8549 2F **Formation and optical properties of amorphous carbon film having embedded nanoparticles deposited by anodic jet carbon arc technique** [8549-184]
R. K. Tripathi, O. S. Panwar, CSIR-National Physical Lab. (India); A. Kesarwani, CSIR-National Physical Lab. (United Kingdom); S. Kumar, A. Basu, CSIR-National Physical Lab. (India)
- 8549 2G **Wurtzite InN nanodots on Si(100) by molecular beam epitaxy** [8549-185]
T. N. Bhat, M. K. Rajpalke, Indian Institute of Science, Bangalore (India); M. Kumar, B. Roul, Indian Institute of Science, Bangalore (India) and Bharat Electronics (India); S. B. Krupanidhi, Indian Institute of Science, Bangalore (India)
- 8549 2H **Fabrication and characterization of high mobility spin-coated zinc oxide thin film transistors** [8549-186]
S. Singh, Banaras Hindu Univ. (India); P. Chakrabarti, Banaras Hindu Univ. (India) and Moti Lal Nehru National Institute of Technology (India)
- 8549 2I **Nanostructured TiO₂ thin films for field emission and sensor applications** [8549-188]
N. C. Raut, Indira Gandhi Ctr. for Atomic Research (India)
- 8549 2J **Fabrication of nano-gap electrodes using a focused ion beam for measuring electrical properties of molecular scale transistors** [8549-201]
G. Purohit, M. Shankar, Deepak, S. Damodaran, M. Katiyar, Indian Institute of Technology Kanpur (India)

SESSION 5 OPTOELECTRONICS

- 8549 2K **The simple theoretical analysis of the mass and molar magnetic susceptibilities in quantum wires of II-VI and IV-VI compound semiconductor** [8549-6]
S. Singha Roy, West Bengal Univ. of Technology (India)
- 8549 2L **Modeling of photodependent capacitance for short gate-length ion-implanted GaAs MESFETs** [8549-24]
S. Tripathi, S. Jit, Banaras Hindu Univ. (India)
- 8549 2M **Optimization of ohmic contact for the fabrication of InGaN/GaN multiple quantum well blue LED** [8549-39]
T. Sreenidhi, J. Chatterjee, A. DasGupta, N. DasGupta, Indian Institute of Technology Madras (India)
- 8549 2N **Role of diffusion and parasitic effects on the frequency response of a Si-CMOS photodetector** [8549-61]
P. Rakshit, N. R. Das, Institute of Radio Physics and Electronics (India)
- 8549 2O **Effect of pulse parameter and dark count probability on the performance of a gated mode SPAD** [8549-68]
N. R. Das, T. Das, S. Guin, Univ. of Calcutta (India)
- 8549 2P **Bloch wave analysis for optical band structure of III-nitrides photonic crystals** [8549-99]
K. Ghosh, R. Ghosh, Institute of Engineering and Management (India); D. Ghosal, S.E.R/M.H.S.S (India)
- 8549 2Q **Studies on the dislocation densities of gallium nitride grown by MOCVD** [8549-109]
R. Loganathan, M. Jayasakthi, P. Arivazhagan, R. Ramesh, K. Prabakaran, M. Balaji, K. Baskar, Anna Univ. Chennai (India)
- 8549 2R **Growth and characterization of $\text{Al}_x\text{Ga}_{1-x}\text{N}$ on $\text{GaN}/\text{Al}_2\text{O}_3$** [8549-120]
M. Jayasakthi, Anna Univ. (India); R. Ramesh, P. Arivazhagan, R. Loganathan, K. Prabakaran, M. Balaji, K. Baskar, Anna Univ. Chennai (India)
- 8549 2S **Photon decay time studies on $\text{Al}_{0.45}\text{Ga}_{1-0.55}\text{N}/\text{Al}_{0.18}\text{Ga}_{1-0.82}\text{N}/\text{Al}_{0.45}\text{Ga}_{1-0.55}\text{N}$ double heterostructures grown on sapphire substrate by MOCVD** [8549-125]
P. Arivazhagan, R. Ramesh, M. Jayasakthi, R. Loganathan, M. Balaji, K. Baskar, Anna Univ. Chennai (India)
- 8549 2T **40GHz integrated multi quantum well intermixed waveguide photodiodes** [8549-129]
T. Bhowmick, U. Das, Indian Institute of Technology Kanpur (India)
- 8549 2U **Tuning the photoluminescence of ZnO thin films by indium doping** [8549-173]
S. Chirakkara, S. B. Krupanidhi, Indian Institute of Science (India)
- 8549 2V **Charge transport study of polymer light emitting diodes by impedance spectroscopy** [8549-178]
M. Bajpai, CSIR-National Physical Lab. (India) and Banaras Hindu Univ. (India); R. Srivastava, M. N. Kamalasanan, CSIR-National Physical Lab. (India); R. S. Tiwari, Banaras Hindu Univ. (India); S. Chand, CSIR-National Physical Lab. (India)

- 8549 2W **Growth and properties of nonpolar a-plane GaN grown on r-sapphire by plasma assisted molecular beam epitaxy** [8549-179]
M. K. Rajpalke, T. N. Bhat, Indian Institute of Science (India); M. Kumar, B. Roul, Indian Institute of Science (India) and Bharat Electronics (India); S. B. Krupanidhi, Indian Institute of Science (India)
- 8549 2X **SiC light emitting quantized structures on silicon by spin-on technique** [8549-187]
D. Jain, C. R. Sandeep, U. Das, Indian Institute of Technology Kanpur (India)
- 8549 2Y **Effect of Si, Sc, Cr doping on the structural, optical and discharge characteristics of MgO thin films as protective layer for plasma display panels** [8549-199]
C. B. Singh, Indian Institute of Technology Kanpur (India) and SSN Research Ctr. (India); U. K. Barik, Samtel Color Ltd. (India); S. Sarkar, V. Singh, Indian Institute of Technology Kanpur (India); S. K. Ram, Indian Institute of Technology Kanpur (India) and Univ. of Aarhus (Denmark); H. K. Dwivedi, Samtel Color Ltd. (India); S. Kumar, Indian Institute of Technology Kanpur, Kanpur (India)

SESSION 6 ORGANIC ELECTRONICS, DISPLAY AND LIGHTING AND GENERAL

- 8549 2Z **Modeling of charge transport through thiophene nanowire** [8549-14]
V. K. Lamba, Haryana College of Technology & Management (India); S. Engles, Banasthali Univ. Rajasthan (India); P. Yadav, KLP College (India); S. Dhanda, Haryana College of Technology & Management (India)
- 854930 **Multi emissive layer type white organic light emitting diode based on zinc metal complexes** [8549-17]
A. Kumar, CSIR-National Physical Lab. (India) and Maharshi Dayanand Univ. (India); R. Srivastava, A. Kumar, M. N. Kamalasanan, CSIR-National Physical Lab. (India); I. Singh, Maharshi Dayanand Univ. (India)
- 8549 31 **Fabrication of organic complementary inverter** [8549-43]
S. Yadav, S. Ghosh, Jawaharlal Nehru Univ. (India)
- 8549 32 **Origin and characterization of traps in organic semiconductor thin films** [8549-58]
A. Sharma, S. Yadav, S. Ghosh, Jawaharlal Nehru Univ. (India)
- 8549 33 **Enhancement in charge transfer by non-ligand exchange process for colloidal hybrid organic(MEH-PPV):inorganic(CdSe) nanocomposites** [8549-153]
A. Mehta, S. N. Sharma, CSIR-National Physical Lab. (India); V. N. Singh, CSIR-National Physical Lab. (India) and Indian Institute of Technology (India); A. K. Srivastva, S. Chand, CSIR-National Physical Lab. (India)
- 8549 34 **Silver-polypyrrole-silver structure fabrication and characterization over wide temperature** [8549-156]
M. Taunk, Indus International Univ. (India); S. Chand, National Institute of Technology (India)

- 8549 35 **Effect of temperature conditions on the emission of ion-induced secondary electrons from MgO films** [8549-200]
C. B. Singh, Indian Institute of Technology Kanpur (India) and SSN Research Ctr. (India); S. Sarkar, Indian Institute of Technology Kanpur, Kanpur (India); V. Singh, Indian Institute of Technology Kanpur (India); S. K. Ram, Univ. of Aarhus (Denmark); S. Kumar, Indian Institute of Technology Kanpur, Kanpur (India)
- 8549 36 **Inkjet printed PEDOT:PSS for organic devices** [8549-202]
A. Singh, S. Mandal, V. Singh, A. Garg, M. Katiyar, Indian Institute of Technology Kanpur (India)
- 8549 37 **Electrical testing of the OLED matrix for analyzing defects in a PMOLED display** [8549-102]
P. Kr. Uttwani, A. Awasthi, A. Solanki, I. V. Kameshwar Rao, Indian Institute of Technology Kanpur (India) and Samtel Color Ltd. (India)
- 8549 38 **White polymer light emitting diode using blend of fluorescent polymers** [8549-198]
A. Prakash, M. Katiyar, Indian Institute of Technology Kanpur (India)

SESSION 7 PHOTOVOLTAICS

- 8549 39 **Effect of capture and escape rates of carriers and well parameters on the performance of multi-quantum well solar cell** [8549-70]
N. R. Das, P. Ghosh, S. Mitra, Univ. of Calcutta (India)
- 8549 3A **Band gap engineering of hydrogenated amorphous carbon thin films for solar cell application** [8549-79]
N. Dwivedi, CSIR-National Physical Lab. (India) and Indian Institute of Technology Delhi (India); S. Kumar, S. Dayal, C. M. S. Rauthan, O. S. Panwar, CSIR-National Physical Lab. (India); H. Malik, Indian Institute of Technology Delhi (India)
- 8549 3B **Grain growth study of electrochemically deposited CuInSe₂ by rapid thermal annealing in sulfur atmosphere** [8549-131]
A. Bhatia, M. A. Karmarkar, Univ. of Utah (United States); H. Meadows, P. J. Dale, Univ. of Luxembourg (Luxembourg); M. A. Scarpulla, Univ. of Utah (United States)
- 8549 3C **Growth of nanocrystalline silicon films by VHF PECVD** [8549-135]
J. Gope, CSIR-National Physical Lab. (India) and Banaras Hindu Univ. (India); S. Kumar, S. Singh, C. M. S. Rauthan, CSIR-National Physical Lab. (India); P. Srivastava, Banaras Hindu Univ. (India)
- 8549 3D **Nanocrystalline cubic silicon carbide thin films for the window layer of solar cells deposited by hot wire CVD** [8549-143]
H. S. Jha, M. Singh, A. Yadav, Lalhriatzuala, Indian Institute of Technology Guwahati (India); D. Deva, Indian Institute of Technology Kanpur (India); P. Agarwal, Indian Institute of Technology Guwahati (India)
- 8549 3E **Hybrid organic (P3HT and MEH-PPV)-inorganic (CuInGaSe₂) nanocomposites: charge transfer and photostability studies** [8549-158]
A. Kharkwal, CSIR-National Physical Lab. (India) and Indian Institute of Technology (India); S. N. Sharma, S. Chand, CSIR-National Physical Lab. A. K. Singh, Indian Institute of Technology Delhi (India)

- 8549 3F **Understanding degradation mechanism of bulk heterojunction organic photovoltaic devices** [8549-177]
S. Rastogi, K. Dharmalingam, M. Katiyar, A. Garg, Indian Institute of Technology Kanpur (India)
- 8549 3G **Structural, electronic and optical properties of oxygen and Mn substituted ZnIn_2Te_4 chalcopyrite semiconductors** [8549-194]
S. Mishra, B. Ganguli, National Institute of Technology, Rourkela (India)
- 8549 3H **Laser-doped selective emitters for photovoltaic applications** [8549-196]
J. Woolridge, E. Reutzel, S. Ashok, The Pennsylvania State Univ. (United States); L. Zou, BP Solar (United States)

SESSION 8 VLSI AND ULSI TECHNOLOGY

- 8549 3I **Optical and electrical characterization of atomic layer deposited (ALD) $\text{HfO}_2/\text{p-GaAs}$ MOS capacitors** [8549-20]
A. Das, S. Chattopadhyay, Univ. of Calcutta (India); G. K. Dalapati, D. Chi, M. K. Kumar, Institute of Materials Research and Engineering, A*STAR (India)
- 8549 3J **Characterization of silicide-silicon interface contact resistivity using 1D dual transmission line model approximation of modified cross bridge Kelvin measurements** [8549-21]
A. Arya, B. Jayaraman, M. Bajaj, A. Dixit, IBM Semiconductor Research and Development Ctr. (India); C. Tran, IBM Semiconductor Research and Development Ctr. (United States)
- 8549 3K **Deposition of porous low-k thin films using Tween 80 porogen for ILD application in ULSI circuits** [8549-152]
Y. S. Mhaisagar, R. Kawishwar, B. N. Joshi, A. M. Mahajan, North Maharashtra Univ. (India)
- 8549 3L **Measurement and analysis of source/drain contact resistance in FinFETs** [8549-160]
A. Dixit, IBM Semiconductor Research and Development Ctr. (India); N. Collaert, M. Jurczak, IMEC Leuven (Belgium)

Introduction

The 16th edition of the biennial series of International Workshop on the Physics of Semiconductor Devices (IWPSD) was organized by IIT Kanpur and the Society for Semiconductor Devices (SSD). For the last three decades, this workshop has become the most prestigious of international events associated with semiconductor devices in India. The series has become an important forum for the community and its international linkages, and for every new generation of participants, as an eagerly awaited event to keep pace with the topicality and frontiers of change within this broad highly interdisciplinary area.

The Organizing Committee with the help of Technical Programme Committees had put together nine different symposia, which are truly topical. The representative character of the Workshop has been improved in all the parameters of interest that we had set for ourselves. In all, about 550 delegates participated in the deliberations, which included eight plenary speakers, 100 invited speakers in four parallel sessions each day, and 367 contributed papers. The participants came from 16 different countries, and about 60 per cent of the invited speakers were from abroad. Semiconductor Devices is one area which prospers on the basis of close interaction of academics with industry, and we were happy to note the enthusiastic participation of industry.

The Programme Committee and the Printing and Publications Committee has worked hard to put together this volume, ably supported by SPIE publications division. As an editorial board, we have kept in view the scientific quality of the papers submitted for inclusion in the volume. We have limited means of correcting or influencing the language and expression in the articles, although we have tried to point out to the authors wherever a major revision in language was needed.

We are especially thankful to Dr. Vandana Singh at IIT Kanpur, for having put in much of the hard work needed for coordination at all stages of the production of this volume, aided by the team responsible for publications.

Compiling a Proceedings of selected papers in the Workshop of this magnitude has been possible only because of toils of a band of dedicated faculty members at IIT Kanpur and referees in many other Institutions across the globe. We had to go through many successive delays in producing this volume, due to several

organizational difficulties on the way. But the final outcome would be worth the effort to the community.

Y. N. Mohapatra
Chair, IWPSD – 2011
