SPIE.

Event: SPIE Defense, Security, and Sensing, 2013, Baltimore, Maryland, United States

PROCEEDINGS OF SPIE

Infrared Imaging Systems: Design, Analysis, Modeling, and Testing XXIV

**Gerald C. Holst
Keith A. Krapels**
Editors

**30 April – 2 May 2013
Baltimore, Maryland, United States**

Sponsored and Published by
SPIE

Volume 8706

Proceedings of SPIE 0277-786X, V. 8706

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

Infrared Imaging Systems: Design, Analysis, Modeling, and Testing XXIV, edited by
Gerald C. Holst, Keith A. Krapels, Proc. of SPIE Vol. 8706, 870601 · © 2013 SPIE
CCC code: 0277-786X/13/\$18 · doi: 10.1117/12.2031917

Proc. of SPIE Vol. 8706 870601-1

The papers included in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. The papers published in these proceedings reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from this book:

Copying of material in this book for internal or personal use, or for the internal or personal use of specific clients, beyond the fair use provisions granted by the U.S. Copyright Law is authorized by SPIE subject to payment of copying fees. The Transactional Reporting Service base fee for this volume is \$18.00 per article (or portion thereof), which should be paid directly to the Copyright Clearance Center (CCC), 222 Rosewood Drive, Danvers, MA 01923. Payment may also be made electronically through CCC Online at copyright.com. Other copying for republication, resale, advertising or promotion, or any form of systematic or multiple reproduction of any material in this book is prohibited except with permission in writing from the publisher. The CCC fee code is 0277-786X/13/\$18.00.

Printed in the United States of America.

Publication of record for individual papers is online in the SPIE Digital Library.

SPIDigitalLibrary.org

Paper Numbering: Proceedings of SPIE follow an e-First publication model, with papers published first online and then in print and on CD-ROM. Papers are published as they are submitted and meet publication criteria. A unique, consistent, permanent citation identifier (CID) number is assigned to each article at the time of the first publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online, print, and electronic versions of the publication. SPIE uses a six-digit CID article numbering system in which:

- The first four digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc.

The CID Number appears on each page of the manuscript. The complete citation is used on the first page, and an abbreviated version on subsequent pages. Numbers in the index correspond to the last two digits of the six-digit CID Number.

Contents

vii Conference Committee

SESSION 1 SYSTEMS

- 8706 02 **Resampling in hyperspectral cameras as an alternative to correcting keystone in hardware, with focus on benefits for the optical design and data quality** [8706-1]
A. Fridman, G. Høye, T. Løke, Norsk Elektro Optikk (Norway)
- 8706 03 **Infrared camera NUC and calibration: comparison of advanced methods** [8706-2]
F. Marcotte, P. Tremblay, V. Farley, Telops Inc. (Canada)
- 8706 04 **An evaluation of image quality metrics aiming to validate long term stability and the performance of NUC methods** [8706-3]
T. Svensson, Swedish Defence Research Agency (Sweden)

SESSION 2 TESTING

- 8706 06 **Compensation for instrument anomalies in imaging infrared measurements** [8706-7]
C. L. Dobbins, U.S. Army Aviation and Missile Research, Development and Engineering Ctr. (United States); J. A. Dawson, J. A. Lightfoot, W. D. Edwards, R. S. Cobb, A. R. Heckwolf, Dynetics, Inc. (United States)
- 8706 07 **Characterization of domestic and foreign image intensifier tubes** [8706-8]
E. J. Bender, M. V. Wood, D. J. Hosek, S. D. Hart, U.S. Army RDECOM CERDEC NVESD (United States)
- 8706 08 **Data analysis tools for imaging infrared technology within the ImageJ environment** [8706-9]
R. K. Rogers, W. D. Edwards, Dynetics, Inc. (United States); C. E. Waddle, C. L. Dobbins, S. B. Wood, U.S. Army AMRDEC (United States)
- 8706 09 **An extended area blackbody for radiometric calibration** [8706-10]
J. LaVeigne, G. Franks, J. Singer, Santa Barbara Infrared, Inc. (United States); D. J. Arenas, Univ. of North Florida (United States); S. McHugh, Santa Barbara Infrared, Inc. (United States)
- 8706 0A **Active SWIR laboratory testing methodology** [8706-11]
C. M. Webb, Northrop Grumman Corp. (United States); S. White, B. Rich, SBIR (United States)
- 8706 0B **Evaluation of dome-input geometry for pyroelectric detectors** [8706-39]
J. Zeng, Utah State Univ. (United States); L. M. Hanssen, G. P. Eppeldauer, National Institute of Standards and Technology (United States)

SESSION 3	MODELING I
8706 0D	An investigation of image-based task performance prediction [8706-14] E. Jacobs, Univ. of Memphis (United States)
8706 0E	Validating the time-dependent search parameter search model [8706-15] M. Friedman, U.S. Army RDECOM CERDEC NVESD (United States)
8706 0F	Performance characterization of night vision equipment based on triangle orientation discrimination (TOD) methodology [8706-16] N. Laurent, C. Lejard, G. Deltel, PHOTONIS France S.A.S. (France); P. Bijl, TNO Behavioural and Societal Sciences (Netherlands)
SESSION 4	MODELING II
8706 0G	Sensor performance and atmospheric effects using NvThermIP/NV-IPM and PcModWin/MODTRAN models: a historical perspective (Invited Paper) [8706-18] D. Payne, J. Schroeder, Ontar Corp. (United States)
8706 0H	Impact of the spectral nature of signatures on targeting with broadband imagers [8706-19] V. A. Hodgkin, U.S. Army RDECOM CERDEC NVESD (United States)
8706 0I	TOD characterization of the Gatekeeper electro-optical security system [8706-20] G. Gosselink, H. Anbeek, Thales Nederland B.V. (Netherlands); P. Bijl, M. A. Hogervorst, TNO Behavioural and Societal Sciences (Netherlands)
8706 0J	Benchmarking image fusion system design parameters [8706-21] C. L. Howell, U.S. Army RDECOM CERDEC NVESD (United States)
8706 0K	Quantitative evaluation of turbulence compensation [8706-22] A. W. M. van Eekeren, K. Schutte, J. Dijk, P. B. W. Schwering, TNO (Netherlands)
SESSION 5	MODELING III
8706 0L	What good is SWIR? Passive day comparison of VIS, NIR, and SWIR [8706-23] R. G. Driggers, Naval Research Lab. (United States); V. Hodgkin, U.S. Army RDECOM CERDEC NVESD (United States); R. Vollmerhausen, Univ. of Delaware (United States)
8706 0M	Sensor model for space-based local area sensing of debris [8706-25] P. D. McCall, Florida International Univ. (United States); M. L. Naudeau, Air Force Research Lab. (United States); T. Farrell, Schafer Corp. (United States); M. E. Sorge, The Aerospace Corp. (United States); M. Adjouadi, Florida International Univ. (United States)
SESSION 6	MODELING IV
8706 0N	Producing a color target acquisition metric [8706-28] A. Asbag, R. Hayun, N. Gadot, R. Shama, S. R. Rotman, Ben-Gurion Univ. of the Negev (Israel)

- 8706 0O **Image enhancement technology research for army applications** [8706-29]
P. B. W. Schwering, R. A. W. Kemp, K. Schutte, TNO (Netherlands)
- 8706 0P **Multi-sensor fusion of electro-optic and infrared signals for high resolution visible images: part I** [8706-42]
X. Huang, Stevens Institute of Technology (United States); R. Netravali, Columbia Univ. (United States); H. Man, V. Lawrence, Stevens Institute of Technology (United States)

SESSION 7 TARGETS/BACKGROUNDS/ATM

- 8706 0Q **Climatic data analysis for input to ShipIR** [8706-30]
D. A. Vaitekunas, W. R. Davis Engineering, Ltd. (Canada); Y. Kim, Korea Institute of Ocean Science & Technology (Korea, Republic of)
- 8706 0R **Range and contrast imaging improvements using circularly polarized light in scattering environments** [8706-31]
J. D. van der Laan, College of Optical Sciences, The Univ. of Arizona (United States); D. A. Scrymgeour, S. A. Kemme, Sandia National Labs. (United States); E. L. Dereniak, College of Optical Sciences, The Univ. of Arizona (United States)
- 8706 0S **Simulation of laser beam reflection at the sea surface modeling and validation** [8706-32]
F. Schwenger, E. Repasi, Fraunhofer-Institute for Optronics, System Technologies and Image Exploitation (Germany)
- 8706 0T **Hyperspectral imaging spectro radiometer improves radiometric accuracy** [8706-34]
F. Prel, L. Moreau, R. Bouchard, ABB (Canada); R. D. Bullis, NAVAIR (United States); C. Roy, C. Vallières, L. Levesque, ABB (Canada)
- 8706 0U **IR signature management for the modern navy** [8706-33]
D. A. Vaitekunas, W. R. Davis Engineering, Ltd. (Canada); Y. Kim, Korea Institute of Ocean Science & Technology (Korea, Republic of)

POSTER SESSION

- 8706 0V **Simultaneous measurement of the thickness profile and refractive index distribution of silicon wafers** [8706-36]
J. Park, Korea Research Institute of Standards and Science (Korea, Republic of); J. Jin, J. W. Kim, C. Kang, Korea Research Institute of Standards and Science (Korea, Republic of) and Univ. of Science and Technology (Korea, Republic of); J.-A. Kim, Korea Research Institute of Standards and Science (Korea, Republic of)

- 8706 OW **Uncertainty evaluation of the geometrical thickness and refractive index of silicon wafers**
[8706-37]
J. Jin, Korea Research Institute of Standards and Science (Korea, Republic of) and Univ. of Science and Technology (Korea, Republic of); J. Park, Korea Research Institute of Standards and Science (Korea, Republic of); J. W. Kim, Korea Research Institute of Standards and Science (Korea, Republic of) and Univ. of Science and Technology (Korea, Republic of); J.-A. Kim, Korea Research Institute of Standards and Science (Korea, Republic of); C.-S. Kang, Korea Research Institute of Standards and Science (Korea, Republic of) and Univ. of Science and Technology (Korea, Republic of)
- 8706 OX **Characterization of non-uniformity and bias-heating for uncooled bolometer FPA detectors using simulator** [8706-38]
J. Lee, C.-M. Kyung, KAIST (Korea, Republic of)

Author Index

Conference Committee

Symposium Chair

Kenneth R. Israel, Major General (USAF Retired) (United States)

Symposium Cochair

David A. Whelan, Boeing Defense, Space, and Security (United States)

Conference Chairs

Gerald C. Holst, JCD Publishing (United States)

Keith A. Krapels, U.S. Army Night Vision & Electronic Sensors Directorate
(United States)

Conference Program Committee

Gisele Bennett, Georgia Institute of Technology (United States)

Piet Bijl, TNO Defence, Security and Safety (Netherlands)

James A. Dawson, Dynetics, Inc. (United States)

Ronald G. Driggers, U.S. Naval Research Laboratory (United States)

Richard L. Espinola, U.S. Army Night Vision & Electronic Sensors
Directorate (United States)

David P. Forrai, L-3 Communications Cincinnati Electronics
(United States)

Terrence S. Lomheim, The Aerospace Corporation (United States)

Alan Irwin, Santa Barbara Infrared, Inc. (United States)

Teresa L. Pace, Lockheed Martin Corporation (United States)

Hector M. Reyes, Raytheon Company (United States)

Endre Repasi, Fraunhofer-Institut für Optronik, Systemtechnik und
Bildauswertung (Germany)

Joseph P. Reynolds, U.S. Army Night Vision & Electronic Sensors
Directorate (United States)

Bernard M. Rosier, ONERA (France)

Michael A. Soel, FLIR Systems, Inc. (United States)

Curtis M. Webb, Northrop Grumman Electronic Systems
(United States)

Session Chairs

1 Systems

Hector M. Reyes, Raytheon Company (United States)

Gisele Bennett, Georgia Institute of Technology (United States)

- 2 Testing
Curtis M. Webb, Northrop Grumman Electronic Systems
(United States)
Alan Irwin, Santa Barbara Infrared, Inc. (United States)
- 3 Modeling I
Gisele Bennett, Georgia Institute of Technology (United States)
- 4 Modeling II
James A. Dawson, Dynetics, Inc. (United States)
- 5 Modeling III
Ronald G. Driggers, U.S. Naval Research Laboratory (United States)
Terrence S. Lomheim, The Aerospace Corporation (United States)
- 6 Modeling IV
Hector M. Reyes, Raytheon Company (United States)
James A. Dawson, Dynetics, Inc. (United States)
- 7 Targets/Backgrounds/ATM
Endre Repasi, Fraunhofer-Institut für Optronik, Systemtechnik und
Bildauswertung (Germany)
