Publication of record for individual papers is online in the SPIE Digital Library.

SPIDigitalLibrary.org

Paper Numbering: Proceedings of SPIE follow an e-First publication model, with papers published first online and then in print and on CD-ROM. Papers are published as they are submitted and meet publication criteria. A unique, consistent, permanent citation identifier (CID) number is assigned to each article at the time of the first publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online, print, and electronic versions of the publication. SPIE uses a six-digit CID article numbering system in which:

- The first four digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc.

The CID Number appears on each page of the manuscript. The complete citation is used on the first page, and an abbreviated version on subsequent pages. Numbers in the index correspond to the last two digits of the six-digit CID Number.

Contents

v	Conference Committee
vii	Introduction

SESSION 1 OPTICAL TECHNOLOGIES AND TELECOMMUNICATION SYSTEMS

- 8787 02 **Experimental investigation of differential mode delay in multimode fiber links** [8787-7]
V. A. Burdin, A. V. Bourdine, D. E. Praporshchikov, K. A. Yablochkin, Povolzhskiy State Univ. of Telecommunications and Informatics (Russian Federation)
- 8787 03 **Application of dispersion managed soliton regime in radio-over-fiber systems** [8787-11]
V. A. Burdin, M. V. Dashkov, K. A. Volkov, K. A. Volkova, Povolzhskiy State Univ. of Telecommunications and Informatics (Russian Federation)
- 8787 04 **WDM signal impairments due to the cross-modulation in the case of nonlinear transmission in the presence of PMD** [8787-17]
A. K. Sultanov, V. K. Bagmanov, R. Kutluyarov, A. Zaynullin, Ufa State Aviation Technical Univ. (Russian Federation)

SESSION 2 PASSIVE AND ACTIVE COMPONENTS OF OPTICAL TELECOMMUNICATION

- 8787 05 **Integrated photonic antenna array** [8787-19]
N. Neumann, R. Trieb, D. Plettemeier, Technische Univ. Dresden (Germany)
- 8787 06 **Mode coupling at the splice of diverse optical fibers** [8787-5]
A. V. Bourdine, Povolzhskiy State Univ. of Telecommunications and Informatics (Russian Federation)
- 8787 07 **Simulation of the fiber optic connector alignment system for cable links subjected to vibrations** [8787-6]
V. A. Andreev, A. V. Bourdine, A. E. Zhukov, D. E. Praporshchikov, Povolzhskiy State Univ. of Telecommunications and Informatics (Russian Federation)

SESSION 3 ONE- AND MULTIDIMENSION OPTICAL SIGNALS DATA PROCESSING

- 8787 08 **Instantaneous frequency measurement using double-frequency probing** [8787-1]
O. G. Morozov, A. A. Talipov, M. R. Nurgazizov, T. S. Sadeev, A. G. Fedorov, Kazan State Technical Univ. (Russian Federation)
- 8787 09 **Characterization of stimulated Mandelstam-Brillouin scattering spectrum using a double-frequency probing radiation** [8787-2]
O. G. Morozov, A. A. Talipov, G. A. Morozov, V. G. Kupriyanov, Kazan State Technical Univ. (Russian Federation)

8787 0A **Complex systems analysis and stabilization on the base of generalized multimodal models and non-harmonic spectra** [8787-4]
V. V. Afanasiev, M. P. Danilaev, S. S. Loginov, Y. E. Pol'skii, A. A. Tsentshevsky, Kazan State Technical Univ. (Russian Federation)

8787 0B **Transmission holographic grating with improved diffraction efficiency for a flat-field spectrograph** [8787-18]
E. R. Muslimov, Kazan State Technical Univ. (Russian Federation)

SESSION 4 OPTICAL NETWORKS MAINTENANCE, CONTROL, AND RESTORATION

8787 0C **Results of research of the combined railway cable containing optical fibers and copper conductors on stability to mechanical loadings** [8787-8]
V. B. Popov, B. V. Popov, Povolzhskiy State Univ. of Telecommunications and Informatics (Russian Federation); V. N. Rodionov, Samara Cable Co. (Russian Federation); T. G. Nikulina, Povolzhskiy State Univ. of Telecommunications and Informatics (Russian Federation)

8787 0D **Novel transmission-parameters instrumental analysis technique for birefringent optical fibers** [8787-15]
M. R. Nasyrova, A. A. Kashbiev, G. V. Krinitcyn, A. I. Salikhov, I. L. Vinogradova, Ufa State Aviation Technical Univ. (Russian Federation)

8787 0E **Fluctuation-noise diagnostics of optical system power supply units based on fuel cell** [8787-23]
Yu. K. Evdokimov, E. S. Denisov, Kazan State Technical Univ. (Russian Federation)

8787 0F **Implementation of predictive control strategy for maintenance of fiber optic communication lines** [8787-24]
V. A. Andreev, A. A. Voronkov, Povolzhskiy State Univ. of Telecommunications and Informatics (Russian Federation); L. N. Shafigullin, JSC Tattelecom (Russian Federation)

8787 0G **Detection and localization of defects in optical fibers based on monitoring of the polarized backscattered signal (Invited Paper)** [8787-10]
V. A. Burdin, M. V. Dashkov, E. V. Dmitriev, Povolzhskiy State Univ. of Telecommunications and Informatics (Russian Federation)

SESSION 5 PROBLEMS OF TRAINING ON OPTICAL TELECOMMUNICATION SCIENCE TOPICS

8787 0H **Experience of an inter-institutional cooperation in enhancement of optics and photonics teaching** [8787-13]
O. G. Morozov, N. K. Pavlycheva, A. V. Lukin, E. R. Muslimov, S. A. Mikhailov, A. F. Nadeev, Kazan State Technical Univ. (Russian Federation)

Introduction

This volume contains a selection of reports presented at the 12th International Conference on Optical Technologies for Telecommunications. The conference was held in Ufa State Aviation Technical University, Ufa, Russia, on 17–18 November 2012.

The conference covered a large range of problems in optical technologies in telecommunications. We have no doubt that the proceedings from this conference will be helpful for both scientists and specialists working in the fields of telecommunication technologies.
