Event: SPIE Solar Energy + Technology, 2013, San Diego, California, United States

PROCEEDINGS OF SPIE

Laser Material Processing for Solar Energy Devices II

Edward W. Reutzel
Editor

28–29 August 2013
San Diego, California, United States

Sponsored and Published by
SPIE

Volume 8826

Proceedings of SPIE 0277-786X, V. 8826

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

Laser Material Processing for Solar Energy Devices II, edited by Edward W. Reutzel,
Proc. of SPIE Vol. 8826, 882601 · © 2013 SPIE · CCC code: 0277-786X/13/\$18 · doi: 10.1117/12.2045830

Proc. of SPIE Vol. 8826 882601-1

The papers included in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. The papers published in these proceedings reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from this book:

Author(s), "Title of Paper," in *Laser Material Processing for Solar Energy Devices II*, edited by Edward W. Reutzel, Proceedings of SPIE Vol. 8826 (SPIE, Bellingham, WA, 2013) Article CID Number.

Copying of material in this book for internal or personal use, or for the internal or personal use of specific clients, beyond the fair use provisions granted by the U.S. Copyright Law is authorized by SPIE subject to payment of copying fees. The Transactional Reporting Service base fee for this volume is \$18.00 per article (or portion thereof), which should be paid directly to the Copyright Clearance Center (CCC), 222 Rosewood Drive, Danvers, MA 01923. Payment may also be made electronically through CCC Online at copyright.com. Other copying for republication, resale, advertising or promotion, or any form of systematic or multiple reproduction of any material in this book is prohibited except with permission in writing from the publisher. The CCC fee code is 0277-786X/13/\$18.00.

Printed in the United States of America.

Publication of record for individual papers is online in the SPIE Digital Library.

SPIDigitalLibrary.org

Paper Numbering: Proceedings of SPIE follow an e-First publication model, with papers published first online and then in print and on CD-ROM. Papers are published as they are submitted and meet publication criteria. A unique, consistent, permanent citation identifier (CID) number is assigned to each article at the time of the first publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online, print, and electronic versions of the publication. SPIE uses a six-digit CID article numbering system in which:

- The first four digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc.

The CID Number appears on each page of the manuscript. The complete citation is used on the first page, and an abbreviated version on subsequent pages. Numbers in the index correspond to the last two digits of the six-digit CID Number.

Contents

v Conference Committee

SESSION 1 DOPING AND CONTACTING

- 8826 03 **New laser-based approaches to improve the passivation and rear contact quality in high efficiency crystalline silicon solar cells (Invited Paper)** [8826-2]
C. Molpeceres, Univ. Politcnica de Madrid (Spain); M. Colina, Univ. Politcnica de Catalunya (Spain); D. Muoz-Martn, Univ. Politcnica de Madrid (Spain); I. Martn, P. Ortega, Univ. Politcnica de Catalunya (Spain); I. Snchez, M. Morales, S. Lauzurica, J. J. Garca-Ballesteros, Univ. Politcnica de Madrid (Spain); C. Voz, G. Lpez, A. B. Morales, R. Alcubilla, Univ. Politcnica de Catalunya (Spain)
- 8826 04 **Investigation of metal contacts for silicon solar cells using laser processed 8m thick Al foils** [8826-3]
L. Wang, Univ. of Virginia (United States); D. E. Carlson, Carlson PV (United States); M. C. Gupta, Univ. of Virginia (United States)
- 8826 06 **Role of processing parameters on morphology, resistance and composition of laser fired contacts** [8826-5]
A. Raghavan, T. A. Palmer, A. Domask, S. Mohny, E. W. Reutzel, T. DeRoy, The Pennsylvania State Univ. (United States)
- 8826 07 **Pulsed UV laser annealing of polycrystalline CdTe** [8826-6]
B. J. Simonds, The Univ. of Utah (United States); V. Palekis, M. I. Khan, C. S. Ferekides, Univ. of South Florida (United States); M. A. Scarpulla, The Univ. of Utah (United States)

SESSION 2 SPECIAL TOPICS

- 8826 09 **Comparison of picosecond laser sources for SiN_x ablation with subsequent nickel silicide formation by excimer laser annealing (ELA) for high efficiency silicon solar cells** [8826-9]
S. Gall, J. Vibert, M. Pirot, CEA, LITEN, Institut National de l'Energie Solaire (France); J.-F. Lerat, T. Emeraud, EXCICO Group NV (Belgium); N. Le Quang, EDF ENR PWT, Photowatt (France); A. Slaoui, Institut d'Electronique du Solide et des Systmes (France); A. Bahouka, IREPA Laser (France)
- 8826 0A **Optimal irradiance for sintering of inkjet-printed Ag electrodes with a 532nm CW laser** [8826-10]
Y. J. Moon, H. Kang, K. Kang, J. Y. Hwang, KITECH (Korea, Republic of); S. J. Moon, Hanyang Univ. (Korea, Republic of)

SESSION 3 SURFACE MODIFICATION, SCRIBING, AND STRUCTURING I

- 8826 0C **Study of the laser scribing of molybdenum thin films fabricated using different deposition techniques** [8826-12]
E. Schneller, N. G. Dhere, J. Shimada, Florida Solar Energy Ctr. (United States); A. Kar, CREOL, The College of Optics and Photonics, Univ. of Central Florida (United States)

SESSION 4 SURFACE MODIFICATION, SCRIBING, AND STRUCTURING II

- 8826 0E **Laser crystallization and localized growth of nanomaterials for solar applications (Invited Paper)** [8826-15]
J. B. In, S.-G. Ryu, D. Lee, S. Ahn, A. C. Zheng, Univ. of California, Berkeley (United States); D. J.-S. Hwang, Stony Brook Univ. (United States); C. P. Grigoropoulos, Univ. of California, Berkeley (United States)
- 8826 0F **Beam shaping imaging system for laser microprocessing with scanning optics** [8826-16]
A. Laskin, AdlOptica GmbH (Germany); N. Šiaulys, G. Šlekys, Altechna/WOP (Lithuania); V. Laskin, AdlOptica GmbH (Germany)
- 8826 0G **Laser drilling up to 15,000 holes/sec in silicon wafer for PV solar cells** [8826-17]
R. Patwa, H. Herfurth, Fraunhofer USA Inc. (United States); G. Mueller, K. Bui, SolarWorld Industries America Inc. (United States)
- 8826 0I **Optical and electrical properties of SnO₂ thin films after ultra-short pulsed laser annealing** [8826-19]
D. Scorticati, Univ. Twente (Netherlands); A. Illiberi, TNO (Netherlands); G. R. B. E. Römer, T. Bor, W. Ogieglo, M. Klein Gunnewiek, A. Lenkferink, C. Otto, Univ. Twente (Netherlands); J. Z. P. Skolski, Univ. Twente (Netherlands) and M2i (Netherlands); F. Grob, TNO (Netherlands); D. F. de Lange, Univ. Autónoma de San Luis Potosí (Mexico); A. J. Huis in 't Veld, Univ. Twente (Netherlands) and TNO (Netherlands)

Author Index

Conference Committee

Symposium Chair

Martha Symko-Davies, National Renewable Energy Laboratory (United States)

Conference Chair

Edward W. Reutzel, Applied Research Laboratory, The Pennsylvania State University (United States)

Conference Program Committee

Corey M. Dunsky, Aeos Consulting, Inc. (United States)
Mool Chandra Gupta, University of Virginia (United States)
David J.-S. Hwang, Stony Brook University (United States)
Aravinda Kar, CREOL, The College of Optics and Photonics, University of Central Florida (United States)
Carlos Molpeceres, Universidad Politécnica de Madrid (Spain)
Jan-Frederik Nekarda, Fraunhofer-Institut für Solare Energiesysteme (Germany)
Michael A. Scarpulla, The University of Utah (United States)
Bhushan L. Sopori, National Renewable Energy Laboratory (United States)

Session Chairs

- 1 Doping and Contacting
Mool Chandra Gupta, University of Virginia (United States)
- 2 Special Topics
Edward W. Reutzel, Pennsylvania State University (United States)
- 3 Surface Modification, Scribing, and Structuring I
Aravinda Kar, CREOL, The College of Optics and Photonics, University of Central Florida (United States)
- 4 Surface Modification, Scribing, and Structuring II
David J.-S. Hwang, Stony Brook University (United States)
