Event: SPIE Optical Engineering + Applications, 2013, San Diego, California, United States

PROCEEDINGS OF SPIE

Optomechanical Engineering 2013

Alson E. Hatheway

Editor

26, and 28–29 August 2013

San Diego, California, United States

Sponsored and Published by
SPIE

Volume 8836

Proceedings of SPIE 0277-786X, V. 8836

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

Optomechanical Engineering 2013, edited by Alson E. Hatheway, Proc. of SPIE Vol. 8836,
883601 · © 2013 SPIE · CCC code: 0277-786X/13/\$18 · doi: 10.1117/12.2033980

Proc. of SPIE Vol. 8836 883601-1

The papers included in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. The papers published in these proceedings reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from this book:

Copying of material in this book for internal or personal use, or for the internal or personal use of specific clients, beyond the fair use provisions granted by the U.S. Copyright Law is authorized by SPIE subject to payment of copying fees. The Transactional Reporting Service base fee for this volume is \$18.00 per article (or portion thereof), which should be paid directly to the Copyright Clearance Center (CCC), 222 Rosewood Drive, Danvers, MA 01923. Payment may also be made electronically through CCC Online at copyright.com. Other copying for republication, resale, advertising or promotion, or any form of systematic or multiple reproduction of any material in this book is prohibited except with permission in writing from the publisher. The CCC fee code is 0277-786X/13/\$18.00.

Printed in the United States of America.

Publication of record for individual papers is online in the SPIE Digital Library.

SPIDigitalLibrary.org

Paper Numbering: Proceedings of SPIE follow an e-First publication model, with papers published first online and then in print and on CD-ROM. Papers are published as they are submitted and meet publication criteria. A unique, consistent, permanent citation identifier (CID) number is assigned to each article at the time of the first publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online, print, and electronic versions of the publication. SPIE uses a six-digit CID article numbering system in which:

- The first four digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc.

The CID Number appears on each page of the manuscript. The complete citation is used on the first page, and an abbreviated version on subsequent pages. Numbers in the index correspond to the last two digits of the six-digit CID Number.

Contents

vii *Conference Committee*

SESSION 1 SYSTEMS I

- 8836 02 **The correct lens mount lightweighting design and thermal stress OPD analysis in Cassegrain telescope** [8836-1]
M.-Y. Hsu, C.-Y. Chan, W.-C. Lin, S.-T. Chang, T.-M. Huang, Instrument Technology Research Ctr. (Taiwan)
- 8836 03 **The ASTRI SST-2M prototype: camera design** [8836-2]
V. De Caprio, M. Belluso, G. Bonanno, R. Canestrari, E. Cascone, O. Catalano, G. La Rosa, G. Pareschi, G. Rodeghiero, G. Sottile, Istituto Nazionale di Astrofisica (Italy)
- 8836 04 **Design considerations in a novel fiber-coupled three degree-of-freedom displacement interferometer** [8836-3]
S. R. Gillmer, J. D. Ellis, Univ. of Rochester (United States)
- 8836 05 **Remote vibration sensor using fiber optic fused 2x2 coupler** [8836-4]
D. Dantala, K. Putha, S. Kamineni, V. R. Pachava, National Institute of Technology, Warangal (India)
- 8836 06 **Responder fast steering mirror** [8836-5]
A. Bullard, I. Shawki, Raytheon Space & Airborne Systems (United States)

SESSION 2 MATERIALS

- 8836 07 **Practical aspects of specification of extreme lightweight ZERODUR mirrors for spaceborne missions (Invited Paper)** [8836-6]
T. Hull, The Univ. of New Mexico (United States) and SCHOTT North America, Inc. (United States); T. Westerhoff, A. Lays, SCHOTT AG (Germany); J. Pepi, L-3 Communications IOS-SSG (United States)
- 8836 08 **Advanced composite materials for optomechanical systems** [8836-7]
C. Zweben, Zweben Consulting (United States)
- 8836 09 **Design guidelines for high dimensional stability of CFRP optical bench** [8836-8]
N. Desnoyers, M.-A. Boucher, P. Goyette, INO (Canada)
- 8836 0A **On the strength of glass** [8836-9]
A. E. Hatheway, Alson E. Hatheway Inc. (United States)

SESSION 3 SYSTEMS II

- 8836 0B **Alignment and assembly strategies for AWARE-10 gigapixel-scale cameras** [8836-10]
H. S. Son, D. L. Marks, S. H. Youn, D. J. Brady, J. Kim, Duke Univ. (United States)
- 8836 0D **High sensitive FBG pressure sensor using metal bellows** [8836-12]
P. Vengal Rao, K. Srimannarayana, M. Sai Shankar, P. Kishore, National Institute of Technology, Warangal (India)

SESSION 4 MODELING

- 8836 0E **Opto-mechanical analysis of mirror mounting mechanism** [8836-13]
C.-W. Chen, M.-Y. Yang, P.-H. Huang, C.-E. Ho, C.-R. Chen, National Space Organization (Taiwan)
- 8836 0H **Line-of-sight stabilization by inertial reaction** [8836-18]
A. M. Baker, Consultant, Goodrich ISR Systems (United States)
- 8836 0I **Next generation lightweight mirror modeling software** [8836-15]
W. R. Arnold Sr., Defense Acquisition, Inc. (United States) and Jacobs Engineering Group, Inc. (United States); M. Fitzgerald, R. J. Rosa, H. P. Stahl, NASA Marshall Space Flight Ctr. (United States)
- 8836 0J **Integration of mirror design with suspension system using NASA's new mirror modeling software** [8836-17]
W. R. Arnold Sr., Defense Acquisition, Inc. (United States) and Jacobs Engineering Group, Inc. (United States); R. M. Bevan, H. P. Stahl, NASA Marshall Space Flight Ctr. (United States)

SESSION 5 MOUNTS AND MECHANISMS I

- 8836 0K **Design and analysis of isostatic mounts on a spaceborne lightweight primary mirror** [8836-19]
C. Y. Chan, Instrument Technology Research Ctr. (Taiwan); Y. C. Chen, National Central Univ. (Taiwan); S. T. Chang, T. M. Huang, M. Y. Hsu, Instrument Technology Research Ctr. (Taiwan)
- 8836 0L **Flexure mounted spaceflight laser for high g-load launch environment** [8836-20]
V. Litvinovitch, J. Edelman, Fibertek, Inc. (United States)
- 8836 0M **Optomechanical tolerancing and lens alignment using elastomeric lens mount to efficiently meet optical requirements** [8836-21]
F. Lamontagne, M. Doucet, M. Savard, M. Wang, INO (Canada)
- 8836 0N **Unique mounting for miniature optics at cryogenic temperatures** [8836-22]
Z. N. Leahy, A. J. Magner, Exelis, Inc. (United States)

- 8836 0O **Optomechanical design of a modular K-B mirror mount system for x-ray microfocusing at the advanced photon source** [8836-23]
D. Shu, R. Harder, J. Almer, N. Kujala, Argonne National Lab. (United States); S. Kearney, J. Anton, Argonne National Lab. (United States) and Univ. of Illinois at Chicago (United States); W. Liu, B. Lai, J. Maser, L. Finney, B. Shi, J. Qian, S. Marathe, A. Macrander, J. Tischler, S. Vogt, L. Assoufid, Argonne National Lab. (United States)

SESSION 6 MOUNTS AND MECHANISMS II

- 8836 0P **Athermal mounting of optics in metallic housings** [8836-24]
Z. N. Leahy, A. J. Magner, Exelis, Inc. (United States)
- 8836 0Q **Design of bipod flexure mounts for the IRIS spectrometer** [8836-25]
I. Weingrod, C. Y. Chou, B. Holmes, C. Hom, J. W. Irwin, O. Lindstrom, F. Lopez, D. M. Stubbs, J.-P. Wüelser, Lockheed Martin Space Systems Co. (United States)
- 8836 0R **Development of rotating prism mechanism and athermalized prism mounting for space** [8836-26]
C. R. Beebe, M. J. Brooks, M. W. Davis, R. A. Klar, J. M. Roberts, P. W. A. Roming, R. J. Rose, G. S. Winters, Southwest Research Institute (United States)

SESSION 7 SUBSYSTEMS

- 8836 0S **Test validated alignment and stability performance of the JMAPS program focal plane array assembly in a cryogenic vacuum environment** [8836-27]
B. C. Thompson, P. Sevilla, M. Watson, T. Newswander, D. Miles, J. Peterson, Space Dynamics Lab. (United States)
- 8836 0T **Implementing stray light baffles for improved JWST NIRCcam performance** [8836-29]
P. V. Mammini, T. Birge, P. Dineen, C. L. Hom, M. S. Jacoby, A. Nordt, R. Shivitz, Lockheed Martin Space Systems Co. (United States)
- 8836 0U **Optomechanical analysis and testing of a fast steering secondary mirror prototype for the Giant Magellan Telescope** [8836-30]
A. Corredor, The Univ. of Arizona (United States); W. H. Park, College of Optical Sciences, The Univ. of Arizona (United States); M. Cho, National Optical Astronomy Observatory (United States); Y.-S. Kim, Korea Astronomy and Space Science Institute (Korea, Republic of)
- 8836 0V **Development of the fast steering secondary mirror for the Giant Magellan Telescope** [8836-31]
M. Cho, National Optical Astronomy Observatory (United States); A. Corredor, C. Dribusch, The Univ. of Arizona (United States); W.-H. Park, College of Optical Sciences, The Univ. of Arizona (United States); G. Muller, M. Johns, C. Hull, M. Sheehan, J. Kern, Giant Magellan Telescope Project (United States); Y. S. Kim, Korea Astronomy and Space Science Institute (Korea, Republic of); E. Hansen, National Solar Observatory (United States); S. Kim, Kyungseong Univ. (Korea, Republic of)

- 8836 OW **Flexure design development for a fast steering mirror** [8836-32]
W. H. Park, College of Optical Sciences, The Univ. of Arizona (United States); A. Corredor, The Univ. of Arizona (United States); M. Cho, National Optical Astronomy Observatory (United States); Y.-S. Kim, Korea Astronomy and Space Science Institute (Korea, Republic of); H.-S. Kim, K.-D. Lee, Institute for Advanced Engineering (Korea, Republic of)

POSTER SESSION

- 8836 OX **Optical-field induced volume- and surface-relief formation phenomenon in thin films of vitreous chalcogenide semiconductors** [8836-33]
U. Gertners, Z. Gertnere, E. Potanina, J. Teteris, Univ. of Latvia (Latvia)
- 8836 OY **A conceptual design for a Cassegrain-mounted high-resolution optical spectrograph for large-aperture telescopes** [8836-34]
C. S. Froning, S. Osterman, Univ. of Colorado at Boulder (United States); E. Burgh, SOFIA/USRA (United States); M. Beasley, Planetary Resources, Inc. (United States); P. Scowen, Arizona State Univ. (United States); T. Veach, NASA Goddard Space Flight Ctr. (United States); S. Jordan, D. Ebbets, M. Lieber, J. deCino, Ball Aerospace & Technologies Corp. (United States); B. V. Castilho, C. Gneiding, A. César de Oliveira, Lab. Nacional de Astrofísica (Brazil)

Author Index

Conference Committee

Program Track Chair

H. Philip Stahl, NASA Marshall Space Flight Center (United States)

Conference Chair

Alson E. Hatheway, Alson E. Hatheway Inc. (United States)

Conference Program Committee

Anees Ahmad, Raytheon Missile Systems (United States)

Patrick A. Bournes, MicroMeasure, Inc. (United States)

James H. Burge, College of Optical Sciences, The University of Arizona
(United States)

John M. Casstevens, Dallas Optical Systems, Inc. (United States)

Robert Gifford Chave, RCAP Inc. (United States)

Patrick A. Coronato, Raytheon Missile Systems (United States)

John G. Daly, Vector Engineering (United States)

Keith B. Doyle, MIT Lincoln Laboratory (United States)

Mark J. Hegge, Ball Aerospace & Technologies Corporation
(United States)

Tony Hull, University of New Mexico at Albuquerque (United States)

Frank W. Kan, Simpson Gumpertz & Heger Inc. (United States)

William Jeffrey Lees, Johns Hopkins University Applied Physics Laboratory
(United States)

John J. Polizotti, BAE Systems (United States)

Ann F. Shipley, University of Colorado at Boulder (United States)

Deming Shu, Argonne National Laboratory (United States)

David M. Stubbs, Lockheed Martin Space Systems Company
(United States)

Linda C. Usher, Executive Search Group (United States)

Daniel Vukobratovich, Raytheon Missile Systems (United States)

Paul R. Yoder Jr., Consultant (United States)

Carl H. Zweben, Consultant (United States)

Session Chairs

1 Systems I

Alson E. Hatheway, Alson E. Hatheway Inc. (United States)

2 Materials

Frank W. Kan, Simpson Gumpertz & Heger Inc. (United States)

- 3 Systems II
Alson E. Hatheway, Alson E. Hatheway Inc. (United States)
- 4 Modeling
Deming Shu, Argonne National Laboratory (United States)
- 5 Mounts and Mechanisms I
David M. Stubbs, Lockheed Martin Space Systems Company
(United States)
- 6 Mounts and Mechanisms II
Anees Ahmad, Raytheon Missile Systems (United States)
- 7 Subsystems
Alson E. Hatheway, Alson E. Hatheway Inc. (United States)
