Event: ROMOPTO International Conference on Micro- to Nano-Photonics III, 2012, Bucharest, Romania

PROCEEDINGS OF SPIE

ROMOPTO 2012

Tenth Conference on Optics: Micro- to Nanophotonics III

Valentin I. Vlad
Editor

3–6 September 2012
Bucharest, Romania

Organized by

Romanian Academy, Division of Physics • National Institute for Laser, Plasma and Radiation Physics (Romania) • University of Bucharest, Faculty of Physics (Romania) • Politehnica University of Bucharest (Romania) • Romanian Physical Society, Division of Optics and Quantum Electronics, The Romanian Territorial Committee of ICO

Cooperating Organizations

Ministry of Education, Research, Youth and Sport (Romania) • “Menachem H. Elias” Foundation (Romania) • International Commission for Optics • The Abdus Salam International Centre for Theoretical Physics (Italy) • Optical Society of America • European Optical Society • HISTERESIS – High-technology Systems and Equipment for REsearch, Industry and Science • Apel Laser SRL (Romania) • SPIE

Printed in the United States of America.

Publication of record for individual papers is online in the SPIE Digital Library.

SPIDigitalLibrary.org

Paper Numbering: Proceedings of SPIE follow an e-First publication model, with papers published first online and then in print and on CD-ROM. Papers are published as they are submitted and meet publication criteria. A unique, consistent, permanent citation identifier (CID) number is assigned to each article at the time of the first publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online, print, and electronic versions of the publication. SPIE uses a six-digit CID article numbering system in which:

- The first four digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc.

The CID Number appears on each page of the manuscript. The complete citation is used on the first page, and an abbreviated version on subsequent pages. Numbers in the index correspond to the last two digits of the six-digit CID Number.

Contents

ix	Conference Committees
xi	Introduction

PLENARY SESSION

- 8882 02 **DNA- and DNA-CTMA: novel bio-nanomaterials for application in photonics and in electronics (Plenary Paper)** [8882-1]
M. Mindroiu, A.-M. Manea, I. Rau, Univ. Politehnica of Bucharest (Romania); J. G. Grote, Air Force Research Lab. (United States); H. C. L. Oliveira, A. Pawlicka, Univ. de São Paulo (Brazil); F. Kajzar, Politehnica Univ. of Bucharest (Romania), and CNRS, Institut des Sciences et Technologies Moléculaires d'Angers, Univ. d'Angers (France)
- 8882 03 **Nanoscopy with focused light (Plenary Paper)** [8882-2]
S. W. Hell, Max Planck Institute for Biophysical Chemistry (Germany)

LASERS AND RADIATION SOURCES

- 8882 04 **Upconversion luminescence in $\text{La}_3\text{Ga}_{5.5}\text{Ta}_{0.5}\text{O}_{14}$ codoped with Er^{3+} and Yb^{3+} (Invited Paper)** [8882-3]
S. Georgescu, A. M. Voiculescu, National Institute for Lasers, Plasma and Radiation Physics (Romania); C. Matei, A. G. Stefan, National Institute for Lasers, Plasma and Radiation Physics (Romania), and Univ. of Bucharest (Romania); O. Toma, National Institute for Lasers, Plasma and Radiation Physics (Romania)
- 8882 05 **Analysis of bulk and nanostructured passive Q-switches for erbium laser oscillators** [8882-4]
S. Miclos, National Institute of Research and Development for Optoelectronics (Romania); I. Lancranjan, INCAS - National Institute for Aerospace Research Elie Carafoli (Romania); R. Savastu, D. Savastu, National Institute of Research and Development for Optoelectronics (Romania)
- 8882 06 **Generation of high-peak power 532-nm green pulses from composite, all-ceramics, passively Q-switched Nd:YAG/Cr⁴⁺:YAG laser (Best Poster SPIE Award)** [8882-5]
G. Salamu, A. Ionescu, C. Brandus, O. Grigore, N. Pavel, T. Dascalu, National Institute for Lasers, Plasma and Radiation Physics (Romania)

LASERS IN MATERIAL SCIENCE

- 8882 07 **Materials micro-processing using femtosecond lasers (Invited Paper)** [8882-6]
R. Dabu, M. Zamfirescu, I. Anghel, F. Jipa, National Institute for Lasers, Plasma and Radiation Physics (Romania)

- 8882 08 **Hydroxyapatite thin films synthesized by Pulsed Laser Deposition onto titanium mesh implants for cranioplasty applications (Best Poster OSA Award)** [8882-7]
L. Duta, National Institute for Lasers, Plasma and Radiation Physics (Romania); G. E. Stan, National Institute of Materials Physics (Romania); A. C. Popescu, G. Socol, F. M. Miroiu, I. N. Mihailescu, National Institute for Lasers, Plasma and Radiation Physics (Romania); A. Ianculescu, Politehnica Univ. of Bucharest (Romania); I. Poeata, A. Chiriac, Gr.T. Popa Univ. of Medicine and Pharmacy (Romania)

NANOPHOTONICS AND QUANTUM OPTICS I

- 8882 09 **Quantum correlations in two-mode Gaussian open quantum systems (Invited Paper)** [8882-9]
A. Isar, Horia Hulubei National Institute of Physics and Nuclear Engineering (Romania), and Academy of Romanian Scientists (Romania)
- 8882 0A **Circular motion of particles by the help of the spin part of the internal energy flow (Invited Paper)** [8882-8]
O. V. Angelsky, Yuriy Fedkovych Chernivtsi National Univ. (Ukraine); A. Y. Bekshaev, Odessa I.I. Mechnikov National Univ. (Ukraine); P. P. Maksimyak, A. P. Maksimyak, C. Y. Zenkova, N. V. Gorodynska, Yuriy Fedkovych Chernivtsi National Univ. (Ukraine)
- 8882 0B **Fabrication of plasmonic structures on LN2 cooled substrates (Invited Paper)** [8882-10]
T. Stefaniuk, P. Wróbel, T. Szoplik, Univ. of Warsaw (Poland)
- 8882 0C **Nonlinear refractive properties of 1D periodically nanostructured silicon-on-insulator investigated by reflection I-Scan** [8882-11]
T. Bazaru Rujoiu, A. Petris, V. I. Vlad, National Institute for Lasers, Plasma and Radiation Physics (Romania)
- 8882 0D **Nonlinear optical properties of Rh610 sensitized DNA-CTMA characterized by Z-Scan** [8882-12]
I. Dancus, V. I. Vlad, A. Petris, National Institute for Lasers, Plasma and Radiation Physics (Romania); I. Rau, F. Kajzar, A. Meghea, A. Tane, Univ. Politehnica of Bucharest (Romania)
- 8882 0E **Numerical analysis of a nanowire grating plasmon** [8882-13]
I. I. Lăncrăjan, INCAS - National Institute for Aerospace Research Elie Carafoli (Romania); S. Miclos, A. Popescu, D. Savastru, National Institute of Research and Development for Optoelectronics (Romania); I. N. Mihailescu, National Institute for Lasers, Plasma and Radiation Physics (Romania)
- 8882 0F **A stimulated spontaneous down conversion effect** [8882-22]
A. Rusu, L. Rusu, Horia Hulubei National Institute of Physics and Nuclear Engineering (Romania)

INFORMATION AND NONLINEAR OPTICS

- 88820G **New and old intensity statistics from large receiving apertures in the atmosphere (Invited Paper)** [8882-14]
A. Consortini, Univ. degli Studi di Firenze (Italy)

- 8882 OH **Analysis of imaging system performance capabilities (Invited Paper)** [8882-15]
H. Haim, E. Marom, Tel Aviv Univ. (Israel)
- 8882 OI **A new method for estimating the degree of coherence of mutually orthogonal linearly polarized interacting waves** [8882-16]
C. Y. Zenkova, M. P. Gorsky, I. V. Soltys, P. O. Angelsky, Yuriy Fedkovych Chernivtsi National Univ. (Ukraine)
- 8882 OJ **Linear and nonlinear light bullets: recent developments (Invited Paper)** [8882-17]
D. Mihalache, Horia Hulubei National Institute of Physics and Nuclear Engineering (Romania)
- 8882 OK **Analysis of soliton waveguides in lithium niobate at 405 nm wavelength** [8882-18]
S. T. Popescu, A. Petris, National Institute for Lasers, Plasma and Radiation Physics (Romania); V. I. Vlad, National Institute for Lasers, Plasma and Radiation Physics (Romania), and Ctr. of Advanced Studies in Physics, Romanian Academy (Romania); E. Fazio, Univ. degli Studi di Roma La Sapienza (Italy)
- 8882 OL **Cooperative effects between three subsystems in two-photon and Raman resonances (Invited Paper)** [8882-19]
N. A. Enaki, T. Rosca, Institute of Applied Physics, Academy of Sciences of Moldova (Moldova)
- 8882 OM **Optical tweezers based on polarization interferometer** [8882-20]
O. V. Angelsky, A. P. Maksimyak, P. P. Maksimyak, M. M. Dominikov, Yuriy Fedkovych Chernivtsi National Univ. (Ukraine)
- 8882 ON **Reflectance and transmittance of a uniaxial thin film with the optic axis perpendicular to the surface** [8882-21]
P. C. Logofatu, National Institute for Lasers, Plasma and Radiation Physics (Romania)

BIOPHOTONICS AND OPTICS IN ENVIRONMENT RESEARCH

- 8882 OO **Optospectral techniques for urban forest state characterization (Invited Paper)** [8882-23]
M. Zoran, R. Savastru, D. Savastru, M. Tautan, S. Miclos, L. Baschir, National Institute of Research and Development for Optoelectronics (Romania)
- 8882 OP **Polarization-singular structure of phase-inhomogeneous layers for diagnostics and classification of their optical properties** [8882-24]
A. G. Ushenko, A. V. Dubolazov, Yuriy Fedkovych Chernivtsi National Univ. (Ukraine)
- 8882 OQ **Polarization-phase filtering of laser images of biological liquids** [8882-25]
Y. A. Ushenko, M. Sidor, Yuriy Fedkovych Chernivtsi National Univ. (Ukraine)
- 8882 OR **The possibilities of using scale-selective polarization cartography in diagnostics of myocardium pathologies** [8882-26]
Y. A. Ushenko, Yuriy Fedkovych Chernivtsi National Univ. (Ukraine); O. Y. Wanchuliak, Bukovinian State Medical Univ. (Ukraine)

- 8882 OS **Numerical analysis of laser paint removal from various substrates** [8882-27]
D. Savastru, R. Savastru, National Institute of Research and Development for Optoelectronics (Romania); I. Lancranjan, INCAS - National Institute for Aerospace Research Elie Carafoli (Romania); S. Miclos, National Institute of Research and Development for Optoelectronics (Romania); C. Opran, Politehnica Univ. of Bucharest (Romania)
- 8882 OT **Generation and biological evaluation of the products formed from the exposure of Phenothiazine to a 266nm laser beam** [8882-28]
T. Alexandru, National Institute for Lasers, Plasma and Radiation Physics (Romania), and Univ. of Bucharest (Romania); M. L. Pascu, National Institute for Lasers, Plasma and Radiation Physics (Romania), and COST of the European Commission (Belgium); B. Danko, Univ. of Szeged (Hungary), and COST of the European Commission (Belgium); V. Nastasa, National Institute for Lasers, Plasma and Radiation Physics (Romania); M. Boni, National Institute for Lasers, Plasma and Radiation Physics (Romania,) and Univ. of Bucharest (Romania); A. Militaru, National Institute for Lasers, Plasma and Radiation Physics (Romania), Univ. of Bucharest (Romania), and COST of the European Commission (Belgium); I. R. Andrei, A. Staicu, National Institute for Lasers, Plasma and Radiation Physics (Romania); A. Hunyadi, Univ. of Szeged (Hungary), and COST of the European Commission (Belgium); A. Armada, M. Viveiros, Univ. Nova de Lisboa (Portugal); L. Amaral, Univ. Nova de Lisboa (Portugal), and COST of the European Commission (Belgium)
- 8882 OU **Spatial-frequency structure and polarization phasometry of coherent images of biological polycrystalline networks** [8882-29]
P. O. Angelsky, L. Trifonyuk, Yuriy Fedkovych Chernivtsi National Univ. (Ukraine)
- 8882 OV **Complex degree of mutual coherence of biological liquids** [8882-30]
V. A. Ushenko, Yuriy Fedkovych Chernivtsi National Univ. (Ukraine)
- 8882 OW **Assessment of the aerosols distribution in the Bucharest metropolitan area in relation with health effects** [8882-31]
M. A. Zoran, National Institute of Research and Development for Optoelectronics (Romania); M. R. Dida, Univ. of Medicine and Pharmacy of Craiova (Romania)
- 8882 OX **Analysis of climatic and anthropogenic changes effects on spectral vegetation indices of forested areas** [8882-32]
M. Zoran, R. Savastru, D. Savastru, M. Tautan, S. Miclos, L. Baschir, National Institute of Research and Development for Optoelectronics (Romania)

OPTOELECTRONICS AND OPTICAL COMPONENTS

- 8882 OY **Numerical simulation of distributed feed-back fiber laser sensors** [8882-33]
R. Savastru, National Institute of Research and Development for Optoelectronics (Romania); I. I. Lancranjan, INCAS - National Institute for Aerospace Research Elie Carafoli (Romania); D. Savastru, S. Miclos, National Institute of Research and Development for Optoelectronics (Romania)
- 8882 OZ **Multimode optical fiber study for a new radiation dosimeter development** [8882-34]
E. Badita, E. Stancu, F. Scarlat, C. Vancea, M. Dumitrascu, A. Scarisoreanu, National Institute for Lasers, Plasma and Radiation Physics (Romania)

- 8882 10 **Spectral manifestations of polarization action of narrow slit** [8882-35]
C. V. Felde, M. V. Oleksyuk, P. V. Polyanskii, Yuriy Fedkovych Chernivtsi National Univ.
(Ukraine)

Introduction

The conference ROMOPTO 2012: Micro- to Nano-Photonics II is the tenth (jubiliary) in a series of international conferences dedicated to optics and photonics, held every three-year in Romania. The first three conferences were organized by Acad. Ioan Ursu, in collaboration with Acad. A. M. Prokhorov, under the name "Trends in Quantum Electronics". The Romanian optics community and our friends from abroad celebrate now 50 years since the first He-Ne laser was constructed at the Institute of Atomic Physics Bucharest, in the Laboratory of Optical Methods in Nuclear Physics lead by Prof. Ion Agarbiceanu, a member of Romanian Academy.

The topics of our conference are related to the modern micro- and nano-photonics and reflect the fast evolutions of optics and photonics providing essential technologies for new materials, information science and technology, biology and medicine, manufacturing, sensing and metrology. The results in these fields demonstrate the important role of photonics in the progress of modern society, in the 21 century.

The purpose of ROMOPTO 2012 is to provide an opportunity for the optics scientists to discuss their newest results, to stimulate interdisciplinary research and to consider the perspective of applications. The position of our country, Romania, in the Central-East Europe plays an important role in the promotion of the scientific contacts in this region. In the national strategy in R&D, photonics plays an important role in basic research, development and innovation. An actual challenge for all of us is the financial and economic crisis, which has effects on the research funding, the participation in scientific meetings and many others. We follow with interest the new strategy of the EU in research, development and innovation, Horizon 2020, including partnerships in the new projects. We are involved in an important EU project and infrastructure in R&D, the Extreme Light Infrastructure (ELI). Our colleague, Prof. Nicolae Zamfir, who is leading the Romanian pillar of ELI, will present an invited paper on using extremely high intensity lasers (tens PW) in Nuclear Physics.

The organization of ROMOPTO 2012 was possible thanks to the actions and support of several national and international institutions. We have to mention and thank the Romanian Academy, the Romanian Ministry of Education and Research and the National Agency for Science, Technology and Innovation, the National Institute of Laser, Plasma and Radiation Physics (NILPRP), the University of Bucharest, the "Menahem H. Elias" Foundation, the Politehnica University of Bucharest and the Division of Optics and Quantum Electronics of the Romanian Physical Society (which is a territorial committee of ICO and EOS). My gratitude is specially conveyed to Acad. Ionel Haiduc, the President of the Romanian Academy, Prof. Ecaterina Andronescu, the Minister of Education, Prof. Mircea Dumitru, the Rector of the University of Bucharest, Prof. E. Barna, the Vice Rector,

Prof. St. Antohe, the Dean of Faculty of Physics and Prof. V. Stanescu – Exec. Director of “Menahem H. Elias” Foundation.

We address our thanks to the co-sponsoring institutions of this conference: the International Commission for Optics (ICO), the « Abdus Salam » International Centre for Theoretical Physics (ICTP, Trieste, Italy), the International Society for Optics and Photonics (SPIE), Optical Society of America (OSA) and European Optical Society (EOS). Particularly, I express my entire gratitude to Prof. Mario Bertolotti, Dr. Eugene G. Arthurs, Prof. Christos Flyzanis, Prof. Anna Consortini, Prof. Gerd Leuchs, Prof. Francois Kajzar, Prof. Stefan Hell, Prof. Concita Sibilila, Dr. Costel Subran, Prof. Edmond Turcu, Prof. Angela Guzman, Prof. Th. Szoplík, Prof. Mircea Guina, Prof. Ion Tighineanu, Prof. Oleg Angelsky, Prof. Eugenio Fazio and Prof. G. von Bally (ICO), Prof. Joseph Niemela and Prof. G. Thompson (ICTP), for their important support to the conference ROMOPTO 2012 and to our optics community.

I would like to express my thanks to the members of the international Scientific Advisory Committee, Programme Committee and Organizing Committees of ROMOPTO 2012 for their hard work. Special address and thanks are to the local organizing team: Dr. Ion Morjan, General Director of NILPRP, Dr. Traian Dascalu, Deputy Director and OSA representative, Dr. Rares Medianu, Dr. Adrian Petris, the coordinator of the Organizing Committee, Dr. Tatiana Bazaru Rujoiu (for conference Programme preparation and other organization matters) and Mariana Buzatu (for financial matters and social events) for their important efforts in all steps of conference organization, to Dr. Ioan Dancus (for conference poster and Programme cover), Eng. S. Popescu, PhD student (for the design and updating the conference web site), Alexandra Olteanu (treasurer) and Petronela S. Gheorghe (for preliminary information). The sponsorships by Romanian laser small companies “Apel Laser” - Director Dr. Mircea Udrea and “Hysteresis” – Director Catalin Trangla are also acknowledged.

By the efforts of the Scientific Advisory Committee, coordinated by Prof. M. Bertolotti and the Programme Committee, around 100 scientific papers by authors from 10 countries have been selected for presentation at ROMOPTO 2012, in 9 plenary lectures, 25 invited lectures, 22 oral presentations and 44 posters. I express my entire gratitude to the members of these committees, referees, to the invited professors and to all participants for their high level work. Some of these papers, reviewed by an international referee board, are published in this SPIE Proceedings volume, which hopefully will have a wide distribution and interest in the scientific world. By a generous support, the best student papers selected at this conference were awarded by SPIE and OSA.

Finally, I hope that the participants in ROMOPTO 2012 enjoyed the scientific sessions, met in Romania friends, have had the opportunity to start new scientific collaborations and remember with pleasure their visit in Romania, particularly, the trip to the Carpathian mountains.

Valentin I. Vlad
Vice President of Romanian Academy
Chair of “ROMOPTO 2012”
