Publication of record for individual papers is online in the SPIE Digital Library.

SPIDigitalLibrary.org

Paper Numbering: Proceedings of SPIE follow an e-First publication model, with papers published first online and then in print and on CD-ROM. Papers are published as they are submitted and meet publication criteria. A unique, consistent, permanent citation identifier (CID) number is assigned to each article at the time of the first publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online, print, and electronic versions of the publication. SPIE uses a six-digit CID article numbering system in which:

- The first four digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc.

The CID Number appears on each page of the manuscript. The complete citation is used on the first page, and an abbreviated version on subsequent pages. Numbers in the index correspond to the last two digits of the six-digit CID Number.

Contents

- xi *Introduction*
- xiii *2014 Medical Imaging Paper Award Recipients*

KEYNOTE

- 9041 03 **Automatic detection of invasive ductal carcinoma in whole slide images with convolutional neural networks** [9041-2]
A. Cruz-Roa, Univ. Nacional de Colombia (Colombia); A. Basavanthally, Rutgers, The State Univ. of New Jersey (United States); F. González, Univ. Nacional de Colombia (Colombia); H. Gilmore, Univ. Hospitals (United States); M. Feldman, Hospital of the Univ. of Pennsylvania (United States); S. Ganesan, Cancer Institute of New Jersey (United States); N. Shih, Hospital of the Univ. of Pennsylvania (United States); J. Tomaszewski, Univ. at Buffalo (United States); A. Madabhushi, Case Western Reserve Univ. (United States)
- 9041 04 **Zooming in: high resolution 3D reconstruction of differently stained histological whole slide images** [9041-3]
J. Lotz, J. Berger, Fraunhofer MEVIS (Germany); B. Müller, K. Breuhahn, UniversitätsKlinikum Heidelberg (Germany); N. Grabe, Ruprecht-Karls-Univ. Heidelberg (Germany); S. Heldmann, A. Homeyer, Fraunhofer MEVIS (Germany); B. Lahrman, UniversitätsKlinikum Heidelberg (Germany) and Ruprecht-Karls-Univ. Heidelberg (Germany); H. Laue, J. Olesch, M. Schwier, Fraunhofer MEVIS (Germany); O. Sedlacek, A. Warth, UniversitätsKlinikum Heidelberg (Germany)

IMAGING AND PATHOLOGY CONVERSION

- 9041 05 **Detection of felt tip markers on microscope slides** [9041-4]
D. Friedrich, D. Meyer-Ebrecht, RWTH Aachen (Germany); A. Böcking, Institute of Pathology (Germany); D. Merhof, RWTH Aachen (Germany)
- 9041 06 **Hot spot detection for breast cancer in Ki-67 stained slides: image dependent filtering approach** [9041-5]
M. K. K. Niazi, The Ohio State Univ. (United States); E. Downs-Kelly, Cleveland Clinic (United States); M. N. Gurcan, The Ohio State Univ. (United States)
- 9041 07 **Breast histopathology using random decision forests-based classification of infrared spectroscopic imaging data** [9041-6]
D. M. Mayerich, Univ. of Illinois at Urbana-Champaign (United States); M. Walsh, Univ. of Illinois at Chicago (United States) and Univ. of Illinois Cancer Ctr. (United States); A. Kadjacsy-Balla, Univ. of Illinois at Chicago (United States); S. Mittal, India Institute of Technology, Delhi (India); R. Bhargava, Univ. of Illinois at Urbana-Champaign (United States) and Univ. of Illinois Cancer Ctr. (United States)

- 9041 08 **Quantitative analysis of stain variability in histology slides and an algorithm for standardization** [9041-7]
B. Ehteshami Bejnordi, N. Timofeeva, I. Otte-Höller, N. Karssemeijer, J. A. W. M. van der Laak, Radboud Univ. Nijmegen Medical Ctr. (Netherlands)
- 9041 09 **Does the choice of display system influence perception and visibility of clinically relevant features in digital pathology images?** [9041-8]
T. Kimpe, J. Rostang, Barco Healthcare (Belgium); A. Avanaki, K. Espig, A. Xthona, Barco Healthcare (United States); I. Cocuranu, A. V. Parwani, L. Pantanowitz, Univ. of Pittsburgh Medical Ctr. (United States)

ACQUISITION, PROCESSING AND STORAGE OF MICROSCOPIC IMAGES

- 9041 0A **Towards automatic patient selection for chemotherapy in colorectal cancer trials** [9041-9]
A. Wright, D. Magee, P. Quirke, Univ. of Leeds (United Kingdom); D. E. Treanor, Univ. of Leeds (United Kingdom) and Leeds Teaching Hospitals NHS Trust (United Kingdom)
- 9041 0B **Cascaded ensemble of convolutional neural networks and handcrafted features for mitosis detection** [9041-10]
H. Wang, Case Western Reserve Univ. (United States); A. Cruz-Roa, Univ. Nacional de Colombia (Colombia); A. Basavanahally, H. Gilmore, Case Western Reserve Univ. (United States); N. Shih, M. Feldman, The Univ. of Pennsylvania (United States); J. Tomaszewski, Univ. at Buffalo (United States); F. Gonzalez, Univ. Nacional de Colombia (Colombia); A. Madabhushi, Case Western Reserve Univ. (United States)
- 9041 0C **Grading vascularity from histopathological images based on traveling salesman distance and vessel size** [9041-11]
M. K. K. Niazi, J. Hemminger, H. Kurt, G. Lozanski, M. N. Gurcan, The Ohio State Univ. (United States)
- 9041 0D **Automated high-throughput assessment of prostate biopsy tissue using infrared spectroscopic chemical imaging** [9041-12]
P. Bassan, A. Sachdeva, Univ. of Manchester (United Kingdom); J. H. Shanks, The Christie NHS Foundation Trust (United Kingdom); M. D. Brown, N. W. Clarke, Univ. of Manchester (United Kingdom) and The Christie NHS Foundation Trust (United Kingdom); P. Gardner, Univ. of Manchester (United Kingdom)
- 9041 0E **A fast method for approximate registration of whole-slide images of serial sections using local curvature** [9041-13]
N. Trahearn, D. Epstein, The Univ. of Warwick (United Kingdom); D. Snead, Univ. Hospitals Coventry and Warwickshire (United Kingdom); I. Cree, The Univ. of Warwick (United Kingdom) and Univ. Hospitals Coventry and Warwickshire (United Kingdom); N. Rajpoot, The Univ. of Warwick (United Kingdom) and Qatar Univ. (Qatar)
- 9041 0F **Classification of glioblastoma and metastasis for neuropathology intraoperative diagnosis: a multi-resolution textural approach to model the background** [9041-14]
M. F. Ahmad Fauzi, The Ohio State Univ. (United States) and Multimedia Univ. (Malaysia); H. N. Gokozan, B. Elder, The Ohio State Univ. (United States); V. K. Puduvalli, The Ohio State Univ. Wexner Medical Ctr. (United States); J. J. Otero, M. N. Gurcan, The Ohio State Univ. (United States)

OBSERVER PERFORMANCE AND HUMAN FACTORS

- 9041 OG **3D reconstruction of digitized histological sections for vasculature quantification in the mouse hind limb** [9041-15]
Y. Xu, The Univ. of Western Ontario (Canada); J. G. Pickering, The Univ. of Western Ontario (Canada) and Robarts Research Institute (Canada); Z. Nong, The Univ. of Western Ontario (Canada); E. Gibson, Robarts Research Institute (Canada); A. D. Ward, The Univ. of Western Ontario (Canada)
- 9041 OH **Toward digital staining using stimulated Raman scattering and statistical machine learning** [9041-16]
K. Tanji, Y. Otsuka, S. Satoh, H. Hashimoto, Canon Inc. (Japan); Y. Ozeki, The Univ. of Tokyo (Japan); K. Itoh, Osaka Univ. (Japan)
- 9041 OI **Accuracy and variability of tumor burden measurement on multi-parametric MRI** [9041-17]
M. Salarian, The Univ. of Western Ontario (Canada); E. Gibson, The Univ. of Western Ontario (Canada) and Robarts Research Institute (Canada); M. Shahedi, M. Gaed, J. A. Gómez, M. Moussa, C. Romagnoli, The Univ. of Western Ontario (Canada); D. W. Cool, Robarts Research Institute (Canada) and The Univ. of Western Ontario (Canada); M. Bastian-Jordan, J. L. Chin, S. Pautler, G. S. Bauman, A. D. Ward, The Univ. of Western Ontario (Canada)
- 9041 OL **Tissue imaging using optical projection tomographic microscopy** [9041-20]
Q. Miao, V. Hu, E. J. Seibel, Univ. of Washington (United States)

POSTER SESSION

- 9041 OM **Prostate malignancy grading using gland-related shape descriptors** [9041-21]
U.-D. Braumann, Univ. Leipzig (Germany) and Hochschule für Technik, Wirtschaft und Kultur Leipzig (Germany); P. Scheibe, M. Loeffler, Univ. Leipzig (Germany); G. Kristiansen, N. Wernert, Univ. Bonn (Germany)
- 9041 ON **Multiparametric MR imaging of prostate cancer foci: assessing the detectability and localizability of Gleason 7 peripheral zone cancers based on image contrasts** [9041-22]
E. Gibson, Robarts Research Institute (Canada) and The Univ. of Western Ontario (Canada); M. Gaed, Robarts Research Institute (Canada), The Univ. of Western Ontario (Canada), and Lawson Health Research Institute (Canada); T. Hrinivich, The Univ. of Western Ontario (Canada) and Robarts Research Institute (Canada); J. A. Gómez, M. Moussa, C. Romagnoli, The Univ. of Western Ontario (Canada); J. Mandel, The Univ. of Western Ontario (Canada) and St. Joseph's Hospital (Canada); M. Bastian-Jordan, Queensland Health (Australia); D. W. Cool, S. Ghoul, Robarts Research Institute (Canada) and The Univ. of Western Ontario (Canada); S. E. Pautler, J. L. Chin, Lawson Health Research Institute (Canada) and The Univ. of Western Ontario (Canada); C. Crukley, Robarts Research Institute (Canada) and Lawson Health Research Institute (Canada); G. S. Bauman, The Univ. of Western Ontario (Canada); A. Fenster, Robarts Research Institute (Canada), The Univ. of Western Ontario (Canada), and Lawson Health Research Institute (Canada); A. D. Ward, The Univ. of Western Ontario (Canada) and Lawson Health Research Institute (Canada)

- 9041 OP **Selection of the best features for leukocytes classification in blood smear microscopic images** [9041-24]
O. Sarrafzadeh, H. Rabbani, A. Talebi, H. U. Banaem, Isfahan Univ. of Medical Sciences (Iran, Islamic Republic of)
- 9041 OQ **A discriminant multi-scale histopathology descriptor using dictionary learning** [9041-25]
D. Romo, J. D. García-Arteaga, Univ. Nacional de Colombia (Colombia); P. Arbeláez, Univ. of California, Berkeley (United States); E. Romero, Univ. Nacional de Colombia (Colombia)
- 9041 OR **A multiview boosting approach to tissue segmentation (Cum Laude Poster Award)** [9041-26]
J. T. Kwak, S. Xu, National Institutes of Health Clinical Ctr. (United States); P. A. Pinto, B. Turkbey, M. Bernardo, P. L. Choyke, National Cancer Institute (United States); B. J. Wood, National Institutes of Health Clinical Ctr. (United States)
- 9041 OS **Cell density in prostate histopathology images as a measure of tumor distribution** [9041-27]
H. M. Reynolds, Peter MacCallum Cancer Ctr. (Australia) and The Univ. of Melbourne (Australia); S. Williams, The Univ. of Melbourne (Australia) and Peter MacCallum Cancer Ctr. (Australia); A. M. Zhang, C. S. Ong, D. Rawlinson, R. Chakravorty, NICTA, Victorian Research Lab. (Australia) and The Univ. of Melbourne (Australia); C. Mitchell, Peter MacCallum Cancer Ctr. (Australia); A. Haworth, Peter MacCallum Cancer Ctr. (Australia) and The Univ. of Melbourne (Australia)
- 9041 OT **Type II fuzzy systems for amyloid plaque segmentation in transgenic mouse brains for Alzheimer's disease quantification** [9041-28]
A. Khademi, Univ. of Guelph (Canada) and PathCore Inc. (Canada); D. Hosseinzadeh, PathCore Inc. (Canada)
- 9041 OV **Perceptual uniformity of commonly used color spaces** [9041-30]
A. Avanaki, K. Espig, Barco Healthcare (United States); T. Kimpe, Barco Healthcare (Belgium); A. Xthona, Barco Healthcare (United States); C. Marchessoux, J. Rostang, B. Piepers, Barco Healthcare (Belgium)
- 9041 OW **Feature-enhancing zoom to facilitate Ki-67 hot spot detection** [9041-31]
J. Molin, Chalmers Univ. of Technology (Sweden), Linköping Univ. (Sweden), and Sectra AB (Sweden); K. Shaga Devan, K. Wårdell, Linköping Univ. (Sweden); C. Lundström, Linköping Univ. (Sweden) and Sectra AB (Sweden)
- 9041 OY **Requirements, desired characteristics and architectural proposal for a visualization framework for digital pathology** [9041-33]
T. Kimpe, Barco Healthcare (Belgium); A. Avanaki, K. Espig, Barco Healthcare (United States); J. Rostang, C. Marchessoux, B. Piepers, Barco Healthcare (Belgium); A. Xthona, Barco Healthcare (United States)
- 9041 OZ **Novel computer-aided diagnosis of mesothelioma using nuclear structure of mesothelial cells in effusion cytology specimens** [9041-34]
A. B. Tosun, Carnegie Mellon Univ. (United States); O. Yergiyev, Allegheny General Hospital (United States); S. Kolouri, Carnegie Mellon Univ. (United States); J. F. Silverman, Allegheny General Hospital (United States); G. K. Rohde, Carnegie Mellon Univ. (United States)

- 9041 10 **A Bayesian framework for cell-level protein network analysis for multivariate proteomics image data** [9041-36]
V. N. Kovacheva, K. Sirinukunwattana, The Univ. of Warwick (United Kingdom);
N. M. Rajpoot, The Univ. of Warwick (United Kingdom) and Univ. of Qatar (Qatar)
- 9041 11 **Automatic scale-independent morphology-based quantification of liver fibrosis** [9041-37]
J. Coatelen, HISTALIM (France) and Institut des Sciences de l'Image pour les Techniques interventionnelles (France); A. Albouy-Kissi, B. Albouy-Kissi, Institut des Sciences de l'Image pour les Techniques interventionnelles (France); J.-P. Coton, HISTALIM (France); L. Sifre, Institut des Sciences de l'Image pour les Techniques interventionnelles (France); P. Dechelotte, Ctr. Hospitalier Univ. Estaing (France); A. Abergel, Institut des Sciences de l'Image pour les Techniques interventionnelles (France), Univ. d'Auvergne (France), and Ctr. Hospitalier Univ. Estaing (France)
- 9041 12 **Color accuracy and reproducibility in whole slide imaging scanners** [9041-38]
P. Shrestha, B. Hulsken, Philips Digital Pathology Solutions (Netherlands)

Symposium Chairs

Ehsan Samei, Duke University (United States)
David J. Manning, Lancaster University (United Kingdom)

Conference Chairs

Metin N. Gurcan, The Ohio State University Wexner Medical Center
(United States)
Anant Madabhushi, Case Western Reserve University (United States)

Conference Program Committee

Selim Aksoy, Bilkent University (Turkey)
Andrew H. Beck, Harvard Medical School (United States) and Beth
Israel Deaconess Medical Center (United States)
Rohit Bhargava, University of Illinois at Urbana-Champaign
(United States)
Ulysses G. Balis, University of Michigan Health System
(United States)
Eric Cosatto, NEC Laboratories America, Inc. (United States)
Andinet Enquobahrie, Kitware, Inc. (United States)
Michael Feldman, The University of Pennsylvania Health System
(United States)
David J. Foran, Rutgers Cancer Institute of New Jersey (United States)
Brandon D. Gallas, U.S. Food and Drug Administration (United States)
Marios A. Gavrielides, U.S. Food and Drug Administration
(United States)
Stephen M. Hewitt, National Institutes of Health (United States)
Jason Hipp, National Cancer Institute (United States)
Elizabeth A. Krupinski, The University of Arizona (United States)
Richard M. Levenson, University of California, Davis (United States)
Olivier Lezoray, Université de Caen Basse-Normandie (France)
Derek Magee, University of Leeds (United Kingdom)
Anne L. Martel, Sunnybrook Research Institute (Canada) and
University of Toronto (Canada)
Erik Meijering, Erasmus University Medical Center (Netherlands)
James P. Monaco, VuCOMP (United States)
Tim W. Nattkemper, Universität Bielefeld (Germany)
Nasir M. Rajpoot, University of Warwick (United Kingdom) and
Qatar University (Qatar)
Badrinath Roysam, University of Houston (United States)
Berkman Sahiner, U.S. Food and Drug Administration (United States)

John E. Tomaszewski, University at Buffalo (United States)
Darren Treanor, University of Leeds (United Kingdom) and Leeds
Teaching Hospitals NHS Trust (United Kingdom)
Martin J. Yaffe, Sunnybrook Research Institute (Canada)
Bulent Yener, Rensselaer Polytechnic Institute (United States)

Session Chairs

- 1 Keynote
Metin N. Gurcan, The Ohio State University Wexner Medical Center
(United States)
Anant Madabhushi, Case Western Reserve University (United States)
- 2 The Design and Benefits of Successful Grand Challenges
Stephen Aylward, Kitware, Inc. (United States)
Bram van Ginneken, Radboud University Nijmegen Medical Centre
(Netherlands)
- 3 Imaging and Pathology Conversion
Martin J. Yaffe, Sunnybrook Research Institute (Canada)
- 4 Acquisition, Processing and Storage of Microscopic Images
Anne L. Martel, Sunnybrook Research Institute (Canada) and
University of Toronto (Canada)
- 5 Observer Performance and Human Factors
Elizabeth A. Krupinski, The University of Arizona (United States)

Poster Session

Nasir M. Rajpoot, University of Warwick (United Kingdom) and
Qatar University (Qatar)
Marios A. Gavrielides, U.S. Food and Drug Administration
(United States)

Introduction

Last year, we introduced a new conference, Digital Pathology, at the SPIE Medical Imaging Symposium in Orlando, Florida. Although it was the newest conference in Medical Imaging, it received enormous attention. The quality of the presented talks, posters and the resulting papers exceeded our expectations. This year in San Diego, like everybody else, we were curious to see if we could repeat the success of the previous year.

The second Digital Pathology conference took place 16–17 February, in the Town and Country Inn in San Diego, California. The meeting began with the plenary session entitled “*Path, Present and Future*,” delivered by Dr. Richard Levenson from University of California, Davis Medical Center. Dr. Levenson's keynote talk on advances in digital and molecular pathology drew in over 250 attendees from all the various conferences, including Digital Pathology; Image Processing; Computer-Aided Diagnosis; and Image Perception, Observer Performance, and Technology Assessment; and resulted in some very lively discussion following the talk. The rest of the conference was similarly very heavily subscribed.

Another highlight of the meeting this year was the workshop we organized called “*What do pathologists see on a slide: Implications for Digital Pathology*.” Three board-certified pathologists from the United States: Dr. John Tomaszewski, University at Buffalo, Dr. Ulysses Balis, University of Michigan, Dr. Richard Levenson, Univ. of California, Davis Medical Center, and an academic pathologist from the United Kingdom, Dr. Darren Treanor, University of Leeds, presented a Pathology 101 for the SPIE Medical imaging audience. The participating pathologists projected the digitized images of slides pertaining to renal disease, breast, and prostate cancer and conversed with the audience on features that they were seeing on the slide. Dr. Tomaszewski presented a comprehensive list of challenges in the digital pathology image analysis to the SPIE medical imaging community, while Dr. Balis showcased how algorithms like SiVQ can be used for high throughput annotation of digitized slides. Drs. Treanor and Levenson took questions from the audience on some of the major challenges and opportunities for routine use and adoption of digital pathology and computerized image analysis in histopathology.

The presented papers covered such diverse topics as imaging and pathology conversion, Processing and Storage of Microscopic Images, Performance and Human Factors. We would like to acknowledge the excellent work in the following papers:

Conference finalist of the Robert F. Wagner Best Student Paper Award for Digital Pathology (9041)

Towards automatic patient selection for chemotherapy in colorectal cancer trials
Paper 9041-9

Student Author: Alexander I. Wright, Univ. of Leeds (United Kingdom)
Authors: Derek R. Magee, Philip Quirke, Univ. of Leeds (United Kingdom);
Darren E. Treanor, Univ. of Leeds (United Kingdom), Leeds Teaching Hospitals NHS
Trust (United Kingdom)

Poster Awards

Cum Laude Poster Award

A multiview boosting approach to tissue segmentation

Paper 9041-26

Authors: Jin Tae Kwak, Sheng Xu, Peter A. Pinto, Baris Turkbey, Marcelino Bernardo,
Peter L. Choyke, Bradford J. Wood, National Institutes of Health (United States)

Honorable Mention Poster Award

Novel 3D cryo-histology method for validation of 3D imaging modalities

Paper 9041-29

Authors: David Prabhu, Mohammed Q. Quatish, Case Western Reserve Univ.
(United States); Emile Mehanna, Univ. Hospitals of Cleveland (United States);
Zhuxian Zhou, Madhusudhana Gargesh, Andrew M. Rollins, Case Western Reserve
Univ. (United States); Marco Costa, Hiram G. Bezerra, Univ. Hospitals of Cleveland
(United States); David L. Wilson, Case Western Reserve Univ. (United States)

The continued success of the new DP conference was in no small part to the
outstanding efforts of the program committee, who carefully constructed the
program, and SPIE Conference Chairs Drs. Ehsan Samei and David Manning, and
SPIE staff, who kindly guided us through all the steps of the program organization.

Next year, the Digital Pathology conference at SPIE Medical Imaging will take
place in Orlando, Florida. We look forward to seeing you there for another
successful conference.

Metin N. Gurcan
Anant Madabhushi

Awards

Robert F. Wagner Award

Robert F. Wagner was an active scientist in the SPIE Medical Imaging meeting, starting with the first meeting in 1972 and continuing throughout his career. He ensured that the BRH, and subsequently the CDRH, was a sponsor for the early and subsequent Medical Imaging meetings, helping to launch and ensure the historical success of the meeting. The Robert F. Wagner All-Conference Best Student Paper Award (established 2014) is acknowledgment of his many important contributions to the Medical Imaging meeting and his many important advances to the field of medical imaging.

Sponsored by:

The Medical Image Perception Society

SPIE®

2014 Recipients:

First Place: **MRI signal and texture features for the prediction of MCI to Alzheimer's disease progression** (9035-78)

A. Martínez-Torteya, J. A. Rodríguez-Rojas, J. M. Celaya-Padilla, J. I. Galván-Tejada, V. M. Treviño-Alvarado, Sr., J. G. Tamez-Peña, Tecnológico de Monterrey (Mexico)

Second Place: **Distinguishing benign confounding treatment changes from residual prostate cancer on MRI following laser ablation** (9036-49)

G. Litjens, H. Huisman, Radboud Univ. Nijmegen Medical Ctr. (Netherlands); R. Elliot, Case Western Reserve Univ. (United States); N. Shih, M. Feldman, Univ. of Pennsylvania (United States); S. Viswanath, Case Western Reserve Univ. (United States); J. Futterer, J. Bomers, Radboud Univ. Nijmegen Medical Ctr. (Netherlands); A. Madabhushi, Case Western Reserve Univ. (United States)

Conference Award

2014 Recipients:

Cum Laude Poster Award: **A multiview boosting approach to tissue segmentation**
[9041-26]

J. T. Kwak, S. Xu, National Institutes of Health Clinical Ctr. (United States); P. A. Pinto,
B. Turkbey, M. Bernardo, P. L. Choyke, National Cancer Institute (United States);
B. J. Wood, National Institutes of Health Clinical Ctr. (United States)
