Nanostructured Thin Films VII

Akhlesh Lakhtakia
Tom G. Mackay
Motofumi Suzuki
Editors

20–21 August 2014
San Diego, California, United States

Sponsored and Published by
SPIE
The papers included in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. The papers published in these proceedings reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from this book:

ISSN: 0277-786X
ISBN: 9781628411997

Copying of material in this book for internal or personal use, or for the internal or personal use of specific clients, beyond the fair use provisions granted by the U.S. Copyright Law is authorized by SPIE subject to payment of copying fees. The Transactional Reporting Service base fee for this volume is $18.00 per article (or portion thereof), which should be paid directly to the Copyright Clearance Center (CCC), 222 Rosewood Drive, Danvers, MA 01923. Payment may also be made electronically through CCC Online at copyright.com. Other copying for republication, resale, advertising or promotion, or any form of systematic or multiple reproduction of any material in this book is prohibited except with permission in writing from the publisher. The CCC fee code is 0277-786X/14/$18.00.

Printed in the United States of America.

Publication of record for individual papers is online in the SPIE Digital Library.

SPIEDigitalLibrary.org

Paper Numbering: Proceedings of SPIE follow an e-First publication model, with papers published first online and then in print and on CD-ROM. Papers are published as they are submitted and meet publication criteria. A unique, consistent, permanent citation identifier [CID] number is assigned to each article at the time of the first publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online, print, and electronic versions of the publication. SPIE uses a six-digit CID article numbering system in which:

- The first four digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc.

The CID Number appears on each page of the manuscript. The complete citation is used on the first page, and an abbreviated version on subsequent pages. Numbers in the index correspond to the last two digits of the six-digit CID Number.

Authors

Numbers in the index correspond to the last two digits of the six-digit citation identifier (CID) article numbering system used in Proceedings of SPIE. The first four digits reflect the volume number. Base 36 numbering is employed for the last two digits and indicates the order of articles within the volume. Numbers start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B...0Z, followed by 10-1Z, 20-2Z, etc.

Conference Committee

Symposium Chairs
  Satoshi Kawata, Osaka University (Japan)
  Manijeh Razeghi, Northwestern University (United States)

Symposium Co-chairs
  David L. Andrews, University of East Anglia Norwich (United Kingdom)
  James G. Grote, Air Force Research Laboratory (United States)

Conference Chairs
  Akhlesh Lakhtakia, The Pennsylvania State University (United States)
  Tom G. Mackay, The University of Edinburgh (United Kingdom)
  Motofumi Suzuki, Kyoto University (Japan)

Conference Program Committee
  Bharat Bhushan, The Ohio State University (United States)
  Pankaj K. Choudhury, University Kebangsaan Malaysia (Malaysia)
  Didier Felbacq, Université Montpellier 2 (France)
  Flavio Horowitz, Universidade Federal do Rio Grande do Sul (Brazil)
  Yi-Jun Jen, National Taipei University of Technology (Taiwan)
  H. Angus Macleod, Thin Film Center, Inc. (United States)
  Raúl J. Martín-Palma, Universidad Autónoma de Madrid (Spain)
  Anders Kristensen, Technical University of Denmark (Denmark)
  Sidney J. Ribeiro, Universidade Estadual Paulista (Brazil)
  Geoffrey B. Smith, University of Technology, Sydney (Australia)

Session Chairs
  Keynote Session
    Akhlesh Lakhtakia, The Pennsylvania State University (United States)

  Functional Nanostructures I
    Motofumi Suzuki, Kyoto University (Japan)

  Functional Nanostructures II
    François R. Flory, Institut Matériaux Microélectronique Nanosciences
de Provence (France)

  Towards Applications I
    Cheng-Chung Lee, National Central University (Taiwan)
Theoretical and Numerical Studies
Reuven Gordon, University of Victoria (Canada)

Characterization
Qiaoqiang Gan, University at Buffalo (United States)

Functional Nanostructures III
Yi-Jun Jen, National Taipei University of Technology (Taiwan)

Towards Applications II
Tom G. Mackay, The University of Edinburgh (United Kingdom)

Fabrication
Ahmadreza Hajiaboli, McGill University (Canada)
