SPIE.

Event: SPIE Asia-Pacific Remote Sensing, 2014, Beijing, China

PROCEEDINGS OF SPIE

Ocean Remote Sensing and Monitoring from Space

**Robert J. Frouin
Delu Pan
Hiroshi Murakami
Young Baek Son**
Editors

**15–16 October 2014
Beijing, China**

Sponsored by
SPIE

Cosponsored by
State Key Laboratory of Remote Sensing Science (China)
NASA—National Aeronautics and Space Administration (United States)
Ministry of Earth Sciences (India)

Cooperating Organizations
Institute of Remote Sensing and Digital Earth (China) • JAXA—Japan Aerospace Exploration Agency (Japan) • NICT—National Institute of Information and Communications Technology (Japan) • ISRO—Indian Space Research Organization (India) • National Satellite Meteorological Center (China) • State Key Laboratory of Information Engineering in Surveying, Mapping and Remote Sensing (China) • State Key Laboratory of Resources and Environmental Information System (China) • Center For Earth System Science, Tsinghua University (China) • College of Global Change and Earth System Science, Beijing Normal University (China) • Key Laboratory of Digital Earth Science (China)

Volume 9261

Proceedings of SPIE 0277-786-786X, V.9261

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

Ocean Remote Sensing and Monitoring from Space, edited by Robert J. Frouin, Delu Pan, Hiroshi Murakami, Young Baek Son, Proc. of SPIE Vol. 9261, 926101 • © 2014 SPIE
CCC code: 0277-786X/14/\$18 • doi: 10.1117/12.2179161

Proc. of SPIE Vol. 9261 926101-1

The papers included in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. The papers published in these proceedings reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Printed in the United States of America.

Publication of record for individual papers is online in the SPIE Digital Library.

SPIDigitalLibrary.org

Paper Numbering: Proceedings of SPIE follow an e-First publication model, with papers published first online and then in print. Papers are published as they are submitted and meet publication criteria. A unique citation identifier (CID) number is assigned to each article at the time of the first publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online, print, and electronic versions of the publication. SPIE uses a six-digit CID article numbering system in which:

- The first four digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc.

The CID Number appears on each page of the manuscript. The complete citation is used on the first page, and an abbreviated version on subsequent pages.

Contents

vii	<i>Authors</i>
ix	<i>Symposium Committees</i>
xi	<i>Conference Committee</i>

SESSION 1 ADVANCES IN RETRIEVAL TECHNIQUES

9261 02	Using three-band model to retrieve chlorophyll-a of Yantai coastal waters [9261-1]
9261 03	An automatic method of monitoring water bodies based on GF-1 data [9261-2]
9261 04	Ulva prolifera monitoring by GF-1 wide field-of-view sensor data [9261-3]
9261 05	Transmittance of upwelling radiance at the sea surface measured in the field [9261-4]
9261 06	Estimating solar radiation absorbed by live phytoplankton from satellite ocean-color data [9261-5]
9261 07	Estimation of aerosol spectral characteristics by GOCI hourly observations [9261-6]
9261 08	Atmospheric correction of satellite ocean-color imagery in the presence of semi-transparent clouds [9261-7]
9261 0A	A new method for mesoscale eddy detection based on watershed segmentation algorithm [9261-9]

SESSION 2 EVALUATION OF SATELLITE PRODUCTS

9261 0E	Evaluation of VIIRS ocean color products [9261-13]
9261 0F	MODIS surface reflectance product (MOD09) validation for typical inland waters in China [9261-14]
9261 0G	FY-3C/VIRR SST algorithm and cal/val activities at NSMC/CMA [9261-15]

SESSION 3 BIOLOGY/BIOGEOCHEMISTRY APPLICATIONS I

9261 0K	Light absorption properties of colored dissolved organic matter (CDOM) in adjacent waters of the Changjiang Estuary during a flood season: implication for DOC estimation [9261-19]
9261 0L	Satellite chlorophyll-a annual bloom characterization in Northeast Brazil, western tropical Atlantic [9261-20]

- 9261 OM **Influence of CDOM and particle composition on ocean color of the Eastern New Caledonia Lagoon during the CALIOPE cruises** [9261-21]
- 9261 ON **Geospatial dynamic of seagrass in outer zone, Spermonde Archipelago, Indonesia using Landsat data from 1972–2013** [9261-22]

SESSION 4 BIOLOGY/BIOGEOCHEMISTRY APPLICATIONS II

- 9261 OO **Lidar monitoring of organic matter in the Pearl River Estuary** [9261-69]
- 9261 OP **Study on the detection of red-tide outbreaks using big satellite database** [9261-24]
- 9261 OQ **Features of satellite remote sensing of seawater biological parameters in the eastern part of Russian Arctic waters** [9261-25]
- 9261 OR **The multi-timescale variability of the ocean physical-biological association in the tropical Pacific** [9261-26]
- 9261 OS **Quasi-simultaneous measurements of suspended sediments concentration (SSC) of very turbid waters at the Yellow River Estuary with the multi-spectral HJ-1 Imageries and in-situ sampling** [9261-28]

SESSION 5 PHYSICAL OCEANOGRAPHY APPLICATIONS I

- 9261 OU **The upper ocean environment responses to typhoon Prapiroon (2012)** [9261-30]
- 9261 OV **Remote sensing monitoring of thermal discharge in Daya Bay Nuclear Power Station based on HJ-1 infrared camera** [9261-31]

SESSION 6 PHYSICAL OCEANOGRAPHY APPLICATIONS II

- 9261 OY **Ship wake and oil slick observed by multi-sensor** [9261-36]
- 9261 OZ **Estimation of particulate organic carbon in the ocean from space-based polarization lidar measurements** [9261-67]
- 9261 14 **Solaris' information system for ship's navigation, using operational analysis of shipboard and satellite remote sensing data of hydrosphere and atmosphere** [9261-41]

POSTER SESSION

- 9261 15 **The significant wave height estimation by the azimuth cutoff of the quad-polarization SAR image** [9261-42]
- 9261 17 **Estimating the marine signal in the near infrared for atmospheric correction of satellite ocean-color imagery over turbid waters** [9261-44]

- 9261 18 **Evaluation of ocean color products from Korean Geostationary Ocean Color Imager (GOCI) in Jiaozhou Bay and Qingdao coastal area [9261-45]**
- 9261 19 **MODIS-based retrieval of suspended sediment concentration and diffuse attenuation coefficient in Chinese estuarine and coastal waters [9261-46]**
- 9261 1A **Quantitative estimation of Secchi disk depth using the HJ-1B CCD image and in situ observations in Sishili Bay, China [9261-47]**
- 9261 1B **Research on the effects of offing fog on millimeter wave propagation [9261-48]**
- 9261 1C **Automatic detection of marine surfactants by MODIS sunglint imagery: a study case of biogenic films off the southeastern coast of Brazil [9261-50]**
- 9261 1D **El Niño indices based on subareas of SST in Pacific [9261-52]**
- 9261 1E **Monitoring of marine debris in the Sea of Japan using multi-spectral satellite images [9261-54]**
- 9261 1G **Spatial and temporal variability of SST in the Zhejiang coastal waters during 2003–2013 [9261-56]**
- 9261 1H **VIIRS ocean color data visualization and processing with IDL-based NOAA-SeaDAS [9261-57]**
- 9261 1I **VIIRS RDR to SDR data processing for ocean color EDR [9261-58]**
- 9261 1J **Monitoring Secchi depth of the Yellow Sea and the East China Sea using a semi-analytical algorithm [9261-59]**
- 9261 1K **Colored dissolved organic matter inversion based on the spectral reflectance data of the Yuqiao Reservoir [9261-60]**
- 9261 1O **On-orbit spectral calibration method for imaging spectrometer using atmospheric O₂ absorption peak and Pr-Nd glass characteristic spectra [9261-64]**
- 9261 1R **Phytoplankton global mapping from space with a support vector machine algorithm [9261-68]**
- 9261 1S **A statistical algorithm for estimating chlorophyll concentration from MODIS data [9261-70]**

Authors

Numbers in the index correspond to the last two digits of the six-digit citation identifier (CID) article numbering system used in Proceedings of SPIE. The first four digits reflect the volume number. Base 36 numbering is employed for the last two digits and indicates the order of articles within the volume. Numbers start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B...0Z, followed by 10-1Z, 20-2Z, etc.

Symposium Committees

Symposium Chairs

Upendra Singh, NASA Langley Research Center (United States)

Jiancheng Shi, Institute of Remote Sensing Applications and Digital Earth (China)

Honorary Symposium Chairs

George Komar, NASA Headquarters (United States)

Toru Fukuda, Japan Aerospace Exploration Agency (Japan)

Deren Li, Wuhan University (China)

Shailesh R. Nayak, Ministry of Earth Sciences (India)

Guanhua Xu, Former Minister of Science and Technology Department of China (China)

Symposium Co-chairs

Toshio Iguchi, National Institute of Information and Communications Technology (Japan)

A. S. Kiran Kumar, Space Applications Center (India)

International Organizing and Technical Program Committee

Akimasa Sumi, The University of Tokyo (Japan)

Allen M. Larar, NASA Langley Research Center (United States)

Delu Pan, The Second Institute of Oceanography, SOA (China)

Haruhisa Shimoda, Tokai University (Japan)

Huadong Guo, Institute of Remote Sensing and Digital Earth (China)

Jiancheng Shi, Institute of Remote Sensing and Digital Earth (China)

Jing Ming Chen, Nanjing University (China) and University of Toronto (Canada)

Kazuhiro Asai, Tohoku Institute of Technology (Japan)

Kohei Mizutani, National Institute of Information and Communications Technology (Japan)

Peng Gong, Tsinghua University (China)

Peng Zhang, China Meteorological Administration (China)

Robert J. Frouin, Scripps Institution of Oceanography (United States) and University of California, San Diego (United States)

Shunlin Liang, Beijing Normal University (China) and University of Maryland (United States)

Thomas J. Jackson, U. S. Department of Agriculture (United States)

Tiruvalam N. Krishnamurti, Florida State University (United States)
Toru Fukuda, Japan Aerospace Exploration Agency (Japan)
Toshiyoshi Kimura, Japan Aerospace Exploration Agency (Japan)
Upendra N. Singh, NASA Langley Research Center (United States)
Xiaoxiong Xiong, NASA Goddard Space Flight Center (United States)
Zhanqing Li, Beijing Normal University (China) and University of
Maryland, College Park (United States)
Guoqing Zhou, Guilin University of Technology (China)

Local Organizing Committee

Liangfu Chen, Institute of Remote Sensing and Digital Earth (China)
Zifeng Wang, Institute of Remote Sensing and Digital Earth (China)
Mingmei Chen, Institute of Remote Sensing and Digital Earth (China)
Dandan Li, Institute of Remote Sensing and Digital Earth (China)
Tianxing Wang, Institute of Remote Sensing and Digital Earth (China)
Xiliang Ni, Institute of Remote Sensing and Digital Earth (China)
Xiaofeng Yang, Institute of Remote Sensing and Digital Earth (China)
Ying Zhang, Institute of Remote Sensing and Digital Earth (China)
Tiantian Wang, Institute of Remote Sensing and Digital Earth (China)
Xiaoying Ouyang, Institute of Remote Sensing and Digital Earth
(China)
Le Yang, Institute of Remote Sensing and Digital Earth (China)
Man Peng, Institute of Remote Sensing and Digital Earth (China)

Conference Committee

Conference Chairs

Robert J. Frouin, Scripps Institution of Oceanography (United States)
and University of California, San Diego (United States)
Delu Pan, The Second Institute of Oceanography, SOA (China)
Hiroshi Murakami, Japan Aerospace Exploration Agency (Japan)
Young Baek Son, Korea Institute of Ocean Science & Technology
(Korea, Republic of)

Conference Program Committee

David P. Doxaran, Observatoire Océanologique de Villefranche sur
Mer (France)
Cécile Dupouy, Institut de Recherche pour le Développement
(New Caledonia)
Joji Ishizaka, Nagoya University (Japan)
Xingwei Jiang, National Satellite Ocean Application Service (China)
Zhongping Lee, University of Massachusetts Boston (United States)
Hubert Loisel, Laboratoire d'Océanologie et de Géosciences
(France)
Milton Kampel, Instituto Nacional de Pesquisas Espaciais (Brazil)
Menghua Wang, NOAA Center for Satellite Applications and
Research (United States)

Session Chairs

- 1 Advances in Retrieval Techniques
Robert J. Frouin, Scripps Institution of Oceanography (United States)
and University of California, San Diego (United States)
- 2 Evaluation of Satellite Products
Robert J. Frouin, Scripps Institution of Oceanography (United States)
and University of California, San Diego (United States)
- 3 Biology/Biogeochemistry Applications I
Young Baek Son, Korea Institute of Ocean Science & Technology
(Korea, Republic of)
- 4 Biology/Biogeochemistry Applications II
Young Baek Son, Korea Institute of Ocean Science & Technology
(Korea, Republic of)

- 5 Physical Oceanography Applications I
Hiroshi Murakami, Japan Aerospace Exploration Agency (Japan)
- 6 Physical Oceanography Applications II
Hiroshi Murakami, Japan Aerospace Exploration Agency (Japan)
