Printed in the United States of America.

Publication of record for individual papers is online in the SPIE Digital Library.

SPIDigitalLibrary.org

Paper Numbering: Proceedings of SPIE follow an e-First publication model, with papers published first online and then in print and on CD-ROM. Papers are published as they are submitted and meet publication criteria. A unique, consistent, permanent citation identifier (CID) number is assigned to each article at the time of the first publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online, print, and electronic versions of the publication. SPIE uses a six-digit CID article numbering system in which:

- The first four digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc.

The CID Number appears on each page of the manuscript. The complete citation is used on the first page, and an abbreviated version on subsequent pages. Numbers in the index correspond to the last two digits of the six-digit CID Number.

ORAL SESSION

9280 02	The design of support structure of mirror subassembly of space remote sensor [9280-49] K. Wang, Changchun Institute of Optics, Fine Mechanics and Physics (China) and Univ. of Chinese Academy of Sciences (China); J. Dong, W. Li, Q. Guo, Y. Li, W. Zhao, H. Wang, M. Xuan, Changchun Institute of Optics, Fine Mechanics and Physics (China)
9280 03	Simulation analysis of on-orbit adjustment and compensation for large aperture optical system [9280-30] J. Liu, B. Li, D. Sun, N. Ruan, F. Zhou, Beijing Institute of Space Mechanics and Electricity (China)
9280 04	Locking and releasing system in space telescope [9280-52] Y. Wang, J. Dong, W. Li, W. Zhao, Changchun Institute of Optics, Fine Mechanics and Physics (China)
9280 05	Research on grinding block wear in grinding of SiC [9280-17] F. Zhang, G. Lu, M. Liu, D. Luan, Harbin Institute of Technology (China)
9280 06	Design scheme for optical manufacturing support system of TMT M3 prototype [9280-55] H. Hu, X. Luo, Changchun Institute of Optics, Fine Mechanics and Physics (China)
9280 07	Active edge control in the precessions polishing process for manufacturing large mirror segments [9280-50] H. Li, W. Zhang, Harbin Institute of Technology (China); D. Walker, Univ. College London (United Kingdom), OpTIC-Glyndŵr (United Kingdom) and Zeeko Ltd. (United Kingdom); G. Yu, Univ. College London (United Kingdom) and OpTIC-Glyndŵr (United Kingdom)
9280 08	Fabrication and metrology study for M3M of TMT [9280-51] X. Luo, Changchun Institute of Optics, Fine Mechanics and Physics (China)
9280 09	Environmental simulation evaluation of SSiC brazed optical mirrors [9280-16] Y. Liu, Shanghai Institute of Ceramics (China); Z. Ma, Xi'an Institute of Optics and Precision Mechanics (China); J. Chen, Z. Chen, X. Liu, Z. Huang, Shanghai Institute of Ceramics (China)

- 9280 0A **Status of cleanliness maintaining in target beam enclosures in SG III facilities and contamination sources analysis** [9280-67]
M. Wang, B. Wang, X. Miao, X. Cheng, W. Wu, Institute of Systems Engineering (China)
- 9280 0B **Experimental research on 3D reconstruction through range gated laser imaging** [9280-43]
S. Li, W. Lu, D. Zhang, C. Li, Z. Tu, Harbin Institute of Technology (China)

POSTER SESSION

- 9280 0C **The design and analysis of 2m telescope's K Mirror system** [9280-38]
P. Guo, J. Zhang, F. Yang, Y. Zhang, Changchun Institute of Optics, Fine Mechanics and Physics (China)
- 9280 0D **Disassembling and reintegration of large telescope primary mirror** [9280-28]
Q. Xu, Institute of Optics and Electronics (China) and Univ. of Chinese Academy of Sciences (China); B. Fan, M. Zhang, Institute of Optics and Electronics (China)
- 9280 0E **Simulation of segmented mirror telescope and calculating asphericity of segmented mirror** [9280-9]
Z. Liao, Institute of Optics and Electronics (China), Univ. of Electronic Science and Technology of China (China), The Key Lab. on Adaptive Optics (China), and Univ. of Chinese Academy of Sciences (China); Q. Qiu, Univ. of Electronic Science and Technology of China (China); Y. Zhang, Institute of Optics and Electronics (China) and The Key Lab. on Adaptive Optics (China)
- 9280 0F **Analysis and optimization of mounting configuration of large aperture optics** [9280-14]
B. Feng, Harbin Institute of Technology (China) and Research Ctr. on Laser Fusion (China); L. Lu, H. Liu, R. Su, Z. Lv, Harbin Institute of Technology (China)
- 9280 0G **Processing and error compensation of diffractive optical element** [9280-15]
Y. Zhang, Z. Wang, F. Zhang, Xi'an Institute of Applied Optics (China); H. Qin, Shaanxi Haitong Antenna Co., Ltd. (China); J. Li, Y. Mai, Xi'an Institute of Applied Optics (China)
- 9280 0H **Study of inverted thermal evaporation for large mirror** [9280-24]
W. Pei, H. Liu, Institute of Optics and Electronics (China)
- 9280 0I **Study on the sensitivity of temperature gradient for large aperture SiC lightweight mirror based on active optics** [9280-36]
X. Liu, Changchun Institute of Optics, Fine Mechanics and Physics (China) and Univ. of Chinese Academy of Sciences (China); J. Zhang, X. Wu, J. Li, P. Guo, Q. An, Changchun Institute of Optics, Fine Mechanics and Physics (China)
- 9280 0J **Integrated modeling and dynamics simulation for the TMT-M3 control system** [9280-22]
Y. Deng, Changchun Institute of Optics, Fine Mechanics and Physics (China) and Univ. of Chinese Academy of Sciences (China); H. Li, F. Yang, J. Wang, Changchun Institute of Optics, Fine Mechanics and Physics (China); Y. Su, H. Zhao, Changchun Institute of Optics, Fine Mechanics and Physics (China) and Univ. of Chinese Academy of Sciences (China)

- 9280 OK **Optimization design and simulation analysis for the key components of 1m aperture photoelectric theodolite** [9280-58]
X. San, Y. Qiao, S. Yu, T. Wang, J. Tang, Changchun Institute of Optics, Fine Mechanics and Physics (China)
- 9280 OL **Structure performance analysis for TMT tertiary mirror system** [9280-33]
Y. Su, Changchun Institute of Optics, Fine Mechanics and Physics (China) and Univ. of Chinese Academy of Sciences (China); J. Zhang, F. Yang, H. Wang, B. Chen, Changchun Institute of Optics, Fine Mechanics and Physics (China)
- 9280 OM **Study of tilt axis bearing arrangement for M3S of TMT project** [9280-31]
H. Zhao, Changchun Institute of Optics, Fine Mechanics and Physics (China) and Univ. of Chinese Academy of Sciences (China); J. Zhang, F. Yang, Q. An, Changchun Institute of Optics, Fine Mechanics and Physics (China); Y. Su, Changchun Institute of Optics, Fine Mechanics and Physics (China) and Univ. of Chinese Academy of Sciences (China); P. Guo, Changchun Institute of Optics, Fine Mechanics and Physics (China)
- 9280 ON **A secondary mirror adjustment system with hexapod structure for optical telescope application** [9280-18]
N. Zhou, Xi'an Institute of Optics and Precision Mechanics (China) and Univ. of Chinese Academy of Sciences (China); C. Li, W. Gao, Z. Song, Xi'an Institute of Optics and Precision Mechanics (China); C. Zhao, G. Ren, N. Jing, Xi'an Institute of Optics and Precision Mechanics (China) and Univ. of Chinese Academy of Sciences (China)
- 9280 OO **Analysis on the alignment errors of segmented Fresnel lens** [9280-59]
X. Zhou, Institute of Optics and Electronics (China) and Univ. of Chinese Academy of Sciences (China); S. Wu, W. Yang, Institute of Optics and Electronics (China); L. Wang, Institute of Optics and Electronics (China) and Univ. of Chinese Academy of Sciences (China)
- 9280 OP **Research on the measurement technology of effective arm length of swing arm profilometer** [9280-63]
L. Chen, Institute of Optics and Electronics (China) and Univ. of Chinese Academy of Sciences (China); H. Jing, Institute of Optics and Electronics (China); Z. Wei, Institute of Optics and Electronics (China) and Univ. of Chinese Academy of Sciences (China); J. Li, X. Cao, Institute of Optics and Electronics (China)
- 9280 OQ **Influence of surface treatment of components on thermal radiation performance in infrared optical systems** [9280-7]
W. Luo, J. Wu, J. Peng, B. Zhang, Sichuan Univ. (China)
- 9280 OR **Influence of particle contamination on the stray radiation performance in infrared optical system** [9280-5]
J. Wu, J. Peng, W. Luo, B. Zhang, Sichuan Univ. (China)
- 9280 OS **Research on the performance of thermal shock and stress with infrared optical domes** [9280-65]
Y. Gao, J. Qiao, Nanyang Institute of Technology (China); J. Niu, Y. Xu, Nanyang Institute of Technology (China) and Nanjing Univ. of Science and Technology (China); Y. Yang, Beijing Univ. of Aeronautics and Astronautics (China)

- 9280 OT **The design method of CGH for testing the $\Phi 404$, F2 primary mirror** [9280-11]
N. Xie, Xi'an Institute of Optics and Precision Mechanics (China) and Univ. of Chinese Academy of Sciences (China); X. Duan, H. Li, Xi'an Institute of Optics and Precision Mechanics (China)
- 9280 OU **Test of a prototype of lightweight, active mirrors** [9280-37]
W. Lu, H. Zhou, X. Fan, Institute of Optics and Electronics (China), Key Lab. on Adaptive Optics (China), and Univ. of Chinese Academy of Sciences (China); C. Guan, C. Rao, Institute of Optics and Electronics (China) and Key Lab. on Adaptive Optics (China)
- 9280 OV **Influence of humidity on CO₂ gas sensors based on polyetherimide polymer film** [9280-26]
T. Kang, G. Xie, Y. Zhou, T. Xie, H. Tai, Univ. of Electronic Science and Technology of China (China)
- 9280 OW **Dynamics analysis on adhesive bonds of tilt mirror** [9280-25]
S. Cao, Xi'an Institute of Optics and Precision Mechanics (China) and Univ. of Chinese Academy of Sciences (China); P. Ruan, Xi'an Institute of Optics and Precision Mechanics (China); C. Wang, Xi'an Institute of Optics and Precision Mechanics (China) and Univ. of Chinese Academy of Sciences (China); G. Xu, Xi'an Institute of Optics and Precision Mechanics (China)
- 9280 OX **The design of an active support control system for a thin 1.2m primary mirror** [9280-53]
R. Liu, Institute of Optics and Electronics (China) and Univ. of Chinese Academy of Sciences (China); X. Li, Institute of Optics and Electronics (China); H. Liu, H. Wang, Institute of Optics and Electronics (China) and Univ. of Chinese Academy of Sciences (China)
- 9280 OY **Research on the support truss structure of foreign space remote sensor with large-scale and flexibility** [9280-47]
M. An, Changchun Institute of Optics, Fine Mechanics and Physics (China) and Univ. of Chinese Academy of Sciences (China); J. Dong, W. Li, Q. Guo, Y. Li, W. Zhao, H. Wang, Changchun Institute of Optics, Fine Mechanics and Physics (China)
- 9280 OZ **Improvement of active lap processing in grinding of 1.8m primary mirror** [9280-13]
H. Liu, Institute of Optics and Electronics (China) and Univ. of Chinese Academy of Sciences (China); F. Wu, Z. Zeng, B. Fan, Y. Wan, Y. Zhang, L. Xian, Institute of Optics and Electronics (China)
- 9280 10 **Lightweight design of the rectangular mirror using topology optimization** [9280-3]
M. Xiang, Xi'an Institute of Optics and Precision Mechanics (China) and Univ. of Chinese Academy of Sciences (China); F. Li, Xi'an Institute of Optics and Precision Mechanics (China)
- 9280 11 **Theory of circular plate for mirrors on back-point support** [9280-8]
Y. Liang, Xi'an Institute of Optics and Precision Mechanics (China) and Univ. of Chinese Academy of Sciences (China); S. Zhou, Xi'an Institute of Optics and Precision Mechanics (China); B. Jiang, Xi'an Institute of Optics and Precision Mechanics (China) and Univ. of Chinese Academy of Sciences (China)
- 9280 12 **A compact multi-core CPU based adaptive optics real-time controller** [9280-23]
S. Chen, Institute of Optics and Electronics (China) and Univ. of Electronic Science and Technology of China (China); E. Zhao, B. Xu, Institute of Optics and Electronics (China); Y. Ye, Univ. of Electronic Science and Technology of China (China)

- 9280 13 **Test and study on mirror quality of ultra-precision diamond turning** [9280-95]
Y. Chang, T. Sun, Z. Li, B. Wu, Harbin Institute of Technology (China)
- 9280 14 **Testing the large convex aspheric surfaces with aspheric test plate** [9280-64]
Y. Zhang, Institute of Optics and Electronics (China) and Univ. of Chinese Academy of Sciences (China); Q. Chen, Institute of Optics and Electronics (China)
- 9280 15 **Optimized design and research for cylindrical electrically controlled box of space camera** [9280-57]
H. Wang, Y. Li, J. Dong, Q. Guo, K. Wang, Y. Wang, Changchun Institute of Optics, Fine Mechanics and Physics (China)
- 9280 16 **Attitude angular measurement system based on MEMS accelerometer** [9280-96]
L. Luo, Armed Police Engineering Univ. (China)
- 9280 17 **A new method on measuring radius of curvature of a conic aspherical mirror** [9280-61]
C. Huang, Institute of Optics and Electronics (China) and Univ. of Chinese Academy of Sciences (China); Y. Wu, B. Fan, Institute of Optics and Electronics (China); F. Yan, F. Liu, Y. Zhang, Institute of Optics and Electronics (China) and Univ. of Chinese Academy of Sciences (China)
- 9280 18 **Athermal design for infrared refractive, diffractive, reflective hybrid optical system** [9280-29]
X. Cheng, Institute of Optics and Electronics (China) and Univ. of Chinese Academy of Sciences (China); W. Xie, Institute of Optics and Electronics (China); Y. Bai, Institute of Optics and Electronics (China), Univ. of Chinese Academy of Sciences (China), and Univ. of Electronic Science and Technology of China (China); X. Jia, T. Xing, Institute of Optics and Electronics (China)
- 9280 19 **Image processing of metal surface with structured light** [9280-56]
C. Luo, Institute of Optics and Electronics (China) and Univ. of Chinese Academy of Sciences (China); C. Feng, C. Wang, Institute of Optics and Electronics (China)
- 9280 1A **Static characteristic measurement of MEMS deformable mirror with phase-shift interferometer** [9280-41]
K. Wu, D. Cai, D. Wang, J. Peng, Taiyuan Univ. of Technology (China)

Author Index

Symposium Committee

Honorary Chair

Bingkun Zhou, Chinese Optical Society (China)

Symposium General Chair

Liwei Zhou, Beijing Optical Society (China)

Symposium General Co-chairs

Jianlin Cao, Ministry of Science and Technology of China
H. Philip Stahl, NASA Marshall Space Flight Center (United States)
Yudong Zhang, Institute of Optics and Electronics (China)
Larry Stepp, Thirty Meter Telescope Project (United States)
Yingchun Liang, Harbin Institute of Technology (China)
Yu Yao, Harbin Engineering University (China)

International Academic Committee

Wenhan Jiang, Chair, Chinese Academy of Engineering (China)
Liwei Zhou, Chinese Academy of Engineering (China) and Beijing
Institute of Technology (China)
Harald Giessen, University of Stuttgart (Germany)
Junhua Pan, Chinese Academy of Engineering (China) and
Soochow University (China)
Myung K. Cho, National Optical Astronomy Observatory
(United States)

Organizing Committee

Yudong Zhang, Co-chair, IOE, CAS (China)
Jinghua Cao, Co-chair, Bureau of International Cooperation, CAS
(China)
Libin Xiang, Co-chair, Shanghai Engineering Center for Microsatellites
(China)
Yadong Jiang, Co-chair, University of Electronic Science and
Technology (China)

Program Committee

Xiangdi Lin, Chair, Chinese Academy of Engineering (China)

Hu Yang, Co-chair, IOE, CAS (China)

Wei Gao, Co-chair, Tohoku University (Japan)

Huadong Yu, Co-chair, Changchun University of Science and Technology (China)

Secretary General of the Symposium

Li Yang, Committee of Optical Manufacturing Technology, COS (China)

Session Chairs

Session 1-1 Fan Wu

Session 2-1 Qiming Xin

Session 3-1 Shangming Wen

Session 4-1 Tingwen Xin

Session 5-1 Xiao Wang

Session 6-1 Xiangang Luo

Session 1-2 Bin Fan

Session 2-2 Shengyi Li

Session 3-2 Rongzhu Zhang

Session 4-2 Qingliang Zhao

Session 5-2 Yige Qi

Session 6-2 Changtao Wang

Introduction

The 7th International Symposium on Advanced Optical Manufacturing and Testing Technology (AOMATT) was held 26–29 April 2014 at the Harbin International Conference Center, China.

AOMATT 2014 was kicked off with a formal opening ceremony. The ceremony started with the introduction of VIP guests, symposium chairs, conference chairs, and plenary speakers, followed by opening speeches by Prof. Liwei Zhou, AOMATT 2014 Symposium Chairman, Prof. Bin Xu, Vice President of IOE, a sponsor of AOMATT 2014, and Prof. Yingchun Liang, Assistant President of Harbin Institute of Technology, a local co-sponsor of AOMATT 2014. Dr. H. Philip Stahl, 2014 President of SPIE, technical cosponsor of AOMATT 2014, could not attend the symposium this year due to a schedule conflict, but sent his congratulation letter. In his letter, Dr. Stahl gave high marks for AOMATT and stated:

AOMATT is a very successful collaboration between SPIE, the Institute of Optics and Electronics of the Chinese Academy of Sciences, and the Chinese Optical Society. It has become a well-known international symposium on advanced optical manufacturing and testing technologies. The vision of AOMATT is closely aligned with SPIE's mission to promote optics and photonics around the world.

All of the conference sponsors and attendees greatly appreciate SPIE and Dr. Stahl's long-standing support of AOMATT since its inception in 2002.

The plenary sessions started immediately after the conclusion of the opening ceremony. There were a total of nine plenary presentations: Dr. Larry Stepp, Telescope Department Head for the Thirty Meter Telescope (TMT) Project, USA, presented "Manufacturing the Optics for the Thirty Meter Telescope"; Dr. Bernard Delabre, Optical Design Engineer of European Southern Observatory (ESO), Germany, presented "The Progress of the European Extremely Large Telescope"; Dr. Tao Sun, Director of the Centre for Precision Engineering(CPE) of Harbin Institute of Technology, presented "Method and procedure for the high-efficiency and ultra-precision diamond turning of large optical mirrors"; Dr. Wei Gao, Professor and Director of Research Center for Precision Nanosystems, Dept. of Nanomechanics of Tohoku University, Japan, presented "Precision nanometrology for fabrication of micro optics"; Dr. Xuejun Zhang, Vice President of Changchun Institute of Optics, Fine Mechanics and Physics (CIOMP), CAS, presented "Advanced manufacturing and testing technologies for multiple mirror space telescopes"; Dr. A.G. Poleshchuk, Head of the Laboratory of Diffractive Optics, and Dr. Victor P. Korolkov, senior scientist of Institute of Automation and Electrometry, Siberian Branch of Russian Academy of Sciences, Novosibirsk, Russia, presented "Diffractive optical elements: fabrication and application"; Dr.

Axel Schindler, Science and Technology Consultant of Leibniz Institute of Surface Modification (IOM), Germany, presented "Advanced ion beam finishing and atmospheric plasma technology for high end optics"; Dr. Harald Giessen, Chair for Ultrafast Nano-Optics in the Department of Physics at the University of Stuttgart, Germany, presented "Complex hybrid plasmonics: new materials and new functionalities"; Dr. Xiangang Luo, Director of State Key Laboratory of Optical Technologies on Nano-Fabrication and Micro-Engineering of Institute of Optics and Electronics, CAS, presented "Manipulating the polarization states of electromagnetic waves using subwavelength structures". More than 600 people attended the opening ceremony and the full-day plenary sessions.

More than 400 oral and poster papers were selected for AOMATT 2014. About 102 oral papers were presented in six parallel conference sessions on 27 April. A special Technical Workshop was held in the morning of 28 April. An all-symposium poster session was held in the afternoon of 28 April. Authors and attendees had active discussions and exchange of ideas throughout the symposium. Many papers presented cutting-edge research and development work in optical design, manufacturing, and testing. The success of AOMATT 2014 continued the tradition of focus and excellence of this biannual international topical symposium in China.

We would like to express our sincere appreciation to COS—The Chinese Optical Society, IOE—Institute of Optics and Electronics, Chinese Academy of Sciences, and to SPIE for sponsoring and supporting AOMATT 2014. We would like to thank all chairs, committee members, authors, and attendee for their contributions to the symposium and sharing their research with colleagues around the world.

The 8th AOMATT is planned for 2016, and we look forward to seeing everyone at AOMATT 2016. Please watch for the Call for Papers and symposium announcements on the SPIE, IOE and COS web sites.

Li Yang
Secretary General, AOMATT 2014
