Paper Numbering: Proceedings of SPIE follow an e-First publication model, with papers published first online and then in print. Papers are published as they are submitted and meet publication criteria. A unique citation identifier (CID) number is assigned to each article at the time of the first publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online, print, and electronic versions of the publication. SPIE uses a six-digit CID article numbering system in which:

- The first four digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc.

The CID Number appears on each page of the manuscript. The complete citation is used on the first page, and an abbreviated version on subsequent pages.

Introduction

SPIE's 2nd International Conference on Nano-Bio Sensing, Imaging, and Spectroscopy (hereby NBSIS 2015) was organized by The Optical Society of Korea, The Korean Sensors Society, The Korea Bio Chip Society, and sponsored by SPIE. The principal goal of the NBSIS 2015 was to create a central forum for the presentation and discussion of the latest scientific and technical advances in the field of nano-bio based sensing, imaging, and spectroscopy, and their applications in research, development, and technical innovation. The meeting also provided an opportunity for suggesting development directions of technology along with information sharing and cooperation among researchers.

The NBSIS 2015 technical program consisted of four plenary talks, 82 oral presentations, and 42 poster presentations. We wish to thank every participant who presented high quality research results. The 22 papers in these proceedings were selected for publication after peer-review.

The next conference will be held in 2017 at the International Convention Center Jeju in Jeju Island, Korea. Your continued interest and concern will be greatly appreciated.

Seung-Han Park
General Chair of NBSIS 2015
