Paper Numbering: *Proceedings of SPIE* follow an e-First publication model. A unique citation identifier (CID) number is assigned to each article at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a six-digit CID article numbering system structured as follows:

- The first four digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Introduction

The Three-Dimensional Imaging, Visualization, and Display 2016 conference chairs are very thankful to the more than 50 authors and presenters of papers in this volume for their fine contributions. This conference was initiated in 2000 by Prof. Javidi of University of Connecticut and Dr. Fumio Okano of NHK (Japan), and was chaired by them until 2004. In 2005, Prof. Jung Yong Son of Konyang University (Korea, Republic of) joined the conference as a chair. In 2009, Drs. Manuel Martínez Corral, Osamu Matoba, and Adrian Stern joined as additional co-chairs.

The Fumio Okano Best Paper award was created by support from NHK-ES (NES) which is an NHK subsidiary company.

This year was the second year for the award presentation for papers submitted to the conference in 2015, that is, *Three-Dimensional Imaging, Visualization, and Display 2015*. The award, sponsored by N was presented to the following papers:

- Three-dimensional Microscopy Through Liquid-lens Axial Scanning (Manuel Martínez Corral received the award trophy on behalf of all authors)
- Lightfield super-resolution through turbulence (Jose Manuel Ramos received the award trophy on behalf of all authors)
- Integral imaging acquisition and processing for human gesture recognition (Filibert Pla received the award trophy on behalf of all authors).

We congratulate all authors for the Best Papers.

The Fumio Okano Best Paper award will be used to improve the quality of papers submitted to the conference and to recognize the best submitted papers. We will try to fulfill these goals in memory of Dr. Okano.
