Volume 9868

Proceedings of SPIE 0277-786X, V. 9868

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

Dimensional Optical Metrology and Inspection for Practical Applications V,
edited by Kevin G. Harding, Song Zhang, Proc. of SPIE Vol. 9868, 986801
© 2016 SPIE · CCC code: 0277-786X/16/\$18 · doi: 10.1117/12.2244097

Proc. of SPIE Vol. 9868 986801-1

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIEDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Dimensional Optical Metrology and Inspection for Practical Applications V*, edited by Kevin G. Harding, Song Zhang, Proceedings of SPIE Vol. 9868 (SPIE, Bellingham, WA, 2016) Six-digit Article CID Number.

Paper Numbering: *Proceedings of SPIE* follow an e-First publication model. A unique citation identifier (CID) number is assigned to each article at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a six-digit CID article numbering system structured as follows:

- The first four digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

v	Authors
vii	Conference Committee

SESSION 1	OPTICAL METROLOGY ANALYSIS
9868 02	Detailed analysis of an optimized FPP-based 3D imaging system [9868-1]
9868 03	A comparative study on 3D range data compression methods [9868-2]
9868 04	A guide to properly select the defocusing distance for accurate solution of transport of intensity equation while testing aspheric surfaces [9868-3]
9868 05	ISO 10360 verification tests applied to CMMs equipped with a laser line scanner [9868-5]
9868 06	Effects of light wavelength and coherence in structured light sensors [9868-6]
SESSION 2	OPTICAL METROLOGY APPLICATIONS
9868 09	DeSCJOB: the deep space cam joined observation bot [9868-9]
9868 0A	An algorithm to estimate building heights from Google street-view imagery using single view metrology across a representational state transfer system [9868-10]
9868 0B	Design of an aid to visual inspection workstation [9868-11]
9868 0C	Non-destructive 3D shape measurement of transparent and black objects with thermal fringes [9868-12]
SESSION 3	OPTICAL METROLOGY METHODS
9868 0D	Multi-focus, high resolution inspection system for extended range applications [9868-13]
9868 0E	High-contrast 3D surface measurement without changing camera exposures [9868-14]
9868 0F	GOBO projection-based high-speed three-dimensional shape measurement [9868-15]
9868 0G	Computed tomography: a powerful imaging technique in the fields of dimensional metrology and quality control [9868-16]
9868 0H	SLM-based tomography of phase objects using single-shot transport of intensity technique [9868-17]
9868 0I	High contrast imaging through adaptive transmittance control in the focal plane [9868-18]

9868 0J **Fiber faceplate modulation readout in Bi-material micro-cantilever mirror array imaging system** [9868-19]

Authors

Numbers in the index correspond to the last two digits of the six-digit citation identifier (CID) article numbering system used in Proceedings of SPIE. The first four digits reflect the volume number. Base 36 numbering is employed for the last two digits and indicates the order of articles within the volume. Numbers start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B...0Z, followed by 10-1Z, 20-2Z, etc.

Conference Committee

Symposium Chair

Ming C. Wu, University of California, Berkeley (United States)

Symposium Co-chair

Majid Rabbani, Eastman Kodak Company (United States)

Conference Chairs

Kevin G. Harding, GE Global Research (United States)

Song Zhang, Purdue University (United States)

Conference Co-chair

Edward W. Reutzel, Applied Research Laboratory (United States)

Conference Program Committee

Yasuhiko Arai, Kansai University (Japan)

Harbans S. Dhadwal, Omnitek Partners, LLC (United States)

Khaled J. Habib, Kuwait Institute for Scientific Research (Kuwait)

Katsuichi Kitagawa, Consultant (Japan)

Peter Kühmstedt, Fraunhofer-Institut für Angewandte Optik und
Feinmechanik (Germany)

Georges Nehmetallah, The Catholic University of America
(United States)

Yukitoshi Otani, Utsunomiya University (Japan)

Takamasa Suzuki, Niigata University (Japan)

Joseph D. Tobiasson, Micro Encoder Inc. (United States)

Jiangtao Xi, University of Wollongong (Australia)

Toru Yoshizawa, NPO 3D Associates (Japan)

Session Chairs

- 1 Optical Metrology Analysis
Kevin G. Harding, GE Global Research (United States)
- 2 Optical Metrology Applications
Edward W. Reutzel, Applied Research Laboratory (United States)

- 3 Optical Metrology Methods
Georges Nehmetallah, The Catholic University of America
(United States)
Song Zhang, Purdue University (United States)
