[DOI: 10.1117/1.JBO.17.8.089802]

This article [J. Biomed. Opt. 17, 080504 (2012)] was originally published online on 16 August 2012 with errors in the caption and callout of Fig. 1. A sentence was removed from the caption, and two references to figure parts were changed in text.

On p. 2, column 2, the first full sentence was changed from:

"In addition, our data showed significantly increased fluorescent intensities in the ILN of HSD-fed mice as compared to baseline, indicating increased lymph flow. Similar to these results in mice, our data also demonstrated dilated lymphatic vessels in the ear of rats fed a HSD [Fig. 1(f)], which were confirmed by immunofluorescence staining of lymphatic vessels [Fig. 1(d) and 1(h)]."

To:

"In addition, our data showed significantly increased fluorescent intensities in the ILN of HSD-fed mice as compared to baseline, indicating increased lymph flow [Fig. 1(c)]. Similar to these results in mice, our data also demonstrated dilated lymphatic vessels in the ear of rats fed a HSD [Fig. 1(f)], which were confirmed by immunofluorescence staining of lymphatic vessels (data not shown)."

Figure [1] and the corrected caption are reprinted here. All versions of the article were corrected on 21 August 2012.
