This article [J. Biomed. Opt. 18, 061223 (2013)] was originally published online on 7 January 2013 with an error in the caption for Fig 1. The corrected caption appears below.

![Image of a melanoma specimen with SIAscopic indicated areas of increased dermal melanin content outlined with green and violet dots/lines. The planes of sectioning are indicated with black lines (\[C3\]). The parallel horizontal reference lines are inked with red and green and the oblique reference line with blue color. Note the small proportions of the lesion with SIAscopic signal displaying dermal melanin.]

This article was corrected online on 16 January 2013.
