This article [*Opt. Eng.* **53**(1), 013109 (2014)] was originally published on 3 February 2014 with Fig. 18 duplicated as Fig. 19. The missing Fig. 19 is reprinted below.

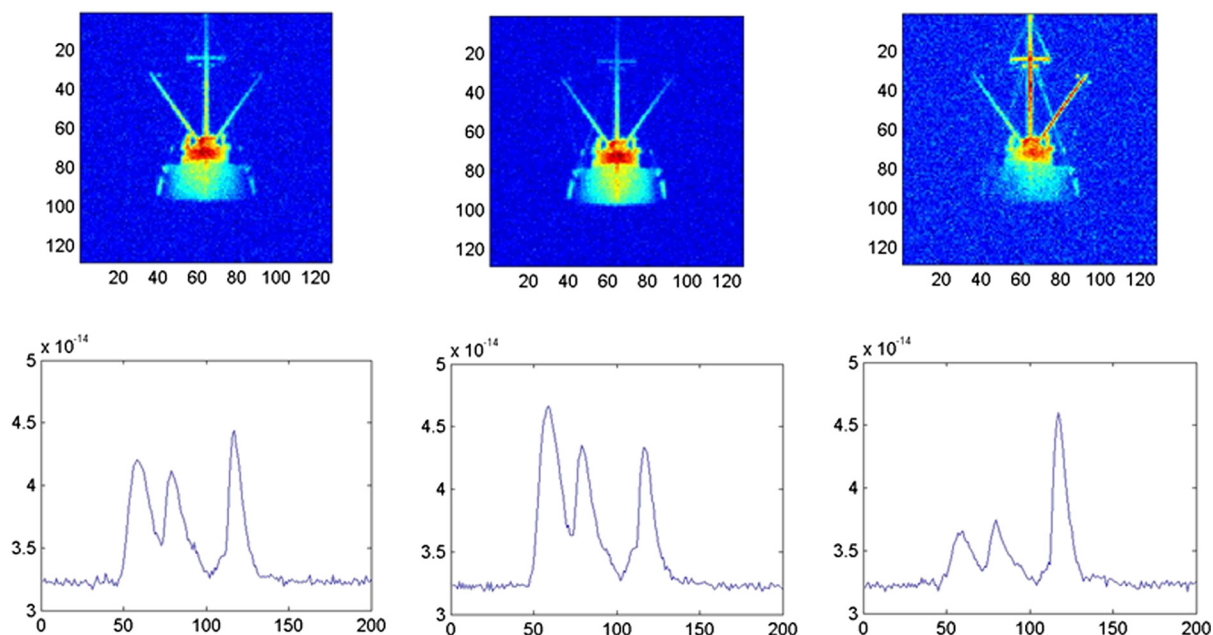

Fig. 19 Illustration of the effect of large beam jitter with an rms value equal to 1/3 of the field-of-view (FOV). The peak positions remain unchanged but not the mutual peak amplitudes.

The paper was corrected online on 7 February 2014. It appears correctly in print.
