The pdf version of this article [*J. Appl. Remote Sens.* **8**(1), 083624 (May 22, 2014)] contained several errors that interfered with the intended meaning of soil moisture values. In the abstract, “ $ME \approx -15 \times m^3 \cdot m^{-3}$ volumetric SM” should appear as “ $ME \approx -15 m^3 \cdot m^{-3}$ volumetric SM,” and “ $ME \approx -20 \times m^3 \cdot m^{-3}$ ” should appear as “ $ME \approx -20 m^3 \cdot m^{-3}$.” In the first full paragraph on Page 14, “ $\sim 5 m^3 \cdot m^{-3} \times \text{volumetric} \times SM$ ” should appear as “ $\sim 5 m^3 \cdot m^{-3}$ volumetric SM.” The pdf version of the article was corrected on 23 May 2014.
