This article [*J. Med. Imag.* 3(2), 023503 (2016)] was originally published online on 6 May 2016 with a copyeditor error in the abstract. The sentence “The data-model agreement expressed as weighted coefficient of variation (COV_w) was better than $\text{COV}_w = 20\%$ for dead time losses...” has been changed to read: “The data-model agreement expressed as weighted

coefficient of variation (COV_w) was better than $\text{COV}_w = 2.0\%$ for dead time losses...” The COV_w value was missing a decimal point.

This article was corrected online on 11 May 2016. It appears correctly in print.
