Originally published on 28 April 2015, this article [*Opt. Eng.* **54**(4), 047105 (2015) DOI: [10.1117/1.OE.54.4.047105](https://doi.org/10.1117/1.OE.54.4.047105)] left off an author. Kocēila Yadel performed optical measurements on the polarizer, which was reported in an SPIE conference [*Proc. SPIE* **9130**, 913008 (2014) DOI: [10.1117/12.2051429](https://doi.org/10.1117/12.2051429)]. For the conference paper, he was listed as a co-author. These results were subsequently published in the *Optical Engineering* paper, so he has been added as an author.

The paper was corrected online on 4 December 2020.
