Volume 10180

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.
The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIEDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

ISSN: 0277-786X
ISSN: 1996-756X (electronic)
ISBN: 9781510608610

Copying of material in this book for internal or personal use, or for the internal or personal use of specific clients, beyond the fair use provisions granted by the U.S. Copyright Law is authorized by SPIE subject to payment of copying fees. The Transactional Reporting Service base fee for this volume is $18.00 per article (or portion thereof), which should be paid directly to the Copyright Clearance Center (CCC), 222 Rosewood Drive, Danvers, MA 01923. Payment may also be made electronically through CCC Online at copyright.com. Other copying for republication, resale, advertising or promotion, or any form of systematic or multiple reproduction of any material in this book is prohibited except with permission in writing from the publisher. The CCC fee code is 0277-786X/17/$18.00.

Printed in the United States of America.

Publication of record for individual papers is online in the SPIE Digital Library.

Paper Numbering: Proceedings of SPIE follow an e-First publication model. A unique citation identifier (CID) number is assigned to each article at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:
• The first five digits correspond to the SPIE volume number.
• The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Authors

Numbers in the index correspond to the last two digits of the seven-digit citation identifier (CID) article numbering system used in Proceedings of SPIE. The first five digits reflect the volume number. Base 36 numbering is employed for the last two digits and indicates the order of articles within the volume. Numbers start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B...0Z, followed by 10-1Z, 20-2Z, etc.

Conference Committee

Symposium Chair

Donald A. Reago Jr., U.S. Army Night Vision & Electronic Sensors Directorate (United States)

Symposium Co-chair

Arthur A. Morrish, Raytheon Space and Airborne Systems (United States)

Conference Chairs

Richard I. Epstein, The University of New Mexico (United States) and ThermoDynamic Films, LLC (United States)
Bjørn F. Andresen, RICOR Cryogenic & Vacuum Systems (Israel)
Tonny Benschop, Thales Cryogenics B.V. (Netherlands)
Joseph P. Heremans, The Ohio State University (United States)
Sergey V. Riabzev, RICOR Cryogenic & Vacuum Systems (Israel)
Mansoor Sheik-Bahae, The University of New Mexico (United States)

Conference Program Committee

Igor D. Burlakov, Orion Research-and-Production Association (Russian Federation)
Bernardo Farfan, The University of New Mexico (United States) and ThermoDynamic Films, LLC (United States)
Markus P. Hehlen, Los Alamos National Laboratory (United States)
Carl S. Kirkconnell, West Coast Solutions (United States)
Alexander Veprik, SCD SemiConductor Devices (Israel)
Ingo N. Rühlich, AIM INFRAROT-MODULE GmbH (Germany)
Yinong Wu, Shanghai Institute of Technical Physics (China)

Session Chairs

Welcome
Sergey V. Riabzev, RICOR Cryogenic & Vacuum Systems (Israel)

1 Mechanical Coolers: Miniaturization
Tonny Benschop, Thales Cryogenics B.V. (Netherlands)
Carl S. Kirkconnell, West Coast Solutions (United States)
Emerging Technologies I
Aram Gragossian, The University of New Mexico (United States)
Matthew Grayson, Northwestern University (United States)

Emerging Technologies II
Matthew Grayson, Northwestern University (United States)

Mechanical Coolers: Design Issues
Alexander Veprik, SCD SemiConductor Devices (Israel)
Ingo N. Rühlich, AIM INFRAROT-MODULE GmbH (Germany)

Mechanical Coolers: Various
Yinong Wu, Shanghai Institute of Technical Physics of the Chinese Academy of Sciences (China)
Sergey V. Riabzev, RICOR Cryogenic & Vacuum Systems (Israel)
