The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIEDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

ISSN: 0277-786X
ISSN: 1996-756X (electronic)

Paper Numbering: Proceedings of SPIE follow an e-First publication model. A unique citation identifier (CID) number is assigned to each article at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:
• The first five digits correspond to the SPIE volume number.
• The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Authors

Numbers in the index correspond to the last two digits of the seven-digit citation identifier (CID) article numbering system used in Proceedings of SPIE. The first five digits reflect the volume number. Base 36 numbering is employed for the last two digits and indicates the order of articles within the volume. Numbers start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B...0Z, followed by 10-1Z, 20-2Z, etc.

Conference Committee

Symposium Chair

Donald A. Reago Jr., U.S. Army Night Vision & Electronic Sensors Directorate (United States)

Symposium Co-chair

Arthur A. Morrish, Raytheon Space and Airborne Systems (United States)

Conference Chairs

Jay N. Vizgaitis, optX imaging system (United States)
Bjørn F. Andresen, RICOR Cryogenic & Vacuum Systems (Israel)
Peter L. Marasco, Air Force Research Laboratory (United States)
Jasbinder S. Sanghera, U.S. Naval Research Laboratory (United States)
Miguel P. Snyder, U.S. Army Night Vision & Electronic Sensors Directorate (United States)

Conference Program Committee

Christopher C. Alexay, StingRay Optics, LLC (United States)
Guy Beadie, U.S. Naval Research Laboratory (United States)
Kyle R. Bryant, U.S. Army AMRDEC (United States)
Robert B. Chipper, Raytheon EO Innovations (United States)
John P. Deegan, Rochester Precision Optics, LLC (United States)
Mark Durham, DRS Technologies, Inc. (United States)
Anatoly M. Filachev, Orion Research-and-Production Association (Russian Federation)
Stephen T. Lee, Thales Optronics Ltd. (United Kingdom)
Craig Olson, L-3 Communications (United States)
Harbinder Rana, Defence Science and Technology Laboratory (United Kingdom)
Clara Rivero-Baleine, Lockheed Martin Missiles and Fire Control (United States)
Joël Rollin, Thales Angénieux S.A. (France)
Harry H. Schlemmer, Airbus DS Optronics GmbH (Germany)
Doron Sturlesi, Rafael Advanced Defense Systems Ltd. (Israel)
Alan Symmons, LightPath Technologies, Inc. (United States)
Stan Szapiel, Raytheon ELCAN Optical Technologies (Canada)
Nicholas A. Thompson, Qioptiq Ltd. (United Kingdom)
Jue Wang, Corning Specialty Materials, Inc. (United States)
Session Chairs

1  Optical Design and Analysis I
   Kyle R. Bryant, U.S. Army AMRDEC (United States)
   Craig Olson, L-3 Sonoma EO (United States)

2  Opto-Mechanics
   Kyle R. Bryant, U.S. Army AMRDEC (United States)
   Craig Olson, L-3 Sonoma EO (United States)

3  GRIN
   Peter L. Marasco, Air Force Research Laboratory (United States)
   Jasbinder S. Sanghera, U.S. Naval Research Laboratory (United States)

4  Optical Design and Analysis II
   Christopher Alexay, StingRay Optics, LLC (United States)
   Peter L. Marasco, Air Force Research Laboratory (United States)

5  Coatings and Filters
   Jue Wang, Corning Specialty Materials, Inc. (United States)
   Jasbinder S. Sanghera, U.S. Naval Research Laboratory (United States)

6  Materials and Manufacturing I
   Alan Symmons, LightPath Technologies, Inc. (United States)
   John Deegan, Rochester Precision Optics, LLC (United States)

7  Materials and Manufacturing II
   Alan Symmons, LightPath Technologies, Inc. (United States)
   John Deegan, Rochester Precision Optics, LLC (United States)

8  Select Papers in Optics
   Guy Beadie, U.S. Naval Research Laboratory (United States)
