Front Matter: Volume 10750

Event: SPIE Optical Engineering + Applications, 2018, San Diego, California, United States
Reflection, Scattering, and Diffraction from Surfaces VI

Leonard M. Hanssen
Editor

20 August 2018
San Diego, California, United States

Sponsored and Published by SPIE
The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIEDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

ISSN: 0277-786X
ISSN: 1996-756X (electronic)

Paper Numbering: Proceedings of SPIE follow an e-First publication model. A unique citation identifier (CID) number is assigned to each article at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-digit sets start with 00, 01, 02, ..., 00, 01, 02, ..., 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.
Contents

v Authors
vii Conference Committee

SESSION 1 THEORY AND MODELING

10750 02 Laser scattering from arbitrarily shaped large objects with randomly rough surfaces (Invited Paper) [10750-1]
10750 03 Modeling of remotely sensed signatures of spacecraft [10750-2]
10750 05 Spectral signatures of solids and liquids on different substrates: the need for accurate optical constants [10750-4]
10750 06 Improved-anomalous diffraction approximation for accurate extinction, scatter, and absorption efficiency calculations [10750-5]

SESSION 2 MEASUREMENT METHODS

10750 08 Reflectance from solids and solid particles: the need for the optical constants n and k and far-IR measurement challenges [10750-7]
10750 09 A high dynamic range imaging method for the characterization of periodic errors in diffraction gratings [10750-8]
10750 0A Investigation of transverse motion of concealed scatterer using correlation of speckled speckles from static surface layer [10750-9]

SESSION 3 APPLICATIONS

10750 0C The light behavior from Shallow Trench Isolation profiles at Chemical Mechanical Planarization step and correlation with optical endpoint system by interferometry [10750-11]
10750 0E Stray light test results of Operational Landsat Imager 2 (OLI-2) compared to OLI [10750-13]
10750 0F Nondestructive characterization of aged paper using spectral and directional reflection measurements [10750-15]
### SESSION 4  METROLOGY AND STANDARDS

Authors

Numbers in the index correspond to the last two digits of the seven-digit citation identifier (CID) article numbering system used in Proceedings of SPIE. The first five digits reflect the volume number. Base 36 numbering is employed for the last two digits and indicates the order of articles within the volume. Numbers start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B...0Z, followed by 10-1Z, 20-2Z, etc.

Conference Committee

Program Track Chair
José Sasián, College of Optical Sciences, The University of Arizona (United States)

Conference Chair
Leonard M. Hanssen, National Institute of Standards and Technology (United States)

Conference Program Committee
Gérard Berginc, Thales Optronique S.A.S. (France)
Samuel D. Butler, Air Force Institute of Technology (United States)
Brian G. Hoover, Advanced Optical Technologies (United States)
Alexei A. Maradudin, University of California, Irvine (United States)
Michael A. Marciniak, Air Force Institute of Technology (United States)
Richard N. Pfisterer, Photon Engineering LLC (United States)
Hendrik Rothe, Helmut-Schmidt University (Germany)
Michael E. Thomas, Johns Hopkins University (United States)
Benjamin K. Tsai, National Institute of Standards and Technology (United States)

Session Chairs
1 Theory and Modeling
   Michael E. Thomas, Johns Hopkins University (United States)

2 Measurement Methods
   Brian G. Hoover, Advanced Optical Technologies (United States)

3 Applications
   Gérard Berginc, Thales Optronique S.A.S. (France)
   Richard N. Pfisterer, Photon Engineering LLC (United States)

4 Metrology and Standards
   Samuel D. Butler, Air Force Institute of Technology (United States)
