Front Matter: Volume 10734

Event: SPIE Nanoscience + Engineering, 2018, San Diego, California, United States
Quantum Nanophotonics 2018

Jennifer A. Dionne
Mark Lawrence
Matthew T. Sheldon
Editors

20–21 August 2018
San Diego, California, United States

Sponsored and Published by
SPIE
The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIEDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

ISSN: 0277-786X
ISSN: 1996-756X (electronic)

Paper Numbering: Proceedings of SPIE follow an e-First publication model. A unique citation identifier (CID) number is assigned to each article at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Authors

Numbers in the index correspond to the last two digits of the seven-digit citation identifier (CID) article numbering system used in Proceeding of SPIE. The first five digits reflect the volume number, Base 36 numbering is employed for the last two digits and indicates the order of articles within the volume. Numbers start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B...0Z, followed by 10-1Z, 20-2Z, etc.

Conference Committee

Symposium Chairs
Halina Rubinsztein-Dunlop, The University of Queensland (Australia)
Mark L. Brongersma, Geballe Laboratory for Advanced Materials (GLAM), Stanford University (United States)

Symposium Co-chairs
Harry A. Atwater Jr., California Institute of Technology (United States)
Nikolay I. Zheludev, Optoelectronics Research Center (United Kingdom) and Nanyang Technological University (Singapore)

Conference Chairs
Jennifer A. Dionne, Stanford University (United States)
Mark Lawrence, Stanford University (United States)
Matthew T. Sheldon, Texas A&M University (United States)

Conference Program Committee
Javier Aizpurua, Centro de Fisica de Materiales (Spain)
Andrea Di Falco, University of St. Andrews (United Kingdom)
Nader Engheta, University of Pennsylvania (United States)
Andrei Faraon, California Institute of Technology (United States)
Javier García de Abajo, ICFO - Institut de Ciències Fotòniques (Spain)
Mohammad Hafezi, Joint Quantum Institute (United States)
Zubin Jacob, Purdue University (United States)
Satoshi Kawata, Osaka University (Japan)
Marko Loncar, Harvard School of Engineering and Applied Sciences (United States)
Maiken H. Mikkelsen, Duke University (United States)
Sunil Mittal, Joint Quantum Institute (United States)
Prineha Narang, Harvard University (United States)
Jeremy L. O'Brien, University of Bristol (United Kingdom)
Teri W. Odom, Northwestern University (United States)
Vladimir M. Shalaev, Purdue University (United States)
Mark Tame, University of KwaZulu-Natal (South Africa)
Ewold Verhagen, FOM Institute for Atomic and Molecular Physics (Netherlands)
Ulrike Woggon, Technische Universität Berlin (Germany)
Session Chairs

1. Modeling of Many Body Effects in Quantum Nanophotonics
   Jennifer Coulter, Harvard University (United States)

2. 2D Materials
   Xiaoqin Li, The University of Texas at Austin (United States)

3. Quantum Emitters
   Alejandro Manjavacas, The University of New Mexico (United States)

4. Theory, Imaging, and Measurement
   Jennifer A. Dionne, Stanford University (United States)
   Mark Lawrence, Stanford University (United States)
   Matthew T. Sheldon, Texas A&M University (United States)

5. Quantum Photonic Manipulation and Integration I
   Jennifer A. Dionne, Stanford University (United States)
   Mark Lawrence, Stanford University (United States)
   Matthew T. Sheldon, Texas A&M University (United States)

6. Quantum Photonic Manipulation and Integration II
   Jennifer A. Dionne, Stanford University (United States)
   Mark Lawrence, Stanford University (United States)
   Matthew T. Sheldon, Texas A&M University (United States)
