Front Matter: Volume 7251
The papers included in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. The papers published in these proceedings reflect the work and thoughts of the authors and are published herein as submitted. The publishers are not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

The Transactional Reporting Service base fee for this volume is $18.00 per article (or portion thereof), which should be paid directly to the Copyright Clearance Center (CCC), 222 Rosewood Drive, Danvers, MA 01923. Payment may also be made electronically through CCC Online at copyright.com. Other copying for republication, resale, advertising or promotion, or any form of systematic or multiple reproduction of any material in this book is prohibited except with permission in writing from the publisher. The CCC fee code is 0277-786X/09/$18.00.

Printed in the United States of America.

Paper Numbering: Proceedings of SPIE follow an e-First publication model, with papers published first online and then in print and on CD-ROM. Papers are published as they are submitted and meet publication criteria. A unique, consistent, permanent citation identifier (CID) number is assigned to each article at the time of the first publication. Utilization of CIDs allows articles to be fully citable as soon they are published online, and connects the same identifier to all online, print, and electronic versions of the publication. SPIE uses a six-digit CID article numbering system in which:
- The first four digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc.

The CID number appears on each page of the manuscript. The complete citation is used on the first page, and an abbreviated version on subsequent pages. Numbers in the index correspond to the last two digits of the six-digit CID number.

Color correction using color-flow eigenspace model in color face recognition [7251-35]
J. Choi, Y. M. Ro, Information and Communications Univ. (Korea, Republic of)

Fusion of LiDAR and aerial imagery for accurate building footprint extraction [7251-36]
S. Zabuawala, H. Nguyen, H. Wei, J. Yadegar, UtopiaCompression Corp. (United States)

Evaluation of membrane stacking in electron microscope images [7251-37]
G. Hermann, A. Karathanou, J.-L. Buessler, J.-P. Urban, Univ. de Haute Alsace (France)

Finger vein extraction using gradient normalization and principal curvature [7251-38]
J. H. Choi, W. Song, T. Kim, Seoul National Univ. (Korea, Republic of); S.-R. Lee, Seoul National Univ. (Korea, Republic of) and jFinger Co., Ltd. (Korea, Republic of); H. C. Kim, Seoul National Univ. (Korea, Republic of)

Vision based auto inspection system for detecting scratches on the products [7251-39]
K. Balci, Yildiz Technical Univ. (Turkey); F. Karabiber, Istanbul Univ. (Turkey); A. Bal, Yildiz Technical Univ. (Turkey)

Registration of finger vein image using skin surface information for authentication [7251-40]
S. Noh, H.-J. Kong, S. Park, J. Kim, S.-R. Lee, T. Kim, H. C. Kim, Seoul National Univ. (Korea, Republic of)

Author Index
Conference Committee

Symposium Chair

Nitin Sampat, Rochester Institute of Technology (United States)

Symposium Cochair

Jan P. Allebach, Purdue University (United States)

Conference Chairs

Kurt S. Niel, Fachhochschule Wels (Austria)
David Fofi, University de Bourgogne (France)

Program Committee

Pierrick T. Bourgeat, Commonwealth Scientific and Industrial Research Organisation (Australia)
Michael J. Cree, The University of Waikato (New Zealand)
Marc M. Ellenrieder, Carl Zeiss Optronics GmbH (Germany)
Lixin Fan, Nokia Research Center (Finland)
Ewald Fauster, vatron GmbH (Austria)
Steven P. Floeder, 3M Company (United States)
