Front Matter: Volume 7538
The papers included in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. The papers published in these proceedings reflect the work and thoughts of the authors and are published herein as submitted. The publishers are not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Copying of material in this book for internal or personal use, or for the internal or personal use of specific clients, beyond the fair use provisions granted by the U.S. Copyright Law is authorized by the publishers subject to payment of copying fees. The Transactional Reporting Service base fee for this volume is $18.00 per article (or portion thereof), which should be paid directly to the Copyright Clearance Center (CCC), 222 Rosewood Drive, Danvers, MA 01923. Payment may also be made electronically through CCC Online at copyright.com. Other copying for republication, resale, advertising or promotion, or any form of systematic or multiple reproduction of any material in this book is prohibited except with permission in writing from the publisher. The CCC fee code is 0277-786X/10/$18.00.

Printed in the United States of America.

Paper Numbering: Proceedings of SPIE follow an e-First publication model, with papers published first online and then in print and on CD-ROM. Papers are published as they are submitted and meet publication criteria. A unique, consistent, permanent citation identifier (CID) number is assigned to each article at the time of the first publication. Utilization of CIDs allows articles to be fully citable as soon they are published online, and connects the same identifier to all online, print, and electronic versions of the publication. SPIE uses a six-digit CID article numbering system in which:

- The first four digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B, ..., OZ, followed by 10-1Z, 20-2Z, etc.

The CID number appears on each page of the manuscript. The complete citation is used on the first page, and an abbreviated version on subsequent pages. Numbers in the index correspond to the last two digits of the six-digit CID number.

SESSION 7 IMAGE PROCESSING AND ALGORITHMS

7538 0Q A line detection and description algorithm based on swarm intelligence [7538-25]
U. Kirchmaier, S. Hawe, K. Diepold, Technische Univ. Münch (Germany)

7538 0R A hybrid and adaptive segmentation method using color and texture information [7538-26]
C. Meurie, Y. Ruichek, A. Cohen, Univ. of Technology of Belfort-Montbeliard (France); J. Marais, INRETS, LEOST, Univ. Lille Nord de France (France)

7538 0S Hierarchical feature extraction and object recognition based on biologically inspired filters [7538-27]
P. Mishra, B. K. Jenkins, Univ. of Southern California (United States)

7538 0U Blurred face recognition algorithm guided by a no-reference blur metric [7538-29]
C. Fiche, P. Ladret, N.-S. Vu, Gipsa-Lab. (France)

7538 0V 2x1D image registration and comparison [7538-38]
G. Zheng, E. H. Barney Smith, N. Rafia, T. Andersen, Boise State Univ. (United States)

INTERACTIVE PAPER SESSION

7538 0Y Layer separation for material discrimination cargo imaging system [7538-32]
K. Fu, Univ. of California, San Diego (United States); D. Ranta, SAIC (United States); P. Das, C. Guest, Univ. of California, San Diego (United States)

7538 0Z The application of wavelet denoising in material discrimination system [7538-33]
K. Fu, Univ. of California, San Diego (United States); D. Ranta, SAIC (United States); C. Guest, P. Das, Univ. of California, San Diego (United States)

7538 10 A practical DCT based blind image watermarking scheme for print-and-scan process [7538-34]
J. Jin, H. Hou, Y. Xiong, Hewlett-Packard Labs. China (China)

7538 12 Synthesis of solid textures based on a 2D example: application to the synthesis of 3D carbon structures observed by transmission electronic microscopy [7538-36]
J.-P. Da Costa, C. Germain, IMS Lab., CNRS (France) and ENITAB, Univ. of Bordeaux (France)

7538 13 Cigarette smoke detection from captured image sequences [7538-37]
K. Iwamoto, H. Inoue, T. Matsubara, T. Tanaka, Tokyo Univ. of Agriculture and Technology (Japan)

Author Index
Conference Committee

Symposium Chair

Jan P. Allebach, Purdue University (United States)

Symposium Cochair

Sabine Süsstrunk, Ecole Polytechnique Fédérale de Lausanne (Switzerland)

Conference Chairs

David Fofi, Université de Bourgogne (France)
Kurt S. Niel, Fachhochschule Wels (Austria)

Program Committee

Philip R. Bingham, Oak Ridge National Laboratory (United States)
Pierrick T. Bourgeat, Australian e-Health Research Center (Australia)
Jun Cheng, Chinese Academy of Sciences (China)
Michael J. Cree, The University of Waikato (New Zealand)
Marc M. Ellenrieder, Carl Zeiss Optronics GmbH (Germany)
Lixin Fan, Nokia Research Center (Finland)
Ewald Fauster, vatron GmbH (Austria)
Steven P. Floeder, 3M Company (United States)
Luciano F. Fontoura Da Costa, Universidade de São Paulo (Brazil)
Edmund Y. Lam, The University of Hong Kong (Hong Kong, China)
Xavier Llado, Universitat de Girona (Spain)
Fabrice Meriaudeau, Université de Bourgogne (France)
Dinesh Nair, National Instruments Corporation (United States)
Jeffery R. Price, Oak Ridge National Laboratory (United States)
A. Ravishankar Rao, IBM Thomas J. Watson Research Center (United States)
Hamed Sari-Sarraf, Texas Tech University (United States)
Ralph Seulin, Université de Bourgogne (France)
Yvon Voisin, Université de Bourgogne (France)

Session Chairs

1 Industrial Inspection and Applications
Kurt S. Niel, Fachhochschule Wels (Austria)

2 Active Vision and Robotics I
David Fofi, Université de Bourgogne (France)
3 Physical Imaging and Microscopy  
David Fofi, Université de Bourgogne (France)

4 Multispectral Imaging  
Kurt S. Niel, Fachhochschule Wels (Austria)

5 3D Vision and Range Imaging  
David Fofi, Université de Bourgogne (France)

6 Active Vision and Robotics II  
David Fofi, Université de Bourgogne (France)

7 Image Processing and Algorithms  
Kurt S. Niel, Fachhochschule Wels (Austria)
