<tbody>
<tr>
<td>7507 07</td>
<td>Kinetics of DNA translocase SpoIIIE studied by dual optical tweezers [7507-10]</td>
<td>L. Ling, Institute of Physics (China); E Qu, Institute of Physics (China) and Yunnan Academy of Scientific &amp; Technical Information (China); H. Guo, C. Xu, Z. Li, L. Huang, D. Zhang, Z. Li, Institute of Physics (China)</td>
</tr>
<tr>
<td>7507 08</td>
<td>Debye series analysis of radiation pressure force exerted on a spherical particle [7507-11]</td>
<td>R. Li, X. Han, Xidian Univ. (China); K. F. Ren, UMR 6614/CORIA, CNRS, Univ. and INSA de Rouen (France)</td>
</tr>
<tr>
<td>7507 09</td>
<td>Radiation forces of anomalous hollow beams on a Rayleigh particle [7507-18]</td>
<td>Y.-N. Liu, X. Lu, C.-L. Zhao, Zhejiang Univ. (China)</td>
</tr>
</tbody>
</table>
SESSION 3 MICROSCOPIC IMAGING

7507 0B Optical coherence tomography for ultrahigh-resolution 3D imaging of cell development and real-time guiding for photodynamic therapy (Invited Paper) [7507-01]
T. Wang, J. Zhen, B. Wang, P. Xue, Tsinghua Univ. (China)

7507 0C Development of a high speed spectral domain optical coherence tomography system at 835 nm (Invited Paper) [7507-35]
K. Wang, Z. Ding, J. Meng, M. Chen, T. Wu, Zhejiang Univ. (China)

7507 0E Study on the LTE and its effect on the measurement accuracy in calibration-free laser-induced breakdown spectroscopy [7507-09]
Q. Chen, W. Zhou, K. Li, J. Long, Zhejiang Normal Univ. (China)

7507 0F PDT-treated apoptotic cells induce macrophage synthesis NO [7507-24]
S. Song, D. Xing, F. F. Zhou, South China Normal Univ. (China); W. R. Chen, South China Normal Univ. (China) and Univ. of Central Oklahoma (United States)

7507 0G Thick film geometric parameters measurement by white light interferometry [7507-06]
L. Ma, T. Guo, F. Yuan, J. Zhao, X. Fu, X. Hu, Tianjin Univ. (China)

7507 0H Multifocus CARS microscopy for realtime vibrational imaging [7507-21]
M. Hashimoto, T. Minamikawa, H. Nioka, T. Araki, Osaka Univ. (Japan)

7507 0I Lysosomal photodamage induces cell death via mitochondrial apoptotic pathway [7507-25]
L. Liu, X. Wang, H. Li, South China Normal Univ. (China)

POSTER SESSION

7507 0J Determination of the axial stiffness of an optical trap with information entropy signals [7507-02]
M. Zhong, J. Zhou, J. Wu, Univ. of Science and Technology of China (China); Y. Li, Univ. of Science and Technology of China (China) and Hefei National Lab. for Physical Sciences at Microscale (China)

7507 0K A novel fiber optical tweezers with FZP structures on fiber end-face [7507-14]
F. Hao, R. Wang, J. Wang, Tsinghua Univ. (China)

7507 0L Application of cytoplasmic Ca²⁺ fluorescence imaging techniques to study the molecular mechanisms of exercise-induced fatigue eliminated by Chinese medicine ginseng extract [7507-30]
Y. Liu, Y. Zhao, H. Zhang, S. Liu, South China Normal Univ. (China)

7507 0M Optical microscopic imaging based on VRML language [7507-36]
X. Zhang, Z. Zhang, J. Sun, Univ. of Shanghai for Science and Technology (China)
Improving the framing capability in high-speed photography by Fraunhofer digital holography [7507-46]
X. Lu, J. Li, H. Chen, S. Xu, Shenzhen Univ. (China)

Author Index
Symposium Committees

General Chair

Songlin Zhuang, University of Shanghai for Science and Technology (China)

General Cochairs

Yuri Chugui, New Siberia Academy of Sciences (Russian Federation)
Arthur E. T. Chiou, National Yan-Ming University (Taiwan, China)

Honorary Chairs

Daheng Wang, Chinese Academy of Sciences (China)
Teruo Hiruma, Hamamatsu Photonics K.K. (Japan)
Guoguang Mu, Nankai University (China)
Bingkun Zhou, Tsinghua University (China)

Technical Program Chair

Guofan Jin, Tsinghua University (China)

Technical Program Cochairs

Yimo Zhang, Tianjin University (China)
Sien Chi, National Chiao Tung University (Taiwan, China)

Local Organizing Committee Chair

Youhua Wu, China Instrument and Control Society (China)

Local Organizing Committee Cochairs

Guoqiang Ni, Beijing Institute of Technology (China)
Daoyin Yu, Tianjin University (China)
Yulin Xi, Beijing Hamamatsu Photon Techniques Inc. (China)
Zhengji Ni, Shanghai University of Science and Technology (China)
Jinxue Wang, SPIE (United States)

General Secretary

Youhua Wu, China Instrument and Control Society (China)
Administrative Vice General Secretary

Boyu Ding, Beijing Institute of Technology (China)

Vice General Secretaries

Hanquan Zhang, China Instrument and Control Society (China)
Yuejin Zhao, Beijing Institute of Technology (China)
Xiongwen Qin, China Instrument and Control Society (China)
Tiegen Liu, Tianjin University (China)
Qionghui Feng, Shanghai University of Science and Technology (China)
Cunlin Zhang, Capital Normal University (China)

Local Organizing Committee

Weimin Chen, Chongqing University (China)
Hongda Chen, Institute of Semiconductors, CAS (China)
Yan Zhang, Capital Normal University (China)
Shangzhong Jin, Chinese Jiliang University (China)
Boshun Hu, Modern Scientific Instruments (China)
Libo Yuan, Harbin Engineering University (China)
Tian Lan, Beijing Institute of Technology (China)
Conference Committee

Conference Chairs

Xiaocong Yuan, Nankai University (China)
Yinmei Li, University of Science and Technology of China (China)
Arthur Chiou, National Yang-Ming University (Taiwan, China)
Min Gu, Swinburne University of Technology (Australia)
Dennis Matthews, University of California, Davis (United States)
Colin Sheppard, National University of Singapore (Singapore)

Program Committee

Zhongping Chen, University of California, Irvine (United States)
Daniel Elson, Imperial College London (United Kingdom)
Paul French, Imperial College London (United Kingdom)
Bruce Z. Gao, Clemson University (United States)
Jesper Glückstad, Danmarks Tekniske Universiteit (Denmark)
Aaron H.P. Ho, The Chinese University of Hong Kong (Hong Kong China)
Hui Ma, Tsinghua University (China)
Chinlon Lin, Nanyang Technological University (Singapore)
Xuanhui Lu, Zhejiang University (China)
H. Daniel Ou-Yang, Lehigh University (United States)
Monika Ritsch-Marte, Innsburck Medical University (Austria)
Halina Rubinsztein-Dunlop, The University of Queensland (Australia)
Da Xing, South China Normal University (China)
Xiaohui Zhang, Chinese Academy of Sciences (China)
Siwei Zhu, Tianjin Union Medicine Centre (China)
Introduction

These proceedings result from the 2009 International Conference on Optical Instrument and Technology (OIT’09), held in Shanghai, China, 19–21 October 2009. The conference was the second event following the success of OIT’08 and it was sponsored and supported by SPIE, China Instrument and Control Society (CIS), and the Chinese Optical Society (COS).

OIT’09 was a professional conference which was combined with the exhibition of The 20th Fair for Measurement Instrumentation and Automation (MICONEX).

OIT’09 focused on instrument science and related technology involved in many technical aspects such as detection; observation; information collection, transfer and storage; communication; economization on energy; environmental protection; inspection and prevention of food security, traffic safety and mine safety; measure and control for aviation and space engineering, etc.

These proceedings, a collection of eight volumes, contain the accepted oral and poster papers presented at OIT’09. It is truly a great pleasure for me that the most recent progress in optical instrumentation technology is reported in the OIT’09 proceedings. I firmly believe that the papers included in these volumes will provide reference information in up-to-date techniques of optical instrumentation technology.

The OIT’09 conference collected over 630 papers from different countries or regions of the world. Over 400 authors came from more than 14 countries, including Canada, Iran, Japan, Russia, Singapore, USA, Sweden, Switzerland, Pakistan, the Netherlands, Republic of Korea, Slovenia, Germany and China. Published in these eight volumes of the Proceedings of SPIE are close to 455 papers. The technical fields of the presented papers at the conference cover a lot of current advanced technologies. The cutting-edge technologies and applications of optical instruments are discussed. Quite a few invited papers describe exciting achievements in the fields of optical instrument technology. It is evident that the OIT’09 conference has provided an excellent platform for participants and colleagues in research and development to share the technical progress and to develop new partnerships or broaden new markets.

SPIE has given great support to organize this international conference by collaborating with us in the whole organizing process from paper collection to the proceedings publication. COS has provided enough support and assistance.

Finally, on behalf of CIS and conference general chairs, I would like to heartily thank our supporters and committee members for all they have done for this conference. Thanks also go to all authors for their contributions; to all of the
participants and friends for their interest, especially those who have traveled
great distances and taken time from their busy schedules to attend the
conference. Thanks also go to the staff of COS for their support. I am also grateful
to the SPIE staff for their support and collaboration in publishing these eight
volumes.

Songlin Zhuang
Chairman, China Instrument and Control Society (CIS)
