Published by
SPIE

Volume 10559
The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIEDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

ISSN: 0277-786X
ISSN: 1996-756X (electronic)
ISBN: 9781510616035

Paper Numbering: Proceedings of SPIE follow an e-First publication model. A unique citation identifier (CID) number is assigned to each article at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Indoor communications networks realized through hybrid free-space optical and Wi-Fi links [10559-16]

SESSION 5 VLC AND OPTICAL WIRELESS COMMUNICATION TECHNOLOGIES

- LED-based high-speed visible light communications (Invited Paper) [10559-17]
- Optical wireless communication in data centers [10559-18]
- Novel modulation scheme for VLC [10559-19]
- Optical antenna for a visible light communications receiver [10559-20]

SESSION 6 ADVANCED OPTICAL FIBER, 5G NETWORKS, AND PASSIVE OPTICAL NETWORKS (PON)

- Bend-insensitive optical fiber with high-mechanical reliability for silicon photonic packaging (Invited Paper) [10559-21]
- Passive optical networks for 5G evolution (Invited Paper) [10559-22]
- QoS-aware integrated fiber-wireless standard compliant architecture based on XGPON and EDCA [10559-23]
- Experimental characterization of first-order polarization-mode dispersion in multi-core fiber [10559-24]

SESSION 7 5G, MILLIMETER-WAVE TECHNOLOGIES, AND ADVANCED MIMO ROF SYSTEMS

- Radio over fiber network technology for millimeter-wave distributed radar systems (Invited Paper) [10559-25]
- Large-capacity long-distance bidirectional wireless signal transmission at hybrid K- and W-band (Invited Paper) [10559-27]

POSTER SESSION

- Wide-range visible light communication technique based on path loss compensation and threshold map [10559-28]
- Proposal analysis and basic experimental evaluation of MIMO radio over fiber relay system [10559-29]
- Lightweight multi-carrier modulation for IoT [10559-31]
- Enhancing security of optical cryptosystem against ciphertext-only attack with position-multiplexing and ultra-broadband illumination [10559-32]
Authors

Numbers in the index correspond to the last two digits of the seven-digit citation identifier (CID) article numbering system used in Proceedings of SPIE. The first five digits reflect the volume number. Base 36 numbering is employed for the last two digits and indicates the order of articles within the volume. Numbers start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B...0Z, followed by 10-1Z, 20-2Z, etc.

Conference Committee

Symposium Chairs

**Connie J. Chang-Hasnain**, University of California, Berkeley (United States)

**Graham T. Reed**, Optoelectronics Research Centre, University of Southampton (United Kingdom)

**Jean-Emmanuel Broquin**, IMEP-LAHC (France)

**Shibin Jiang**, AdValue Photonics, Inc. (United States)

**Benjamin Dingel**, Nastfine Photonics, Inc. (United States)

**Katsutoshi Tsukamoto**, Osaka Institute of Technology (Japan)

**Spiros Mikroulis**, Huawei Technologies (Germany)

Conference Program Committee

**Harald Haas**, The University of Edinburgh (United Kingdom)

**Atsushi Kanno**, National Institute of Information and Communications Technology (Japan)

**Mohsen Kavehrad**, The Pennsylvania State University (United States)

**Nathananiel Libatique**, Ateneo de Manila University (Philippines)

**Nicholas Madamopoulos**, The City College of New York (United States)

**Ken-ichi Sato**, Nagoya University (Japan)

**Atul K. Srivastava**, NEL America, Inc. (United States)

**Manoj Thakur**, University College London (United Kingdom)

**Junwen Zhang**, ZTE USA (United States)

Session Chairs
1 Optical Communication Keynote Session: Joint Session with Conferences 10559 and 10561

**Guifang Li**, CREL, The College of Optics and Photonics, University of Central Florida (United States)

**Benjamin B. Dingel**, Nastfine Photonics, Inc. (United States)
2 Special Session on Advances in Secured Optical Communication
   Guifang Li, CREOL, The College of Optics and Photonics, University of Central Florida (United States)

3 5G Mobile Broadband and Advanced Front-haul Networks
   Katsutoshi Tsukamoto, Osaka Institute of Technology (Japan)
   Spiros Mikroulis, Huawei Technologies (Germany)

4 Free-Space and Optical Wireless Communication Technologies
   Shlomi Arnon, Ben-Gurion University of the Negev (Israel)
   Benjamin B. Dingel, Nasfine Photonics, Inc. (United States)

5 VLC and Optical Wireless Communication Technologies
   Roberto Llorente, Universitat Politècnica de València (Spain)

6 Advanced Optical Fiber, 5G Networks, and Passive Optical Networks (PON)
   Katsutoshi Tsukamoto, Osaka Institute of Technology (Japan)
   Benjamin B. Dingel, Nasfine Photonics, Inc. (United States)

7 5G, Millimeter-Wave Technologies, and Advanced MIMO RoF Systems
   Katsutoshi Tsukamoto, Osaka Institute of Technology (Japan)
