Event: SPIE BiOS, 2013, San Francisco, California, United States

Design and Quality for Biomedical Technologies VI

**Ramesh Raghavachari
Rongguang Liang**
Editors

**2–3 February 2013
San Francisco, California, United States**

Sponsored and Published by
SPIE

Volume 8573

Proceedings of SPIE, 1605-7422, V.8573

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

Design and Quality for Biomedical Technologies VI, edited by Ramesh Raghavachari,
Rongguang Liang, Proc. of SPIE Vol. 8573, 857301 · © 2013 SPIE
CCC code: 1605-7422/13/\$18 · doi: 10.1117/12.2024926

Proc. of SPIE Vol. 8573 857301-1

The papers included in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. The papers published in these proceedings reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from this book:

Author(s), "Title of Paper," in *Design and Quality for Biomedical Technologies VI*, edited by Ramesh Raghavachari, Rongguang Liang, Proceedings of SPIE Vol. 8573 (SPIE, Bellingham, WA, 2013) Article CID Number.

Copying of material in this book for internal or personal use, or for the internal or personal use of specific clients, beyond the fair use provisions granted by the U.S. Copyright Law is authorized by SPIE subject to payment of copying fees. The Transactional Reporting Service base fee for this volume is \$18.00 per article (or portion thereof), which should be paid directly to the Copyright Clearance Center (CCC), 222 Rosewood Drive, Danvers, MA 01923. Payment may also be made electronically through CCC Online at copyright.com. Other copying for republication, resale, advertising or promotion, or any form of systematic or multiple reproduction of any material in this book is prohibited except with permission in writing from the publisher. The CCC fee code is 1605-7422/13/\$18.00.

Printed in the United States of America.

Publication of record for individual papers is online in the SPIE Digital Library.

SPIDigitalLibrary.org

Paper Numbering: Proceedings of SPIE follow an e-First publication model, with papers published first online and then in print and on CD-ROM. Papers are published as they are submitted and meet publication criteria. A unique, consistent, permanent citation identifier (CID) number is assigned to each article at the time of the first publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online, print, and electronic versions of the publication. SPIE uses a six-digit CID article numbering system in which:

- The first four digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc.

The CID Number appears on each page of the manuscript. The complete citation is used on the first page, and an abbreviated version on subsequent pages. Numbers in the index correspond to the last two digits of the six-digit CID Number.

Contents

v *Conference Committee*

OPTICAL TOMOGRAPHY SYSTEM DESIGN

- 8573 02 **Fluorescence advantages with microscopic spatiotemporal control (Invited Paper)** [8573-1]
D. Goswami, D. Roy, A. K. De, Indian Institute of Technology Kanpur (India)
- 8573 04 **Component and system evaluation for the development of a handheld point-of-care spatial frequency domain imaging (SFDI) device** [8573-3]
K. P. Nadeau, Beckman Laser Institute and Medical Clinic (United States); P. Khoury, A. Mazhar, D. Cuccia, Modulated Imaging, Inc. (United States); A. J. Durkin, Beckman Laser Institute and Medical Clinic (United States)
- 8573 05 **Real-time multispectral diffuse optical tomography system for imaging epileptic activity and connectivity (Invited Paper)** [8573-4]
T. Zhang, J. Yang, J. Zhou, H. Yang, P. R. Carney, H. Jiang, Univ. of Florida (United States)

OPTICAL DESIGN OF BIOMEDICAL IMAGING

- 8573 06 **The design and integration of a custom broadband 15x zoom lens for NIR fluorescence-guided surgery (Invited Paper)** [8573-5]
J. L. Bentley, Univ. of Rochester (United States); V. Venugopal, J. V. Frangioni, S. Gioux, Beth Israel Deaconess Medical Ctr. (United States)
- 8573 09 **Development of a laparoscope with multi-resolution foveation capability for minimally invasive surgery** [8573-8]
Y. Qin, H. Hua, College of Optical Sciences, The Univ. of Arizona (United States); M. Nguyen, The Univ. of Arizona (United States)
- 8573 0A **A virtual size-variable pinhole for single photon confocal microscopy** [8573-9]
G. Gao, Retina Health Ctr. (United States); B. Khoobehi, Louisiana State Univ. Health Sciences Ctr. (United States)

JOINT SESSION WITH CONFERENCES 8573 AND 8583

- 8573 0C **Multi-system comparison of optical coherence tomography performance with point spread function phantoms (Invited Paper)** [8573-11]
J. Pfefer, U.S. Food and Drug Administration (United States); A. Fouad, C.-W. Chen, U.S. Food and Drug Administration (United States) and The Univ. of Maryland (United States); W. Gong, U.S. Food and Drug Administration (United States), The Univ. of Maryland (United States), and Fujian Normal Univ. (China); P. Tomlins, Queen Mary Univ. of London (United Kingdom); P. Woolliams, National Physical Lab. (United Kingdom); R. Drezek, Rice Univ. (United States); A. Agrawal, U.S. Food and Drug Administration (United States); Y. Chen, The Univ. of Maryland (United States)

- 8573 0D **A one step vs. a multi step geometric calibration of an optical coherence tomography** [8573-12]
J. Díaz Díaz, Leibniz Univ. Hannover (Germany); M. Rahlves, Hannover Ctr. for Optical Technologies, Leibniz Univ. Hannover (Germany); O. Majdani, Hannover Medical School (Germany); E. Reithmeier, Hannover Ctr. for Optical Technologies, Leibniz Univ. Hannover (Germany); T. Ortmaier, Leibniz Univ. Hannover (Germany)

SYSTEM DEVELOPMENT AND SIMULATION

- 8573 0N **Spectral variations in narrow band imaging depth-selectivity: mucosal scattering vs. hemoglobin absorption** [8573-21]
Q. Wang, U.S. Food and Drug Administration (United States); D. Le, U.S. Food and Drug Administration (United States) and The Catholic Univ. of America (United States); J. C. Ramella-Roman, The Catholic Univ. of America (United States); J. Pfefer, U.S. Food and Drug Administration (United States)
- 8573 0Q **Evaluation of shape recognition abilities for a micro-lens array based optical detector by a dedicated simulation framework** [8573-24]
X. Jiang, L. Cao, W. Semmler, J. Peter, Deutsches Krebsforschungszentrum (Germany)

POSTER SESSION

- 8573 0R **A method to measure the presampling MTF in digital radiography using Wiener deconvolution** [8573-25]
Z. Zhou, Q. Zhu, F. Gao, H. Zhao, L. Zhang, Tianjin Univ. (China); G. Li, TEDA Orking Hi-Tech Co. (China)
- 8573 0V **Conversion of a low cost off-the-shelf spectrometer into a suitable instrument for deep tissue spectroscopy** [8573-29]
E. Wright, K. St. Lawrence, M. Diop, Lawson Health Research Institute (Canada) and The Univ. of Western Ontario (Canada)

Author Index

Conference Committee

Symposium Chairs

James Fujimoto, Massachusetts Institute of Technology (United States)
R. Rox Anderson, Wellman Center for Photomedicine, Massachusetts General Hospital (United States) and Harvard School of Medicine (United States)

Program Track Chairs

Tuan Vo-Dinh, Duke University (United States)
Anita Mahadevan-Jansen, Vanderbilt University (United States)

Conference Chairs

Ramesh Raghavachari, U.S. Food and Drug Administration (United States)
Rongguang Liang, College of Optical Sciences, The University of Arizona (United States)

Conference CoChair

Joshua Pfefer, U.S. Food and Drug Administration (United States)

Conference Program Committee

Anthony J. Durkin, Beckman Laser Institute and Medical Clinic (United States)
Kenji Taira, Olympus Corporation (United States)
Jeeseong Hwang, National Institute of Standards and Technology (United States)
Stephen P. Morgan, The University of Nottingham (United Kingdom)
Robert J. Nordstrom, National Institutes of Health (United States)
Jannick P. Rolland, University of Rochester (United States)
Eric J. Seibel, University of Washington (United States)
Tomasz S. Tkaczyk, Rice University (United States)
Rudolf M. Verdaasdonk, Vrije University Medical Center (Netherlands)
David W. Allen, National Institute of Standards and Technology (United States)

Session Chairs

- 1 Optical Tomography System Design
Ramesh Raghavachari, U.S. Food and Drug Administration (United States)

- 2 Optical Design of Biomedical Imaging
Joshua Pfefer, U.S. Food and Drug Administration (United States)
- 3 Joint Session with Conferences 8573 and 8583
Robert J. Nordstrom, National Institutes of Health (United States)
Ramesh Raghavachari, U.S. Food and Drug Administration (United States)
- 4 FDA Regulation
Ramesh Raghavachari, U.S. Food and Drug Administration (United States)
- 5 Clinical Systems
Rudolf M. Verdaasdonk, Vrije University Medical Center (Netherlands)
- 6 System Development and Simulation
David W. Allen, National Institute of Standards and Technology
(United States)
