Proc. of SPIE-IS&T Vol. 9392 939201-1

The papers included in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. The papers published in these proceedings reflect the work and thoughts of the authors and are published herein as submitted. The publishers are not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Paper Numbering: Proceedings of SPIE follow an e-First publication model, with papers published first online and then in print. Papers are published as they are submitted and meet publication criteria. A unique citation identifier (CID) number is assigned to each article at the time of the first publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online, print, and electronic versions of the publication. SPIE uses a six-digit CID article numbering system in which:

- The first four digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc.

The CID Number appears on each page of the manuscript. The complete citation is used on the first page, and an abbreviated version on subsequent pages.

Contents

v *Authors*
vii *Conference Committee*

SESSION 1 WORK HARDER AND PLAY HARDER IN AR/VR

- 9392 02 **Game-day football visualization experience on dissimilar virtual reality platforms** [9392-1]
- 9392 03 **archAR: an archaeological augmented reality experience** [9392-2]
- 9392 04 **Photorealistic 3D omni-directional stereo simulator** [9392-3]
- 9392 05 **Composing a model of outer space through virtual experiences** [9392-4]
- 9392 06 **How to avoid simulation sickness in virtual environments during user displacement** [9392-5]

SESSION 2 BRINGING NEW ENERGY TO AR/VR

- 9392 07 **Development of simulation interfaces for evaluation task with the use of physiological data and virtual reality applied to a vehicle simulator** [9392-6]
- 9392 08 **An indoor augmented reality mobile application for simulation of building evacuation** [9392-7]
- 9392 09 **Programmable immersive peripheral environmental system (PIPES): a prototype control system for environmental feedback devices** [9392-8]

SESSION 3 PUSHING THE BOUNDARIES IN DATA, DIMENSIONS, AND COGNITION

- 9392 0C **The use of virtual reality to reimagine two-dimensional representations of three-dimensional spaces** [9392-11]
- 9392 0D **Theory review and interaction design space of body image and body schema (BIBS) for embodied cognition in virtual reality** [9392-12]
- 9392 0E **Embodied information behavior, mixed reality, and big data** [9392-13]

SESSION 4 BE HERE NOW: ART AND SCIENCE OF BEING IN AR/VR

- 9392 0G **A method for real-time generation of augmented reality work instructions via expert movements** [9392-15]
- 9392 0I **Marker-less AR system based on line segment feature** [9392-17]

9392 0J **On the usefulness of the concept of presence in virtual reality applications** [9392-18]

INTERACTIVE PAPER SESSION

9392 0P **Reduce blurring and distortion in a projection type virtual image display using integrated small optics** [9392-24]

Authors

Numbers in the index correspond to the last two digits of the six-digit citation identifier (CID) article numbering system used in Proceedings of SPIE. The first four digits reflect the volume number. Base 36 numbering is employed for the last two digits and indicates the order of articles within the volume. Numbers start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B...0Z, followed by 10-1Z, 20-2Z, etc.

Conference Committee

Symposium Chair

Sheila S. Hemami, Northeastern University (United States)

Symposium Co-chair

Choon-Woo Kim, Inha University (Korea, Republic of)

Conference Chairs

Margaret Dolinsky, Indiana University (United States)

Ian E. McDowall, Fakespace Labs, Inc. (United States)

Session Chairs

- 1 Work Harder and Play Harder in AR/VR
Ian E. McDowall, Fakespace Labs, Inc. (United States)
- 2 Bringing New Energy to AR/VR
Margaret Dolinsky, Indiana University (United States)
- 3 Pushing the Boundaries in Data, Dimensions, and Cognition
Ian E. McDowall, Fakespace Labs, Inc. (United States)
- 4 Be Here Now: Art and Science of Being in AR/VR
Margaret Dolinsky, Indiana University (United States)
