
Event: SPIE BiOS, 2016, San Francisco, California, United States
Design and Quality for Biomedical Technologies IX

Ramesh Raghavachari
Rongguang Liang
Editors

13–14 February 2016
San Francisco, California, United States

Sponsored and Published by
SPIE

Volume 9700
The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIEDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

ISSN: 1605-7422
ISSN: 2410-9045 (electronic)
ISBN: 9781628419344

Paper Numbering: Proceedings of SPIE follow an e-First publication model. A unique citation identifier (CID) number is assigned to each article at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a six-digit CID article numbering system structured as follows:

- The first four digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

9700 17 Validation of MTF measurement for CBCT system using Monte Carlo simulations [9700-42]

9700 18 Non-contact ECG monitoring [9700-43]

9700 1A Multi-wavelength fluorescence tomography [9700-45]

9700 1B A modified laminar optical tomography system with small dip-angle and the initial validation [9700-46]

9700 1C Single-channel stereoscopic ophthalmology microscope based on TRD [9700-38]
Authors

Numbers in the index correspond to the last two digits of the six-digit citation identifier (CID) article numbering system used in Proceedings of SPIE. The first four digits reflect the volume number. Base 36 numbering is employed for the last two digits and indicates the order of articles within the volume. Numbers start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B...0Z, followed by 10-1Z, 20-2Z, etc.

Conference Committee

Symposium Chairs

James G. Fujimoto, Massachusetts Institute of Technology (United States)
R. Rox Anderson, Wellman Center for Photomedicine, Massachusetts General Hospital (United States) and Harvard School of Medicine (United States)

Program Track Chairs

Tuan Vo-Dinh, Fitzpatrick Institute for Photonics, Duke University (United States)
Anita Mahadevan-Jansen, Vanderbilt University (United States)

Conference Chairs

Ramesh Raghavachari, U.S. Food and Drug Administration (United States)
Rongguang Liang, College of Optical Sciences, The University of Arizona (United States)

Conference Co-chair

T. Joshua Pfefer, U.S. Food and Drug Administration (United States)

Conference Program Committee

David W. Allen, National Institute of Standards and Technology (United States)
Anthony J. Durkin, Beckman Laser Institute and Medical Clinic (United States)
Jeeseong Hwang, National Institute of Standards and Technology (United States)
Stephen P. Morgan, The University of Nottingham (United Kingdom)
Robert J. Nordstrom, National Institutes of Health (United States)
Jannick P. Rolland, University of Rochester (United States)
Eric J. Seibel, University of Washington (United States)
Behrouz Shabestari, National Institutes of Health (United States)
Kenji Taira, Olympus Corporation (United States)
Tomasz S. Tkaczyk, Rice University (United States)
Gracie Vargas, The University of Texas Medical Branch (United States)
Rudolf M. Verdaasdonk, Vrije University Medical Center (Netherlands)
Session Chairs

1. Phantom Development and Characterization
   Ramesh Raghavachari, U.S. Food and Drug Administration (United States)
   Anthony J. Durkin, Beckman Laser Institute and Medical Clinic (United States)

2. Printed Phantoms
   T. Joshua Pfefer, U.S. Food and Drug Administration (United States)

3. Quality of Biomedical Technologies
   William C. Vogt, U.S. Food and Drug Administration (United States)

4. Phantom Technologies
   David W. Allen, National Institute of Standards and Technology (United States)

5. Biomedical Imaging Technologies I
   Gracie Vargas, The University of Texas Medical Branch (United States)

6. Design of Biomedical Imaging Technologies
   Ramesh Raghavachari, U.S. Food and Drug Administration (United States)

7. Biomedical Imaging Technologies II
   Behrouz Shabestari, National Institutes of Health (United States)

8. Translational Technology
   Rongguang Liang, College of Optical Sciences, The University of Arizona (United States)
   Gracie Vargas, The University of Texas Medical Branch (United States)
